A Look at Life Carol S. Crowder, Shelley W. Penrod, Mary A. Durant, Joe B. Anders, 2000-01 **A Look at Life** Joe Anders, 1996-07-01 Trinity and Organism James Eglinton, 2012-03-29 This book explores the organic motif found throughout the writings of the Dutch Calvinist theologian Herman Bavinck 1854 1921 Noting that Bavinck uses this motif at key points in the most important loci of theology Christology general and special revelation ecclesiology and so forth it seems that one cannot read him carefully without particular attention to his motif of choice the organic By examining the sense in which Bavinck views all of reality as a beautiful balance of unity in diversity James Eglinton draws the reader to Bavinck's constant concern for the doctrine of God as Trinity If God is the Father the Son and the Holy Spirit Bavinck argues the creation must be more akin to an organism than a machine Trinity and organism are thus closely linked concepts Eglinton critiques and rejects the two Bavincks one orthodox and the other modern hermeneutic so commonplace in discussions of Bavinck's theology Instead this book argues for a reunited Herman Bavinck as a figure committed to the participation of historic orthodox theology in the modern world **Theism in the Light of Present Science and Philosophy** James Iverach, 1899 *BSCS Biology*, 1997 **Books in Print**, 1991 *Ebook: Biology* BROOKER, 2014-09-16 Ebook Biology

Hegel's Phenomenology of Spirit Richard Dien Winfield, 2013-06-27 Hegel's Phenomenology of Spirit A Critical Rethinking in Seventeen Lectures provides a clear and philosophically engaging investigation of Hegel's first masterpiece perhaps the most revolutionary work of modern philosophy The book guides the reader on an intellectual adventure that takes up Hegel's revolutionary strategy of paving the way for doing philosophy without presuppositions by first engaging in a phenomenological investigation of knowing as it appears That preliminary investigation observes how the prevailing view of knowing that condemns cognition to operating with presuppositions proves unable to justify its own knowledge claims and ends up undermining the distinction between knowing and its object on which that view depends Unlike other studies of Hegel's Phenomenology of Spirit the work rethinks the entire argument with sustained attention to the project that gives the work its revolutionary significance Free of unnecessary jargon and always focusing on clearly unraveling the argument in its entirety Hegel's Phenomenology of Spirit A Critical Rethinking in Seventeen Lectures will be indispensable to undergraduate and graduate students of philosophy Hegel scholars and anyone interested in tackling the radical project of doing philosophy without foundations
