Mastery And Slavery In Victorian Writing:

Mastery and Slavery in Victorian Writing J. Taylor, 2002-12-17 Taking Hegel's famous Master Slave Dialectic as its starting point this wide ranging book examines portrayals of masters slaves and servants in works by Carlyle Dickens Eliot Collins and others The questions raised about modern mastery and slavery are pursued in relation to intriguing nineteenth century figures as the American slave holder the musician the demagogue and the Jew [The Idea of Music in Victorian Fiction](#) Dr Nicky Losseff, Dr Sophie Fuller, 2013-01-28 The Idea of Music in Victorian Fiction seeks to address fundamental questions about the function meaning and understanding of music in nineteenth century culture and society as mediated through works of fiction The eleven essays here written by musicologists and literary scholars range over a wide selection of works by both canonical writers such as Austen Benson Carlyle Collins Gaskell Gissing Eliot Hardy du Maurier and Wilde and less well known figures such as Gertrude Hudson and Elizabeth Sara Sheppard Each essay explores different strategies for interpreting the idea of music in the Victorian novel Some focus on the degree to which scenes involving music illuminate what music meant to the writer and contemporary performers and listeners and signify musical tastes of the time and the reception of particular composers Other essays in the volume examine aspects of gender race sexuality and class that are illuminated by the deployment of music by the novelist Together with its companion volume The Figure of Music in Nineteenth Century British Poetry edited by Phyllis Weliver Ashgate 2005 this collection suggests a new network of methodologies for the continuing cultural and social investigation of nineteenth century music as reflected in that period's literary output *Laughter, Literature, Violence, 1840-1930* Jonathan Taylor, 2019-02-04 Laughter Literature Violence 1840 1930 investigates the strange complex even paradoxical relationship between laughter on the one hand and violence war horror death on the other It does so in relation to philosophy politics and key nineteenth and twentieth century literary texts by Edgar Allan Poe Edmund Gosse Wyndham Lewis and Katherine Mansfield texts which explore the far reaches of Schadenfreude and so called superiority theories of laughter pushing these theories to breaking point In these literary texts the violent superiority often ascribed to laughter is seen as radically unstable co existing with its opposite an anarchic sense of equality Laughter humour and comedy are slippery duplicitous ambivalent self contradictory hybrids fusing apparently discordant elements Now and then though literary and philosophical texts also dream of a different kind of laughter one which reaches beyond its alloys a transcendent perfect laughter which exists only in and for itself *The American Slave Narrative and the Victorian Novel* Julia Sun-Joo Lee, 2010-04-09 This title explores the influence of the American slave narrative on the Victorian novel The book argues that Charlotte Bronte Charles Dickens and Robert Louis Stevenson integrated into their works elements of the slave narrative **George Du Maurier: Illustrator, Author, Critic** Simon Cooke, Paul Goldman, 2017-05-15 Though well known as the author of Trilby and the creator of Svengali the writer artist George Du Maurier had many other accomplishments that are less familiar to modern audiences This collection traces Du

Maurier's role as a participant in the wider cultural life of his time restoring him to his proper status as a major Victorian figure. Divided into sections the volume considers Du Maurier as an artist, illustrator and novelist who helped to form some of the key ideas of his time. The contributors place his life and work in the context of his treatment of Judaism and Jewishness, his fascination with urbanization, Victorian science, technology and clairvoyance, his friendships and influences and his impact on notions of consumerism and taste. As an illustrator, Du Maurier collaborated with Thomas Hardy, Elizabeth Gaskell and sensational writers such as M. E. Braddon and the author of *The Notting Hill Mystery*. These partnerships along with his reflections on the art of illustration are considered in detail. Impossible to categorize, Du Maurier was an Anglo-Frenchman with cultural linkages in France, England and America, a social commentator with an interest in *The New Woman*, a Punch humourist and a friend of Henry James with whom he shared a particular interest in the writing of domesticity and domestic settings. Closing with a consideration of Du Maurier's afterlife, notably the treatment of his work in film, this collection highlights his diverse achievements and makes a case for his enduring significance.

