The Armies of Ancient Persia Kaveh Farrokhi, 2014-02-28 Throughout most of the classical period Persia was one of the great superpowers placing a limit on the expansion of Western powers It was the most

formidable rival to the Roman empire for centuries until Persia by then under the Sassanians was overwhelmed by the Islamic conquests in the seventh century AD Yet the armies of ancient Persia have received relatively little detailed attention certainly in comparison to those of Rome This work is the first of three volumes that will form the most comprehensive study of ancient Persian armies available The Sassanians the native Iranian dynasty that ousted their Parthian overlords in AD 226 developed a highly sophisticated army that was able for centuries to hold off all comers They continued the Parthians famous winning combination of swift horse archers with heavily armored cataphract cavalry also making much use of war elephants but Kaveh Farrokh interestingly demonstrates that their oft maligned infantry has been much underestimated The author born in Athens Greece and expert in ancient Persian languages and military history has been researching the military history and technology of Persia for a quarter of a century He draws on the latest research and new archaeological evidence focusing on the organization equipment and tactics of the armies that dominated the ancient Middle East for so long
