The History of British Literature on Film, 1895-2015 Greg M. Colón Semenza, Bob Hasenfratz, Robert J. Hasenfratz, 2017-01-26 From *The Death of Nancy Sykes* 1897 to *The Hobbit The Battle of the Five Armies* 2014 and beyond cinematic adaptations of British literature participate in a complex and fascinating history *The History of British Literature on Film 1895-2015* is the only comprehensive narration of cinema's 100 year old love affair with British literature Unlike previous studies of literature and film which tend to privilege particular authors such as Shakespeare and Jane Austen or particular texts such as *Frankenstein* or particular literary

periods such as Medieval this volume considers the multiple functions of filmed British literature as a cinematic subject in its own right one reflecting the specific political and aesthetic priorities of different national and historical cinemas In what ways has the British literary canon authorized and influenced the history and aesthetics of film and in what ways has filmed British literature both affirmed and challenged the very idea of literary canonicity Seeking to answer these and other key questions this indispensable study shows how these adaptations emerged from and continue to shape the social artistic and commercial aspects of film history *Past and Present* James Chapman,2005-09-23 This ground breaking book takes as its focal point director Ken Loach s view that The only reason to make films that are a reflection on history is to talk about the present In the first book to take on this major genre in all its complexity James Chapman argues that historical films say as much about the times in which they are made as about the past they purport to portray Through in depth case studies of fourteen key films spanning the 1930s up to the turn of the twenty first century from *The Private Life of Henry VIII* and *Zulu* to *Chariots of Fire* and *Elizabeth* Chapman examines the place of historical films in British cinema history and film culture Looking closely at the issues that they present from gender class and ethnicity to militarism and imperialism he also discusses controversies over historical accuracy and the ways in which devices such as voice overs title captions and visual references to photographs and paintings assert a sense of historical verisimilitude Exploring throughout the book the dialectical relationship between past and present Chapman reveals how such films promote British achievements but also sometimes question them and how they project images of Britishness to audiences both in the UK and internationally
