Cuevas,2005-12-08 In 1927 Oxford University Press published the first western language translation of a collection of Tibetan funerary texts the Great Liberation upon Hearing in the Bardo under the title The Tibetan Book of the Dead Since that time the work has established a powerful hold on the western popular imagination and is now considered a classic of spiritual literature Over the years The Tibetan Book of the Dead has inspired numerous commentaries an illustrated edition a play a video series and even an opera Translators scholars and popular devotees of the book have claimed to explain its esoteric ideas and reveal its hidden meaning Few however have uttered a word about its history Bryan J Cuevas seeks to fill this gap in our knowledge by offering the first comprehensive historical study of the Great Liberation upon Hearing in the Bardo and by grounding it firmly in the context of Tibetan history and culture He begins by discussing the many ways the texts have been understood and misunderstood by westerners beginning with its first editor the Oxford educated anthropologist Walter Y Evans Wentz and continuing through the present day The remarkable fame of the book in the west Cuevas argues is strikingly disproportionate to how the original Tibetan texts were perceived in their own country Cuevas tells the story of how The Tibetan Book of the Dead was compiled in Tibet of the lives of those who preserved and transmitted it and explores the history of the rituals through which the life of the dead is imagined in Tibetan society This book provides not only a fascinating look at a popular and enduring spiritual work but also a much needed corrective to the proliferation of ahistorical scholarship surrounding The Tibetan Book of the Dead

The Hidden History of the Tibetan Book of the Dead Department of Religion Florida State University Bryan J. Coevolution William H. Durham, 1991 Charles Darwin's *On the Origins of Species* had two principal goals to show that species had not been separately created and to show that natural selection had been the main force behind their proliferation and descent from common ancestors In *Coevolution* the author proposes a powerful new theory of cultural evolution that is of the descent with modification of the shared conceptual systems we call cultures that is parallel in many ways to Darwin's theory of organic evolution The author suggests that a process of cultural selection or preservation by preference driven chiefly by choice or imposition depending on the circumstances has been the main but not exclusive force of cultural change

He shows that this process gives rise to five major patterns or modes in which cultural change is at odds with genetic change. Each of the five modes is discussed in some detail and its existence confirmed through one or more case studies chosen for their heuristic value, the robustness of their data and their broader implications. But Coevolution predicts not simply the existence of the five modes of gene-culture relations; it also predicts their relative importance in the ongoing dynamics of cultural change in particular cases. The case studies themselves are lucid and innovative reexaminations of an array of oft-pondered anthropological topics: plural marriage, sickle cell anemia, basic color terms, adult lactose absorption, incest taboos, headhunting and cannibalism. In a general case, the author's goal is to demonstrate that an evolutionary analysis of both genes and culture has much to contribute to our understanding of human diversity, particularly behavioral diversity, and thus to the resolution of age-old questions about nature and nurture: genes and culture.

Tibetan Subjectivities on the Global Stage Shelly Bhoil, Enrique Galvan-Alvarez, 2018-11-08. *Tibetan Subjectivities on the Global Stage: Negotiating Dispossession* explores the many ways Tibetans are reimagining their cultural identity since the communist takeover of Tibet in the 1950s. Focusing on developments taking place in Tibet and the diaspora, this collection of essays addresses a wide range of issues at the heart of Tibetan modernity. From the political dynamics of the exiled community in India to the production of contemporary Tibetan literature in the PRC, the collection delves into various aspects of current significance for the Tibetan community worldwide, such as the construction of Bon identity in exile, the strategic use of the discourse of development, or the issue of cultural and linguistic purity in an increasingly hybrid and globalized world. Moving away from the preservationist paradigm that regards Tibetan culture as an endangered and precious object, the essays in this book portray Tibetan identities in motion as lived subjectivities that travel, change, and creatively reimagine themselves on various global stages. Even if recent Tibetan history is marked by imposed transitions and a sense of dispossession, this collection highlights the ways Tibetans have not only managed traumatic historical events but also become agents of change and reinventors of their own traditions.
