The Three Laws of International Investment Jeswald W. Salacuse, 2013-02-14 International investments are governed by three different legal frameworks 1 national laws of both the host country and the investor's home country 2 contracts whether between the investor and the host country or among investors and their associates and 3 international law consisting of applicable treaties customs and general principles of law Together these three frameworks profoundly influence the organization operation and protection of foreign investments Investors government officials and their legal counsel must therefore understand the complex interaction among these frameworks and how best to employ them to advance their interests This book examines the content of each of these three legal frameworks for international investment and explores how they influence the foreign investment process and the nature of investment transactions projects and enterprises The

book is divided into five parts Part I after explaining the contemporary nature and significance of international investment examines the theoretical and practical links between law and the investment process Part II explores the nature of national laws regulating foreign investment Part III considers of the various contractual frameworks for international investments looking at their negotiation content and stability Part IV sets out the international legal framework governing foreign investment focusing on the content and nature of investment treaties and on general principles Finally Part V discusses how the three legal frameworks interact with each other By comprehensively examining each of the applicable legal frameworks this book provides a vital overview of the laws rules and regulations governing foreign investment for lawyers scholars students and government officials Attracting Foreign Direct Investment Into Infrastructure Frank Sader,2000 Printed on Demand Limited stock is held for this title If you would like to order 30 copies or more please contact books.worldbank.org Contact books.worldbank.org if currently unavailable FIAS Occasional Papers no 12 During the early 1990s the Foreign Investment Advisory Service FIAS a joint facility of the World Bank and the International Finance Corporation IFC found that governments and foreign investors alike were concerned and frustrated about difficulties in successfully implementing private infrastructure projects Governments were trying to attract these new types of investment without having established an appropriate policy framework Therefore there were no institutional structures to resolve impediments effectively and provide clear guidelines for the award of such large scale projects Legal frameworks tended to address traditional public sector responsibilities and not investor concerns Regulatory environments either did not exist or did not provide investors enough guarantees that their future operating environment would be sufficiently reliable Consequently FIAS has been advising many governments in the developing world on the best way to establish a policy framework attractive to foreign investors FIAS typically combines its review of the institutional legal and regulatory environment with investor roundtables and workshops for senior government officials to ensure that all the major concerns of both the government and the private sector are taken into account Although each country has unique policy problems FIAS has encountered common features in key areas that pose stumbling blocks for private infrastructure investments This study synthesizes this experience and derives lessons for facilitating and encouraging foreign direct investment in infrastructure Development Report ,1987

International Investment Arbitration Mohamed A.M. Ismail,2016-04-22 Arbitration is the most common mechanism for disputes settlement in developing countries Following the move to free market economies arbitration will play an increasingly fundamental role in order to protect foreign investors in the Middle East and North African Region MENA This book examines the pulse and dynamics of international investment arbitration and the new era of mediation in state contracts in the region The author explores the harmonization of international arbitration and the sensitive issue of le Contrat Administratif in Middle East civil law countries The volume also discusses the pivotal role of international organizations such as UNCTAD and ICSID in codifying fair and prompt mechanisms for dispute settlement Using Latin American countries as a

prime example of how international legislative instruments serve international investment law principles and comparing Latin American experiences where appropriate the book demonstrates how lessons can be learned in respect of alternative dispute resolution international commercial arbitration and investor states arbitration It provides suggestions and recommendations for the future and includes useful appendices detailing recent worldwide trends regional and international instruments in the arbitration world

Economic Policies Towards Less Developed Countries Harry Johnson,2021-07-29 Originally published in 1967 this book examines the major problems of trade and aid policy posed for the developed countries by the UN Conference on Trade and Development in 1964 Johnson surveys the political and economic setting of the Conference international aspects of economic development trade policy to promote development possible new international arrangements for trade in primary products and the possibilities offered by international monetary reform for benefitting less developed countries The divergence between the well being of developed and less developed countries remains one the key problems of our time and this book is therefore as relevant now as when it was first published

International Investment, Political Risk, and Growth Philipp Harms,2012-12-06 Following substantial policy reforms in many countries the past decade has been characterized by a remarkable increase of long term private capital flows to the developing world However the bulk of these investments has concentrated on a few economies at the intermediate level of the international income distribution while the large number of low income countries has been mostly neglected by international investors Starting from these observations International Investment Political Risk and Growth analyzes the potential growth effects of liberalizing investment regimes in developing economies and offers an explanation for the apparent bias of private capital flows towards middle income countries It demonstrates that the removal of investment barriers may liberate an economy from a vicious circle of poverty unproductive saving and low growth and presents a novel approach to analyzing the role of political risk as a major impediment to greater private capital inflows Offering a combination of theoretical models and empirical analysis and discussing both the historical evidence and the recent literature this book contributes to a better understanding of the determinants and consequences of international investment in developing countries
