Prayer Mountain Exploring The High Places Of Prayer:

The Prayer Mountain Brother Ramon, Brother Ramon Ssf, 1998 Mountains in the Bible are places of dramatic and life changing encounter with God and they are a perfect metaphor for the challenges of spiritual life Here is a climbing tour of the mountain ranges of the soul via ten biblical mountains **Learning the Language of the Soul** Andrew D. Mayes, 2016 How can we describe to others what is happening to us on our spiritual journey How can we depict the spiritual road that we are taking experiences of prayer transitions that we travel through impediments that we face and externalize into words the interior experiences In this spiritual lexicon Andrew Mayes explores creative and inspirational metaphors to equip anyone wanting to communicate effectively about their faith or life of prayer Learning the Language of the Soul is a handbook that will prove indispensable to spiritual directors evangelists and all sharing in the witness of the church today It will loosen our tongues as we discover images from both the classic Christian tradition and contemporary culture that help us express and develop a spiritual literacy by which we share with others the joys and struggles of the inner life Beyond the Edge Andrew Mayes, 2013-11-21 Jesus calls his disciples to follow him but where does he lead us Responding to Jesus summons we find ourselves leaving familiar certainties and securities behind as we step out boldly in faith Old boundaries dissolve as we are led into liminal spaces exhilarating situations new places of discovery and radical spiritual growth In such experiences Christ reveals himself to us anew The place of risk is the threshold of the divine Beyond the Edge is for people who wish to go deeply into the spiritual life for spiritual directors and for those who walk with others on their prayer journey It can be used individually or in groups Exploring the Dead Sea Scrolls Hanan Eshel, 2015-09-16 Among the most prominent hallmarks of the late Prof Hanan Eshel 1958-2010 were his generosity passion and integrative approach The eighteen essays in this volume were selected by Prof Eshel shortly before his untimely death to be printed as a collection aimed at contextualizing the textual finds of the Dead Sea Scrolls within their archaeological settings and within the contours of contemporary scholarship The Qumran texts that stand at the center of these articles are correlated with archaeological and geographic information and with a variety of textual sources including epigraphic evidence and especially the Hebrew Bible Josephus and rabbinic texts The essays are organized according to the provenance of the discovered material with sections devoted to the Damascus Document and the scrolls from Caves 1 3 4 and 11 as well as a final more general chapter Half of the essays have been previously published in English while the other half have been translated from Hebrew here for the first time The book includes essays that have been co authored with Esther Eshel Shlomit Kendi Harel Zeev Safrai and John Strugnell High Places Denis Cosgrove, Veronica Della Dora, 2008-10-30 High mountains polar expanses volcanic peaks are exciting and special environments 13 leading international geographers explore different aspects of these environments disorientation exploration native knowledge polar research This is the first book to do this High places be they mountain peaks or the vast expanses of the polar latitudes have always captured the human imagination Inaccessible extreme they are

commonly invested with awe and reverence as places of physical challenge intense experience Increasingly they are also treated as unique locations for science High Places explores the fascinating geographies of these special environments revealing how senses are challenged objectivities exposed cultural assumptions laid bare Whether walking the summit of Pico de Orizaba the fourth highest volcano in the northern hemisphere recounting the tale of the American explorer Charles Wilkes charged with immoral mapping in Antarctica or exploring the 200 000 year old Greenland ice core the international contributors reveal the richness and significance of these unique locations Embracing Europe Asia North and Central America Antarctica and the Arctic High Places will interest geographers historians of science and those interested in polar mountain studies landscape culture and environment

In the Far East: A Narrative of Exploration and Adventure in Cochin-China, Cambodia, Laos, and Siam William Henry Davenport Adams, 2020-09-28 A CONSIDERABLE portion of the Indo Chinese peninsula is occupied by the extensive country of Cambodia or Camboja known to the natives as Kan pou chi It extends from lat 8 47 to 15 N along the basin of the Mekong Makiang or Cambodia river and is bounded on the north by Laos on the south by the Gulf of Siam and the China Sea on the east by Cochin China and on the west by Siam Formerly it was independent but since 1809 it has been included within the empire of Annam except the province of Battambang which belongs to the kingdom of Siam But since the French established themselves at Saigon in 1858 and have gradually obtained a controlling power in Annam or Cochin China their influence has also extended to Cambodia The largest river of Cambodia and of the whole Indo Chinese peninsula is the Mekong Makiang or Cambodia which rising in the mountains of China under the name of the Lan tsan kiang flows in a south easterly direction across the province of Yunnan thence under the name of the Kiou long traverses the territory of Laos and afterwards as the Mekong intersects Cambodia dividing the Annam portion from that which belongs to Siam separates into several branches and finally falls into the China Sea after a fertilizing course of about fifteen hundred miles Its two principal mouths are those of the Japanese and Oubequum channels There are several smaller mouths however the southernmost of which is situated in lat 9 30 N and long 106 20 E Very little was known of this great river until the French had made themselves masters of Saigon It has since been explored in parts of its course by M Mouhot Lieutenant Garnier and others The country which it waters possesses many features of interest and the scenery through which it flows is often of a romantic and beautiful character The manners and customs of the people dwelling on its banks are not unworthy of consideration and we propose therefore to carry the reader with us on a voyage up this magnificent stream penetrating under the guidance of Lieutenant Garnier into hitherto unexplored parts of Cambodia and even into China itself
