Herbert Spencer 1820 1903 was an English philosopher best known for his scientific writings Together with Charles Darwin and Thomas Huxley he was responsible for the acceptance of the theory of evolution His well known essay on Education Intellectual Moral and Physical was considered one of the most useful and profound books written on education He projected a vast 10 volume work Synthetic Philosophy in which all phenomena are interpreted according to the principle of evolutionary progress Although no longer influential in biology his extension of his theory of evolution to psychology and sociology remains important His Social Darwinism was particularly influential on early evolutionary economists such as Thorstein Veblen As subeditor of the Economist 1843 53 Spencer was an influential exponent of laissez faire His early book Social Statics 1851 was strongly tinged with an individualistic outlook **The Development of Ethics: Volume 1** Terence Irwin, 2007-09-20

The Development of Ethics is a selective historical and critical study of moral philosophy in the Socratic tradition with special attention to Aristotelian naturalism its formation elaboration criticism and defence It discusses the main topics of moral philosophy as they have developed historically including the human good human nature justice friendship and morality the methods of moral inquiry the virtues and their connexions will freedom and responsibility reason and emotion relativism subjectivism and realism the theological aspect of morality This volume examines ancient and medieval philosophy up to the sixteenth century Volumes 2 and 3 will continue the story up to Rawls s Theory of Justice The present volume begins with Socrates the Cyrenaics and Cynics and Plato and then offers a fuller account of Aristotle stressing the systematic naturalism of his position The Stoic position is compared with the Aristotelian at some length Epicureans and Sceptics are discussed more briefly Chapters on early Christianity and on Augustine introduce a fuller examination of Aquinas revision elaboration and defence of Aristotelian naturalism The volume closes with an account of some criticisms of the Aristotelian outlook by Scotus Ockham Machiavelli and some sixteenth century Reformers The emphasis of the book is not purely descriptive narrative or exegetical but also philosophical Irwin discusses the comparative merits of different views the difficulties that they raise and how some of the difficulties might be resolved The book tries to present the leading moral philosophers of the past as participants in a rational discussion that is still being carried on and tries to help the reader to participate in this discussion *Military Medical Ethics, Volume 1* , Christian Ethics, Volume 1 Karl-Heinz Peschke, 2012-08-21

This recent edition of Christian Ethics Volume I is a thoroughly revised and updated version of fundamental moral theology As in the previous editions the author makes himself an interpreter of the demands of Vatican Council II and its request that moral theology be rooted more fully in Holy Scripture At the same time account is taken of the new developments in the field of ethics New issues of actual concern are taken up such as the deontological and teleological conditions of moral norms the confrontation between conscience and civil or ecclesiastical law the communal roots of Christian identity the requirement of liberty and the ethical compromise The book addresses itself to all who are interested in

the moral teaching of the Christian faith and endeavors to be a helpful instrument to this end
