Any unprejudiced attempt to form from the text books now in use an estimate of the state of our knowledge of the history of art among the Greeks will force us to own with shame that we appear to know and to utilize the monuments far less than did Winckelmann in his day. Winckelmann's *History of Art* is wholly based upon a fresh and personal observation of the monuments of which he makes a constant and extensive use. Our more recent histories of art are wont to take into consideration only one and the same small group of monuments, an accidental section of the mass of what has been preserved. Ever since Brunn laid with a master hand the foundation for the history and the characterization of the Greek artists so far as these can be gathered from the traditions of the ancients, writers have for the most part been content to repeat what he established, only perhaps adding an occasional selected monument to trim as it were the fabric of his weaving. Still it was quite justifiable to be thus prudent and cautious in dealing with the monuments so long as we only painfully groped our way amidst the wealth of remains without knowing how they should be utilized; it was certainly better to limit investigation to the

little which was ascertained than to venture without stay or support upon the ocean of what actually exists Modern science however has afforded us a stay which enables us to keep steadily in the direction of our goal Any one who understands how to observe the monuments and who is willing with indefatigable ardour to test afresh and compare all forms may nowadays by means of photography which helps to fix the individual objects obtain a picture of Greek art far more richly coloured than the pale and meagre image we have hitherto possessed I know that many fellow scholars are engaged upon these lines and it is only by combined effort that we shall be able to advance Each must bring what contributions he can About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
