## Long Lankin Gallerys:

**Long Lankin** John Banville, 2013-07-02 A collection of short stories from the early years of the Man Booker Prize winning author's career that explores the passionate emotions fear jealousy desire that course beneath the surface of everyday life From a couple at risk of being torn apart by the allure of wealth to an old man's descent into nature the tales in this collection showcase the talents that launched Banville onto the literary scene Offering a unique insight into the mind of one of the great living masters of English language prose Los Angeles Times these nine haunting sketches stand alone as canny observations on the turbulence of the human condition **The Supreme Fictions of John Banville** Joseph McMinn, 1999

This work offers a critical commentary on the range of John Banville's fiction including the plays and views that fiction in the contexts of contemporary critical theory particularly those of postmodernism and feminism It argues that Banville's work is deeply influenced by romantic and modernist mythologies of the creative imagination especially those expressed by Coleridge and Wallace Stevens Banville's interest in systems of knowledge and forms of representation is a major issue in the study and McMinn investigates his use of paintings as metaphors Visions of Alterity Elke D'hoker, 2021-11-15 Visions of Alterity

Representation in the Works of John Banville offers detailed and original readings of the work of the Irish author John Banville one of the foremost figures in contemporary European literature It investigates one of the fundamental concerns of Banville's novels mediating the gap between subject and object or self and world in representation By drawing on the rich history of the problem of representation in literature philosophy and literary theory this study provides a thorough insight into the rich philosophical and intertextual dimension of Banville's fiction In close textual analyses of Banville's most important novels it maps out a thematic development that moves from an interest in the epistemological and aesthetic representation of the world in scientific theories over a concern with the ethical dimension of representations to an exploration of self representation and identity What remains constant throughout these different perspectives is the disruption of representations by brief but haunting glimpses of otherness In tracing these different visions of alterity in Banville's solipsistic literary world this study offers a better understanding of his insistent and thought provoking exploration of what it means to be human Irish University Review, 2006 A journal of Irish studies *John Banville* Ingo

**John Banville** Neil Murphy,2018-05-18 John Banville offers a close analysis of most of Banville s major novels as well as the Quirke crime novels he has written under the pseudonym Benjamin Black and his dramatic adaptations of Heinrich von Kleist s plays From the beginning Banville s work has been marked both by the presence of a complex embedded discourse about the significance of art and by a concurrent self conscious obsession with its own status as art His novels perpetually reveal an overt fascination with the visual arts in particular and with the aesthetic principle of literature as art This study argues that as a whole Banville s work presents an elaborate and richly textured coded account of his relationship with art and with the self referential fictional world that his novels have conjured It is from this critical context that John Banville s central argument is derived This book asserts that Banville s fiction can be viewed both as an extended interrogation into the meaning and status of art as well as itself being a

representative of the type of art that is admired in the pages of the novels As such it also represents an extremely sophisticated enactment of the novel form that goes beyond the self reflexivity of late twentieth century fiction to chart new developments in the literary arts The book s critical process involves several specific reference points Firstly Banville s own theoretical statements about art in interviews essays reviews and journalistic writing over the past 40 years are synthesized into a coherent interpretation of the author s artistic vision which is thereafter used as a conceptual touchstone when considering his major works of fiction This is done in conjunction with investigating specific theoretical perspectives about the relationship between literature and art by critics such as Denis Donoghue and Susan Sontag and by philosophers of art Graham Gordon Etienne Gilson Peter Lamarque and Susanne Langer
