*A Short History of the Shadow* Charles Wright, 2014-07-22 Luminous new poems from the author of *The Appalachian Book of the Dead* Landscape as Wang Wei says softens the sharp edges of isolation Don't just do something sit there And so I have so I have the seasons curling around me like smoke Gone to the end of the earth and back without a sound Body and Soul II This is Charles Wright's first collection of verse since the completion of his *Appalachian Book of the Dead* the trilogy of trilogies hailed as one among the great long poems of the century James Longenbach *Boston Review* Wright speaks in these poems with characteristic charm restlessness and wit writing again and again I sit where I always sit only to reveal himself in a new setting every time In *A Short History of the Shadow* Wright's return to the landscapes of his early work finds his art resilient in a world haunted by death and the dead

The Semiotics of Light and Shadows Piotr Sadowski, 2017-12-28 Lighting and shadows are used within a range of art forms to create aesthetic effects Piotr Sadowski's study of light and shadow in Weimar cinema and contemporaneous visual arts is underpinned by the evolutionary semiotic theories of indexicality and iconicity These theories explain the unique communicative and emotive power of light and shadow when used in contemporary indexical media including the shadow theatre silhouette portraits camera obscura photography and film In particular Sadowski highlights the aesthetic and emotional significance of shadows The cast shadow as an indexical sign maintains a physical connection with its near present referent such as a hidden person stimulating a viewer's imagination and provoking responses including anxiety or curiosity The cinematic shadow plays a stylistic role by enhancing image texture depth of field and tonal contrast of cinematic moments Such enhancements are especially important in monochromatic films and Sadowski interweaves the book with accounts of seminal Weimar cinema moments Sadowski's book is distinctive for combining historical materials and theoretical approaches to develop a deeper understanding of Weimar cinema and other contemporary art forms *The Semiotics of Light and Shadows* is an ideal resource for both scholars and students working in linguistics semiotics film media and visual arts

**Rembrandt's Roughness** Nicola Suthor,2018-04-03

Roughness is the sensual quality most often associated with Rembrandt's idiosyncratic style. It best defines the specific structure of his painterly textures which subtly capture and engage the imagination of the beholder. Rembrandt's Roughness examines how the artist's unconventional technique pushed the possibilities of painting into startling and unexpected realms. Drawing on the phenomenological insights of Edmund Husserl as well as firsthand accounts by Rembrandt's contemporaries, Nicola Suthor provides invaluable new perspectives on many of the painter's best known masterpieces including *The Anatomy Lesson of Dr Deyman*, *The Return of the Prodigal Son*, and *Aristotle with a Bust of Homer*. She focuses on pictorial phenomena such as the thickness of the paint material, the visibility of the colored priming, and the dramatizing element of chiaroscuro, showing how they constitute Rembrandt's most effective tools for extending the representational limits of painting. Suthor explores how Rembrandt developed a visually precise handling of his artistic medium that forced his viewers to confront the paint itself as a source of meaning, its challenging complexity expressed in the subtlest stroke of his brush. A beautifully illustrated meditation on a painter like no other, Rembrandt's Roughness reflects deeply on the intellectual challenge that Rembrandt's unrivaled artistry posed to the art theory of his time and its eminent role in the history of art today.

Still Lives Maria H. Loh,2015-03-22 How portraits of artists during the Renaissance helped create the first art stars in modern history. Michelangelo was one of the biggest international art stars of his time, but being Michelangelo was no easy thing; he was stalked by fans, lauded and lambasted by critics, and depicted in unauthorized portraits. *Still Lives* traces the process by which artists such as Michelangelo, Dürer, and Titian became early modern celebrities. Artists had been subjects of biographies since antiquity, but Renaissance artists were the first whose faces were sometimes as recognizable as their art. Maria Loh shows how this transformation was aided by the rapid expansion of portraiture and self-portraiture as independent genres in painting and sculpture. She examines the challenges confronting artists in this new image economy. What did it mean to be an image maker haunted by one's own image? How did these changes affect the everyday realities of artists and their workshops? And how did images of artists contribute to the way they envisioned themselves as figures in a history that would outlive them? Richly illustrated, *Still Lives* is an original exploration of the invention of the artist portrait and a new form of secular stardom.

**A Transcultural History of Art** Jun Li,2025-08-18 This book unfolds the artistic and cultural exchanges between China, Persia, and Italy, picturing a Transcultural Renaissance on the Silk Road with fascinating readings of rich images. The author has been intensely engaged in the transcultural art history for more than a decade, spanning east and west, crossing different fields of painting, architecture, philosophy, cartography, and literature. With illuminating case studies, it also explores the intermedial play between painting and poetry, poetry and architecture, and visual art and literature. The book proposes another form of history of art: history of art is a theoretical history that interprets works of art; yet it is also a visible history of art that exists in the form of exhibitions.
