its key players debates and ideas in the disciplines that most rely on its legacy namely philosophy and political science Edited by Geoff Boucher and Henry Martyn Lloyd Rethinking the Enlightenment makes the case for connecting new work in intellectual history with fresh understandings of Continental philosophy and political theory In doing so in this collection moves towards a critical self understanding of the present Philosophy Between the Lines Arthur M. Melzer,2014-09-09 Shines a floodlight on a topic that has been cloaked in obscurity a landmark work in both intellectual history and political theory The Wall Street Journal Philosophical esotericism the practice of communicating one s unorthodox thoughts between the lines was a common practice until the end of the eighteenth century Despite its long and well documented history however esotericism is often dismissed today as a rare occurrence But by ignoring esotericism we risk cutting ourselves off from a full understanding of Western philosophical thought Walking readers through both an ancient Plato and a modern Machiavelli esoteric work Arthur M Melzer explains what esotericism is and is not It relies not on secret codes but simply on a more intensive use of familiar rhetorical techniques like metaphor irony and insinuation Melzer explores the various motives that led thinkers in different times and places to engage in this strange practice while also exploring the motives that lead more recent thinkers not only to dislike and avoid this practice but to deny its very existence In the book s final section A Beginner s Guide to Esoteric Reading Melzer turns to how we might once again cultivate the long forgotten art of reading esoteric works The first comprehensive book length study of the history and theoretical basis of philosophical esotericism Philosophy Between the Lines is a treasure house of insight and learning It is that rare thing an eye opening book By making the world before Enlightenment appear as strange as it truly was Melzer makes our world stranger than we think it is George Kateb Professor of Politics Emeritus at Princeton University Brilliant pellucid and meticulously researched City Journal

The Psychology of Inequality Michael Locke McLendon, 2018-11-19 In The Psychology of Inequality Michael Locke McLendon looks to Jean Jacques Rousseau's thought for insight into the personal and social pathologies that plague commercial and democratic societies He emphasizes the way Rousseau appropriated and modified the notion of self love or amour propre found in Augustine and various early modern thinkers McLendon traces the concept in Rousseau's work and reveals it to be a form of selfish vanity that mimics aspects of Homeric honor culture and in the modern world shapes the outlook of the wealthy and powerful as well as the underlying assumptions of meritocratic ideals According to McLendon Rousseau's elucidation of amour propre describes a desire for glory and preeminence that can be dangerously antisocial as those who believe themselves superior derive pleasure from dominating and even harming those they consider beneath them Drawing on Rousseau's insights McLendon asserts that certain forms of inequality especially those associated with classical aristocracy and modern day meritocracy can corrupt the mindsets and personalities of people in socially disruptive ways The Psychology of Inequality shows how amour propre can be transformed into the demand for praise whether or not one displays praiseworthy qualities and demonstrates the ways in which this pathology continues to play a leading role in the psychology and politics of modern liberal democracies

The Other Enlightenment Matthew Sharpe, 2023-02-16 Challenging widespread misunderstandings this book shows that central to key enlightenment texts was the practice of estranging taken for granted prejudices by adopting the perspective of Others The enlightenment's key progenitors led by Montesquieu Voltaire and Diderot were more empiricist than rationalist and more critical than utopian Moreover each was an artful exponent of the proto postmodernist practice of asking Europeans to review what they considered unquestionable through the eyes of Others Persians women Tahitians Londoners natives and natives the blind and even imaginary extra terrestrials This book aims to show that this self estrangement as a means to gain critical distance from one's taken for granted assumptions was central to the enlightenment and remains vital for critical and constructive sociopolitical thinking today
