The American, 1882 *Doctrine, Practice, and Advocacy in the Inter-American Human Rights System* James L. Cavallaro, Claret Vargas, Clara Sandoval, Bernard Duhaime, 2019-06-20

Doctrine Practice and Advocacy in the Inter American Human Rights System is the first casebook to focus on the Inter American human rights system the primary system for advancing and protecting rights in the Western hemisphere Created by the Organization of American States the Inter American Commission on Human Rights and the Inter American Court of Human Rights are autonomous and independent bodies that make up the Inter American system Together they play a vital role working closely with victims civil society and states to protect fundamental human rights in the Western hemisphere particularly in Latin America While the system is relatively unknown in legal academia in the United States and Canada its study is mandatory in most law schools in the Americas Government appointees civil servants high level actors private attorneys judges and legal scholars and media regularly engage with the system in Latin America implementing its determinations and applying its rulings and interpretations concerning the human rights of their citizens Thus critical matters affecting vital rights such as the peace process in Colombia disappearances in Mexico gang violence in the Northern Triangle El Salvador Honduras and Guatemala or trials for perpetrators of crimes against humanity in Argentina all directly involve the rulings and actors of the Inter American system Increasingly the Inter American system has advanced rights protection in the United States and Canada The statements and determinations of the Inter American Commission on the detention center at Guantanamo for example led to a global consensus opposing the prolonged use of pretrial detention at that site while the Commission's ruling on the juvenile death penalty was cited by the United States Supreme Court in its holding finding that practice unconstitutional A report by the Commission on murdered and missing indigenous women in British Columbia led to the creation of a National Commission of Inquiry on the subject by Canada This book provides analysis on a wide range of practical issues that advocates face when interacting with the Commission or Court and explores current debates on possible reforms of the system At the same time it provides materials that consider the political dynamics that empower and constrain the system

Doctrine Practice and Advocacy in the Inter American Human Rights System takes as its point of departure a critical look at the real world successes and failures of the system and human rights advocates in the Americas including the tensions and trade offs commonly confronted by activists as they seek to advance human rights
