**Electing the Pope in Early Modern Italy, 1450-1700** Miles Pattenden, 2017 Electing the Pope in Early Modern Italy 1450-1700 offers a radical reassessment of the history of early modern papacy constructed through the first major analytical treatment of papal elections in English Papal elections with their ceremonial pomp and high drama are compelling theater but until now no one has analyzed them on the basis of the problems they created for cardinals how were they to agree rules and enforce them How should they manage the interregnum How did they decide for whom to vote How was the new pope to assert himself over a group of men who until just moments before had been his equals and peers This study traces how the cardinals' responses to these problems evolved over the period from Martin V's return to Rome in 1420 to Pius VI's departure from it in 1798 placing them in the context of the papacy's wider institutional developments Miles

Pattenden argues not only that the elective nature of the papal office was crucial to how papal history unfolded but also that the cardinals of the fifteenth to eighteenth centuries present us with a unique case study for observing the approaches to decision making and problem solving within an elite political group      The Papacy and the Orthodox Anthony Edward Siecienski, 2017 The Papacy and the Orthodox examines the centuries long debate over the primacy and authority of the Bishop of Rome especially in relation to the Christian East and offers a comprehensive history of the debate and its underlying theological issues Siecienski masterfully brings together all of the biblical patristic and historical material necessary to understand this longstanding debate This book is an invaluable resource as both Catholics and Orthodox continue to reexamine the sources and history of the debate      **The Cathars and the Albigensian Crusade** Catherine L  glu, Rebecca Rist, Claire Taylor, 2013-11-12 The Cathars and the Albigensian Crusade brings together a rich and diverse range of medieval sources to examine key aspects of the growth of heresy and dissent in southern France in the twelfth and thirteenth centuries and the Church's response to that threat through the subsequent authorisation of the Albigensian crusade Aimed at students and scholars alike the documents it discusses papal letters troubadour songs contemporary chronicles in Latin and the vernacular and inquisitorial documents reflect a deeper perception of medieval heresy and the social political and religious implications of crusading than has hitherto been possible The reader is introduced to themes which are crucial to our understanding of the medieval world ideologies of crusading and holy war the complex nature of Catharism the Church's implementation of diverse strategies to counter heresy the growth of papal inquisition southern French counter strategies of resistance and rebellion and the uses of Latin and the vernacular to express regional and cultural identity This timely and highly original collection not only brings together previously unexplored and in some cases unedited material but provides a nuanced and multi layered view of the religious social and political dimensions of one of the most infamous conflicts of the High Middle Ages This book is a valuable resource for all students teachers and researchers of medieval history and the crusades      Religion and the Rise of Democracy Graham Maddox, 2012-09-10 In a major original study Graham Maddox analyses the role of religion in the development of democracy from the tribes of ancient Israel to the present day The book contrasts Athenian direct democracy with the Old Testament monarchy in which the concept of religious opposition vital to modern democracy arose Maddox then develops his discussion of the relationship between religion and democracy through early christianity to the Reformation and Calvinism ending with a chapter on modern democracy Maddox's contentious thesis concerning the development of democracy is truly interdisciplinary drawing on political science religious history and theology      *Henry VIII and the English Reformation* Richard Rex, 2006-03-29 Abandoning the traditional narrative approach to the subject Richard Rex presents an analytical account which sets out the logic of Henry VIII's shortlived Reformation Starting with the fundamental matter of the royal supremacy Rex goes on to investigate the application of this principle to the English ecclesiastical establishment and to the traditional religion of the

people He then examines the extra impetus and the new direction which Henry's regime gave to the development of a vernacular and literate devotional culture and shows how despite Henry's best intentions serious religious divisions had emerged in England by the end of his reign The study emphasises the personal role of Henry VIII in driving the Reformation process and how this process in turn considerably reinforced the monarch's power This updated edition of a powerful interpretation of Henry VIII's Reformation retains the analytical edge and stylish lucidity of the original text while taking full account of the latest research An important new chapter elucidates the way in which politics and religion interacted in early Tudor England

Fallible Authors Alastair Minnis, 2013-02-12 Can an outrageously immoral man or a scandalous woman teach morality or lead people to virtue Does personal fallibility devalue one's words and deeds Is it possible to separate the private from the public to segregate individual failing from official function Chaucer addressed these perennial issues through two problematic authority figures the Pardoner and the Wife of Bath The Pardoner dares to assume official roles to which he has no legal claim and for which he is quite unsuited We are faced with the shocking consequences of the belief standard for the time that immorality is not necessarily a bar to effective ministry Even more subversively the Wife of Bath who represents one of the most despised stereotypes in medieval literature the sexually rapacious widow dispenses wisdom of the highest order This innovative book places these fallible authors within the full intellectual context that gave them meaning Alastair Minnis magisterially examines the impact of Aristotelian thought on preaching theory the controversial practice of granting indulgences religious and medical categorizations of deviant bodies theological attempts to rationalize sex within marriage Wycliffite doctrine that made authority dependent on individual grace and raised the specter of Donatism and heretical speculation concerning the possibility of female teachers Chaucer's Pardoner and Wife of Bath are revealed as interconnected aspects of a single radical experiment wherein the relationship between objective authority and subjective fallibility is confronted as never before

*The Transformation of a Religious Landscape* Valerie Ramseyer, 2015-10-26 The Transformation of a Religious Landscape paints a detailed picture of the sheer variety of early medieval Christian practice and organization as well as the diverse modes in which church reform manifested itself in the eleventh and twelfth centuries From the rich archives of the abbey of the Holy Trinity of Cava Valerie Ramseyer reconstructed the complex religious history of southern Italy No single religious or political figure claimed authority in the region before the eleventh century and pastoral care was provided by a wide variety of small religious houses The line between the secular and the regular clergy was not well pronounced nor was the boundary between the clergy and the laity or between eastern and western religious practices In the second half of the eleventh century however the archbishop of Salerno and the powerful abbey of Cava acted to transform the situation Centralized and hierarchical ecclesiastical structures took shape and an effort was made to standardize religious practices along the lines espoused by reform popes such as Leo IX and Gregory VII Yet prelates in southern Italy did not accept all aspects of the reform program emanating

from centers such as Rome and Cluny and the region's religious life continued to differ in many respects from that in Francia priests continued to marry and have children laypeople to found and administer churches and Greek clerics and religious practices to coexist with those sanctioned by Rome

**King John** Graham E. Seel, 2012 Through contextual analysis and by reassessing the chronicle evidence *King John: An Underrated King* presents a compelling reevaluation of the reign of King John England's most maligned sovereign With its thought provoking analysis of the key issues of John's reign such as the loss of the French territories British achievement Magna Carta relations with the church and civil war the volume presents an engaging argument for rehabilitating King John's reputation Each chapter features both narrative and contextual analysis and is prefaced by a timeline outlining the key events of the period The volume also contains an array of maps and diagrams as well as a collection of useful study questions

**Routledge Revivals: Medieval Italy (2004)** Christopher Kleinhenz, 2017-07-05 First published in 2004 *Medieval Italy: An Encyclopedia* provides an introduction to the many and diverse facets of Italian civilization from the late Roman empire to the end of the fourteenth century It presents in two volumes articles on a wide range of topics including history literature art music urban development commerce and economics social and political institutions religion and hagiography philosophy and science This illustrated A-Z reference is a cross disciplinary resource and will be of key interest not only to students and scholars of history but also to those studying a range of subjects as well as the general reader
