Jennifer Rachel Dutch, 2018-08-03 Home cooking is a multibillion dollar industry that includes cookbooks, kitchen gadgets, high end appliances, specialty ingredients, and more. Cooking-themed programming flourishes on television, inspiring a wide array of celebrity chef-branded goods. Even as self-described foodies seek authenticity by pickling, preserving, and canning foods in their own home kitchens, despite this, claims that no one has time to cook anymore are common, lamenting the slow extinction of traditional American home cooking in the twenty-first century. In *Look Who's Cooking: The Rhetoric of American Home Cooking Traditions in the Twenty-First Century*, author Jennifer Rachel Dutch explores the death of home cooking narrative, revealing how modern changes transformed cooking at home from an odious chore into a concept imbued with deep meanings associated with home, family, and community. Drawing on a wide array of texts, cookbooks, advertising, YouTube videos, and more, Dutch analyzes the many manifestations of traditional cooking in America today. She argues that what is missing from the discourse around home cooking is an understanding of skills and recipes as a form of folklore. Dutch's research reveals that home cooking is a powerful vessel that Americans fill with meaning because it represents both the continuity of the past and adaptability to the present. Home cooking is about much more than what is for dinner; it's about forging a connection to the past, displaying the self in the present, and leaving a lasting legacy for the future. Fen Osler Hampson, Eric Jardine, 2017-11-08 The Internet ecosystem is held together by a surprisingly intangible glue: trust. To meet its full potential, users need to trust that the Internet works reliably and efficiently when providing them with the information they are seeking while also being secure, private, and safe. When trust in the Internet wanes, the network's stock of digital social capital falls, and users begin to alter their online behaviour. These often subtle changes in behaviour tend to be collectively highly maladaptive, hindering the economic, developmental, and innovative potential of the globe-spanning network of networks. *Look Who's Watching: Surveillance, Treachery, and Trust Online* confirms in vivid detail that the trust placed by users in the Internet is increasingly misplaced. Edward Snowden's revelations that the United States National Security Agency and other government agencies are spying on Internet users, the proliferation of

cybercrime and the growing commodification of user data and regulatory changes which threaten to fragment the system are all rapidly eroding the confidence users have in the Internet ecosystem Based on a combination of illustrative anecdotal evidence and analysis of new survey data *Look Who's Watching* clearly demonstrates why trust matters how it is being eroded and how with care and deliberate policy action the essential glue of the Internet can be restored *Look Who's Back* Timur Vermes, 2014-03-27 THE SMASH HIT HITLER SATIRE MORE THAN 3 MILLION COPIES SOLD A brilliant book RUSSELL KANE Brilliant and hilarious KEN FOLLETT An uproarious disturbing book that will resonate long after you turn the final page Caroline Jowett Daily Express There's no question that the novel has hit upon the key paradox of our modern obsession with Hitler Philip Oltermann Observer Berlin Summer 2011 Adolf Hitler wakes up on a patch of open ground alive and well Things have changed no Eva Braun no Nazi party no war Hitler barely recognises his beloved Fatherland filled with immigrants and run by a woman People certainly recognise him albeit as a flawless impersonator who refuses to break character The unthinkable the inevitable happens and the ranting Hitler goes viral becomes a YouTube star gets his own T V show and people begin to listen But the Führer has another programme with even greater ambition to set the country he finds a shambles back to rights *Look Who's Back* stunned and then thrilled 1.5 million German readers with its fearless approach to the most taboo of subjects Naive yet insightful repellent yet strangely sympathetic the revived Hitler unquestionably has a spring in his step Translated from German by Jamie Bulloch A box office hit film now available on NETFLIX A two part BBC Radio 4 Dramatisation directed by and starring David Threlfall Shameless *Look Who's Morphing* Tom Cho, 2014-04-21 First published to acclaim in Australia *Look Who's Morphing* by Asian Australian writer Tom Cho is a funny fantastical often outlandish collection of stories firmly grounded in popular culture Often with his family the book's central character undergoes a series of startling physical transformations shape shifting through figures drawn from film and television music and books porn flicks and comics He is Godzilla a Muppet a gay white male stud and Whitney Houston's bodyguard the Fonz a robot the von Trapp family's caretaker a Ford Bronco 4x4 and in the book's lavish climax a one hundred foot tall guitar wielding rock star performing for an adoring troupe of fans in Tokyo Throughout the stories there is a pervasive questioning of the nature of identity whether cultural racial sexual gender or all of the above and the way it is constructed in a world filled with the white noise of pop culture *Look Who's Morphing* is a stylish highly entertaining literary debut in which nothing not even one's body can be taken for granted Tom Cho is a trans writer who began writing fiction in his mid teens in Australia where he was influenced by the YA series *Sweet Valley High* His stories have appeared in publications in Australia and elsewhere and he has performed at events and festivals around the world including in the award winning show *Hello Kitty* which combines literature with power ballads *Look Who's Morphing* is his first book *Look Who's Adopted* Michael S.
