New Models in Geography Richard Peet, Professor Nigel Thrift, 1989-10-12 First Published in 1989 Routledge is an imprint of Taylor Francis an informa company New Models in Geography ,2001 Two decades after the publication of the seminal *Models in Geography* edited by Richard Chorley Peter Haggett this major collection of specially commissioned essays charts the new human geography from the perspective of political economy Providing surveys of recent trends in theory bibliographic guides to the literature and pointers to advances and frontiers in thinking the book ranges from cultural to economic and urban geography The authors explore the connections between political economy and geographical thought in each area with the emphasis lying on the processes of material production and social reproduction *New Models in Geography - Vol 1* Richard Peet, Nigel Thrift, 2002-11-01 First Published in 2004 It seems such a long time ago another age yet it is a mere twenty odd years since the original *Models in Geography* was published It is an even shorter time since the first tentative steps were taken towards an alternative formulation of what might constitute a geographical perspective within the social sciences What came to be called the political economy perspective has progressed with remarkable speed and energy to generate its own framework of conceptualization and analysis its own questions and debates The papers in these two volumes are witness to the richness and range of the work which has developed over this relatively short period within the political economy approach Moreover from being a debate within an institutionally defined discipline of geography to introducing into that discipline ideas and discussions from the wider fields of philosophy and social science and the humanities more generally it has now flowered into a consistent part of enquiries that span the entire realm of social studies

New Models in Geography Richard Peet, N. J. Thrift, 1989 Annotation Two decades after the publication of the seminal *Models in Geography* edited by Richard Chorley Peter Haggett this major collection of specially commissioned essays charts the new human geography from the perspective of political economy Providing surveys of recent trends in theory bibliographic guides to the literature and pointers to advances and frontiers in thinking the book ranges from cultural to economic and urban geography The authors explore the connections between political economy and geographical thought in each area with the emphasis lying on the processes of material production and social reproduction *New Models in Geography* Richard Peet, 1989 **New Models In Geography** Richard Peet, Nigel Thrift, 2013-10-11 First published in 1989 It seems such a long time ago another age yet it is a mere twenty odd years since the original *Models in Geography* was published It is an even shorter time since the first tentative steps were taken towards an alternative formulation of what might constitute a geographical perspective within the social sciences What came to be called the political economy perspective has progressed with remarkable speed and energy to generate its own framework of conceptualization and analysis its own questions and debates The papers in these two volumes are witness to the richness and range of the work which has developed over this relatively short period within the political economy approach Moreover from being a debate

within an institutionally defined discipline of geography to introducing into that discipline ideas and discussions from the wider fields of philosophy and social science and the humanities more generally it has now flowered into a consistent part of enquiries that span the entire realm of social studies Political Economy and Tourism Jan Mosedale,2010-01-11 Political economy in its various guises and transfigurations is a research philosophy that presents both social commentary and theoretical progress and is concerned with a number of different topics politics regulation and governance production systems social relations inequality and development amongst many others As a critical theory political economy seeks to provide an understanding of societies and of the structures and social relations that form them in order to evoke social change toward more equitable conditions Despite the early influence of critical development studies and political economy on tourism research political economy has received relatively little attention in tourism research Political Economy and Tourism the first volume to bring together different theoretical perspectives and discourse in political economy related to tourism Written by leading scholars the text is organised into three sequential Parts linked by the principle that the political and the economic are intimately connected Part one presents different approaches to political economy including Marxist political economy regulation comparative political economy commodity chain research and alternative political economies Part two links key themes of political economy such as class gender labour development and consumption to tourism and Part three examines the political economy at various geographical scales and focuses on the outcomes and processes of the political act of planning and managing tourism production This engaging volume provides insights and alternative critical perspectives on political economy theory to expand discussions of tourism development and policy in the future Political Economy and Tourism is a valuable text for students researchers and academics interested in Tourism and related disciplines The New Enclosure Brett Christophers,2018-11-06 Much has been written about Britain's trailblazing post 1970s privatization program but the biggest privatization of them all has until now escaped scrutiny the privatization of land Since Margaret Thatcher took power in 1979 and hidden from the public eye about 10 per cent of the entire British land mass including some of its most valuable real estate has passed from public to private hands Forest land defence land health service land and above all else local authority land for farming and school sports for recreation and housing has been sold off en masse Why How And with what social economic and political consequences The New Enclosure provides the first ever study of this profoundly significant phenomenon situating it as a centrepiece of neoliberalism in Britain and as a successor programme to the original eighteenth century enclosures With more public land still slated for disposal the book identifies the stakes and asks what if anything can and should be done **Service Provision and Rural Sustainability** Greg Halseth,Sean Markey,Laura Ryser,2018-10-25 Access to quality services and community infrastructure are vital parts of supporting sustainable and resilient rural and small town places Renewing outdated infrastructure and supporting the delivery of services in rural communities present significant challenges from the constrained fiscal and policy realities of the 21st

