This book provides an engaging, accessible, and exciting new history of French literature from the Renaissance through the twentieth century, from Rabelais and Marguerite de Navarre to Samuel Beckett and Assia Djebar. Christopher Prendergast, one of today's most distinguished authorities on French literature, has gathered a transatlantic group of more than thirty leading scholars who provide original essays on carefully selected writers, works, and topics that open a window onto key chapters of French literary history. The book begins in the sixteenth century with the formation of a modern national literary consciousness and ends in the late twentieth century with the idea of the national coming increasingly into question as inherited meanings of French and Frenchness expand beyond the geographical limits of mainland France. Provides an exciting new account of French literary history from the Renaissance to the end of the twentieth century. Features more than thirty original essays on key writers, works, and topics written by a distinguished transatlantic group of scholars. Includes an introduction and index. The contributors include Etienne Beaulieu, Christopher Braider, Peter Brooks, Mary Ann Caws, David Coward, Nicholas Cronk, Edwin M. Duval, Mary Gallagher, Raymond Geuss, Timothy Hampton, Nicholas Harrison, Katherine Ibbett, Michael Lucey, Susan Maslan, Eric M. Choulan, Hassan Melehy, Larry F. Tunstall, Steven Ungar, and Wes Williams. *French Literature* Alison Finch, 2013-04-23 This book is the first to offer a cultural history of French literature from its very beginnings, analysing the relationship between French literature and France's evolving power structures from the Middle Ages through to the present day. It shows the political connections between the elite literature of France and other aspects of its culture, from racism, misogyny, tolerance, and liberal reform to song, street performance, advertising, and cinema. The nation's literature contributed to these and was shaped by them. The book highlights the continuities and the unique fault lines in the society that over a millennium has produced French culture. It looks at France's early and continuing struggle for a national identity through both its language and its literature, and it shows that this struggle co-exists with openness to other cultures and a bawdy or subtle rebelliousness against the Church and other forms of authority. En route, it takes in cuisine, gardens, and the French tradition in mathematics. The survey provides an accessible approach to key issues in the history of French culture as
