monolingual learners' dictionaries John D. Battenburg, 2017-12-04 Lexicographica Series Maior features monographs and edited volumes on the topics of lexicography and meta lexicography. Works from the broader domain of lexicology are also included provided they strengthen the theoretical methodological and empirical basis of lexicography and meta lexicography. The almost 150 books published in the series since its founding in 1984 clearly reflect the main themes and developments of the field. The publications focus on aspects of lexicography such as micro and macrostructure typology history of the discipline and application oriented lexicographical documentation

Patterns and Meanings of Intensifiers in Chinese

Learner Corpora Chunyan Wang, 2016-12-01 Intensification plays a major role in spoken and written interaction enabling the writer or speaker to express different levels of commitment. This book explores the patterns and meanings of intensifiers in Chinese learner English by ways of comparison with native English. The study is conducted within the theoretical framework of Firthian contextual theory of meaning Sinclairian model of Extended Units of Meaning EUM and Hunston's pattern grammar. The method of contrastive inter language analysis CIA is adopted and the intensifier collocations in learner English and native English are explored by means of quantitative and qualitative analyses of corpora data. This book is the first attempt to investigate the patterning and meaning features of intensifiers systematically with the corpora data in Chinese learner English. Readers will obtain a relatively complete picture of how Chinese learners use intensifiers to realize their attitudinal meanings

Forthcoming Books Rose Arny,2003 *Integrating Chinese Linguistic Research and Language Teaching and Learning* Hongyin Tao,2016-10-03 Linguistic research and language teaching have generally been viewed as two separate types of academic endeavor While linguists have been preoccupied with pattern finding and theory building language teachers often encounter issues that are not readily addressed by theoretical linguistic research This collection with eleven papers touching upon a wide range of issues stands out as one of the rare concerted efforts toward a meaningful integration of the two endeavors Subject matters include tone stress word structure grammatical categories e g classifiers syntactic structures including argument structure discourse particles implicit and explicit knowledge conversational repair and learner corpus With a diverse range of theoretical orientations this collection serves to showcase some of the productive ways to create synergy between Chinese linguistic research and language education

Culture and Humanity in the New Millennium Sin-wai Chan,Siu Tong Kwok,2002 In 2006 a cartoon in a Danish newspaper depicted the Prophet Mohammed wearing a bomb in his turban The cartoon created an international incident with offended Muslims attacking Danish embassies and threatening the life of the cartoonist Editorial cartoons have been called the most extreme form of criticism society will allow but not all cartoons are tolerated Unrestricted by journalistic standards of objectivity editorial cartoonists wield ire and irony to reveal the naked truths about presidents celebrities business leaders and other public figures Indeed since the founding of the republic cartoonists have made important contributions to and offered critical commentary on our society Today however many syndicated cartoons are relatively generic and gag related reflecting a weakening of the newspaper industry s traditional watchdog function Chris Lamb offers a richly illustrated and engaging history of a still vibrant medium that forces us to take a look at ourselves for what we are and not what we want to be The 150 drawings in Drawn to Extremes have left readers howling sometimes in laughter but often in protest

Convention,1998 Cognitive Approaches to English Mario Brdar,Marija Omazić,Višnja Pavičić Takač,2009-12-14 The present volume contains a selection of papers presented at the conference Cognitive Approaches to English an international event organized to mark the 30th anniversary of English studies at the Faculty of Philosophy Josip Juraj Strossmayer University Osijek which was held in Osijek on October 18 19 2007 The participants were invited to discuss issues in cognitive accounts of English ranging from fundamental to methodological to interdisciplinary and applied The volume is accordingly divided into four parts Part I Motivation in grammar deals with various phenomena in the grammar of English in the broadest sense of the term all of which are shown to be motivated by metaphorical and or metonymic operations Part II Constructing meaning between grammar and lexicon contains five chapters dealing with phenomena ranging from various peculiarities of form meaning pairings such as synonymy polysemy and figurative meanings to concept formation The four chapters that make up Part III are concerned with the phenomenon of interlinguistic and intercultural variation in the use of metaphorical

and metonymic processes The volume is concluded by Part IV the three papers of which attempt to reconsider some TEFL issues from a cognitive linguistic point of view Cultures, Contexts, and World Englishes Yamuna Kachru,Larry E. Smith,2008-04-15 This volume aims to familiarize readers with the varieties of world Englishes used across cultures and to create awareness of some of the linguistic and socially relevant contexts and functions that have given rise to them It emphasizes that effective communication among users of different Englishes requires awareness of the varieties in use and their cultural social and ideational functions Cultures Contexts and World Englishes demonstrates the rich results of integrating theory methodology and application features critical and detailed discussion of the sociolinguistics of English in the globalized world gives equal emphasis to grammar and pragmatics of variation and to uses of Englishes in spoken and written modes in major English using regions of the world Each chapter includes suggestions for further reading and challenging discussion questions and appropriate research projects designed to enhance the usefulness of this volume in courses such as world Englishes English in the Global Context Sociolinguistics Critical Applied Linguistics Language Contact and Convergence Ethnography of Communication and Crosscultural Communication **Biblical Translation in Chinese and Greek** Toshikazu Foley,2009-09-30 This study integrates three independent subjects translation theory Mandarin aspect and Greek aspect for the purpose of formulating a working theory applicable to translating the Bible The primary objectives are defined in terms of grammatical translation of Greek aspect into Mandarin aspect at the discourse level A historical overview of the Chinese Bible is provided as a way of introducing major translation issues related to linguistic conceptual and logistical challenges The proposed theory provides the translator with a powerful tool which is tested in two sample passages from John 18 19 and 1 Corinthians 15 Provided also are critical reviews of over sixty Chinese Bible versions Nestorian Manichaean Catholic documents and a translation written according to the proposed theory The Grammar of Chinese Characters James Myers,2019-04-16 Anybody who reads or writes Chinese characters knows that they obey a grammar of sorts though numerous they are built out of a much smaller set of constituents often interpretable in meaning or pronunciation that are themselves built out of an even smaller set of strokes This book goes far beyond these basic facts to show that Chinese characters truly have a productive and psychologically real lexical grammar of the same sort seen in spoken and signed languages with non trivial analogs of morphology the combination of potentially interpretable constituents phonology formal regularities without implications for interpretation and phonetics articulatory and perceptual constraints Evidence comes from a wide variety of sources from quantitative corpus analyses to experiments on character reading writing and learning The grammatical approach helps capture how character constituents combine as they do how strokes systematically vary in different environments how character form evolved from ancient times to the modern simplified system and how readers and writers are able to process or learn even entirely novel characters This book not only provides tools for exploring the full richness of Chinese orthography but also offers new ways of thinking about the most fundamental question

in linguistic theory what is grammar