century Drawing upon contributors from five Organization for Economic Co operation and Development OECD countries this book describes innovative service delivery and community infrastructure models that are appropriate to the contemporary rural and resource dependent regions of developed economies The examples show that an entrepreneurial approach to service delivery and infrastructure provision by local organizations and governments is needed Critical economic and community development supports are crucial to assist creative and innovative sets of solutions that work for small communities Chapters in this book argue that community development foundations for resilient rural and small town communities and regions must be co constructed and co delivered in partnership by both local and senior government actors in terms of both policy and committed resources This volume will be extremely valuable for students scholars and community development practitioners exploring policy making government initiatives and community service provision in rural and small town places

Education for Sustainable Development Brian Chalkley, Martin Haigh, David Higgitt, 2013-09-13 In 2005 The United Nations launched its Decade of Education for Sustainable Development which recognises that education including Higher Education is the key to the change in social attitudes that will be needed to protect the welfare of future generations This involves helping learners to live as though the future matters and to achieve ecoliteracy This includes the understanding that personal lifestyle decisions may have consequences ranging from climate change through loss of biodiversity to pollution and resource depletion that may permit environmental degradation on a planetary scale It also involves helping them to develop the skills needed to cope with such challenges This international collection of research papers and position statements from special issues of the Journal of Geography in Higher Education and Applied Environmental Education and Communication written by many of the leading practitioners in the field aims to provide resources and practical guidance for all seeking to promote and engage in education for a sustainable future Rabindranath Tagore encouraged each learner to make their actions demonstrate a harmonious union between education and environment David Orr argued that the world needs people who live well in their places to make the world both habitable and humane and that the main challenge for education is to help learners make their minds fit for life on Earth This book tries to chart a practical route towards these objectives This book was previously published as special issues of the Journal of Geography in Higher Education and Applied Environmental Education and Communication

Redescribing Horizontal Geographies Olaf Kühne, 2024-06-08 The first book in the series provides the concept of a theoretical redefinition of horizontal geographies These denote the spatial syntheses as undertaken in various disciplines whether as regional studies area studies new regional geography and many more The basis of the redescription is philosophical neopragmatism which has occasionally been taken up in the spatial sciences but has never been differentiated into a theory driven empirical research program This development of the research program guides the present book Philosophical neopragmatism especially as conceptualized by Richard Rorty focuses in particular on

contingency of society self and language which also allows spatial syntheses to be understood not as images of reality but as contingent proposals for redescribing spaces As a result of the complexity of spatial processes their horizontal geographic study requires a triangulation of theories methods researcher perspectives data and the involvement of people without expert special knowledge To highlight the contingency of the spatial syntheses the presentation of the results here especially graphic and cartographic resorts to the attitude of irony Regarding the six levels of trigangulation neopragmatism acts as a meta theoretical orientation framework Against the background of the complexity of spatial developments on the one hand and to operationalize Rorty s principle of private self creation and public solidarity on the other hand Ralf Dahrendorf s concept of life chances is drawn upon Especially in the differentiation of this concept made in this book it serves on the one hand for an understanding access of the also spatial expression of options and ligatures and on the other hand it offers a normative framework for the evaluation of socio spatial developments The reference to neopragmatic studies on spatial syntheses conducted to date and evaluated in this book shows the potential of the approach elaborated here in conceptual detail for the first time