Fictions of Autonomy Andrew Goldstone, 2013-01-10. No aspect of modernist literature has attracted more passionate defenses or more furious denunciations than its affinity for the idea of autonomy. A belief in art as a law unto itself is central to the work of many writers from the late nineteenth century to the present. But is this belief just a way of denying art's social contexts, its roots in the lives of its creators, its political and ethical obligations? *Fictions of Autonomy* argues that the concept of autonomy is on the contrary essential for understanding modernism historically. Disputing the prevailing skepticism about autonomy, Andrew Goldstone shows that the pursuit of relative independence within society is modernism's distinctive way of relating to its contexts. Modernist autonomy is grounded in connections to servants and audiences, aging bodies and wardrobe choices; it joins T. S. Eliot to Adorno as exponents of late style and Djuna Barnes to Joyce as anti-communal cosmopolitans. *Autonomy* reveals new affinities across an expansive modernist field, from Henry James and Proust to Stevens and de Man. Drawing on Bourdieu's sociology, formalist reading and historical contextualization, this book shows autonomy's range and its limitations as a modernist mode of social practice. Nothing less than an argument for a wholesale revision of the assumptions of modernist studies, *Fictions of Autonomy* is also an intervention in literary theory. This book shows why anyone interested in literary history, the sociology of culture and aesthetics needs to take account of the social, stylistic and political significance of the problem and the potential of autonomy.

Science and Omniscience in Nineteenth Century Literature Jonathan Taylor, 2007. Investigates some of the ways in which Laplacean and indeed Newtonian models of observation and the universe are at once assimilated and complicated by Romantic and Victorian writers such as Carlyle, Burke, Abbott, Poe and Wordsworth. This book explains how some of these literary reimaginings look forward to more modern conceptions of science.

George Eliot and the Gothic Novel Royce Mahawatte, 2013-03-30. *George Eliot and the Gothic Novel* is the first monograph to systematically explore George Eliot's relationship to Gothic genres. It considers the ways in which the author's

ethics link to sensational story telling tropes Reappraising the major works of fiction this study compares passages of Eliot s writing with sequences from eighteenth and nineteenth century Gothic works Royce Mahawatte examines Eliot s deployment of for example the incarcerated heroine in Middlemarch doppelgangers in Romola and vampiric queerness in Daniel Deronda In doing so he lifts Eliot from the boundaries of social realism and places her within a broader and richer Victorian literary scene than has been previously considered

Victorian Skin Pamela K. Gilbert,2019-03-15 In *Victorian Skin* Pamela K. Gilbert uses literary philosophical medical and scientific discourses about skin to trace the development of a broader discussion of what it meant to be human in the nineteenth century Where is subjectivity located How do we communicate with and understand each other s feelings How does our surface which contains us and presents us to others function and what does it signify As Gilbert shows for Victorians the skin was a text to be read Nineteenth century scientific and philosophical perspectives had reconfigured the purpose and meaning of this organ as more than a wrapping and instead a membrane integral to the generation of the self Victorian writers embraced this complex perspective on skin even as sanitary writings focused on the surface of the body as a dangerous point of contact between self and others Drawing on novels and stories by Dickens Collins Hardy and Wilde among others along with their French contemporaries and precursors among the eighteenth century Scottish thinkers and German idealists Gilbert examines the understandings and representations of skin in four categories as a surface for the sensing and expressive self as a permeable boundary as an alienable substance and as the site of inherent and inscribed properties At the same time Gilbert connects the ways in which Victorians read skin to the way in which Victorian readers and subsequent literary critics read works of literature and historical events especially the French Revolution From blushing and flaying to scarring and tattooing *Victorian Skin* tracks the fraught relationship between ourselves and our skin

Alexander, 2015-06-15 The Victorians are known for their commitment to materialism evidenced by the dominance of empiricism in the sciences and realism in fiction Yet there were other strains of thinking during the period in the physical sciences social sciences and literature that privileged the spaces between the material and immaterial This book examines how the emerging language of the imponderable helped Victorian writers and physicists make sense of new experiences of modernity As Sarah Alexander argues while Victorian physicists were theorizing ether energy and entropy and non Euclidean space and atom theories writers such as Charles Dickens William Morris and Joseph Conrad used concepts of the imponderable to explore key issues of capitalism imperialism and social unrest *Victorian Literary Mesmerism* Martin Willis, Catherine Wynne, 2006 *Victorian Literary Mesmerism* offers eleven interdisciplinary essays on the intersections between mesmerism and nineteenth century literature Its scope is complex and ambitious ranging from considerations of the
