Embodied Histories Katya Motyl, 2024-04-29 In *Embodied Histories* historian Katya Motyl explores the everyday acts of defiance that formed the basis for new unconventional forms of womanhood in turn of the century Vienna The figures Motyl brings back to life dressed however they pleased defied gender conformity behaved brashly and expressed themselves freely overturning assumptions about what it meant to exist as a woman Motyl delves into the ways in which these women inhabited and reshaped the urban landscape of Vienna an increasingly modern cosmopolitan city Specifically she focuses on how easily overlooked quotidian practices such as loitering outside cafés striking up conversations with strangers and taking dogs for walks helped create novel conceptions of gender Exploring the emergence of a new womanhood *Embodied Histories* presents a new account of how the gender the body and the city merge with and transform each other showing how our modes of being are radically intertwined with the spaces we inhabit **A Century of Austrian Design** Tulga Beyerle, Karin Hirschberger, 2013-03-04 *A Century of Austrian Design* offers a highly accessible overview of Austrian design culture from

1900 to the present against the background of the country's extremely turbulent industrial history. In the process, the key aspects are explained in essays by celebrated experts. The book attempts to delineate a specifically Austrian formal language, citing as examples specific achievements in historical and contemporary design. As it does so, it also sheds light on other defining moments of Austria's design culture, including the enormous potential of its inventors, the phenomenon of semi-industrial manufacturing, and the innovative design solutions advanced by the Austrian sporting goods industry. A yellow pages section with selected design addresses rounds off the volume. Jews in Suits Jonathan C.

Kaplan-Wajselbaum, 2023-05-04 Shortlisted for the Leslie and Sophie Caplan Award for Jewish Non-Fiction. Surviving photographs of Jewish Viennese men during the fin de siècle and interwar periods: both the renowned cultural luminaries and their many anonymous coreligionists all share a striking sartorial detail: the tailored suit. Yet until now, the adoption of the tailored suit and its function in the formation of modern Jewish identities remains under-researched. Jews in Suits uses a rich range of written and visual sources, including literary fiction and satire, ego documents, photography, trade catalogues, invoices, and department store culture, to propose a new narrative of men's fashion and their Jewish identities. It reveals that dressing in a modern manner was not simply a matter of assimilation, but rather a way of developing new models of Jewish subjectivity beyond the externally prescribed notion of the Jew. Drawing upon fashionable dress, folk costume, religious dress, avant-garde, oppositional dress typologies, which are often considered separate from one another, it proposes a new way of reading men and clothing cultures within an iconic cultural milieu, offering insights into the relationship of clothing and grooming to the understanding of the self. Tracing Wiener Werkstätte Textiles Régine Bonnefoit, Marie-Eve Celio-Scheurer, 2023-09-05

It includes numerous illustrations of textile samples, many drawn from the Cotsen Textile Traces Study Collection, George Washington University Museum Textile Museum, one of the largest collections of Wiener Werkstätte fabrics in the US. This volume presents papers delivered at the 24th Annual Klutznick Harris Symposium held at Creighton University in October 2011. The contributors look at all aspects of the intimate relationship between Jews and clothing through case studies from ancient, medieval, recent, and contemporary history. Papers explore

topics ranging from Jewish leadership in the textile industry through the art of fashion in nineteenth century Vienna to the use of clothing as a badge of ethnic identity in both secular and religious contexts La moda come motore economico: innovazione di processo e prodotto, nuove strategie commerciali, comportamento dei consumatori / Fashion as an economic engine: process and product innovation, commercial strategies, consumer behavior Giampiero Nigro, 2022-05-03 The study of the textile sector has always been central to economic history from reconstructions of the dynamic growth in the medieval wool industry to the rise of silk and light and mixed fabrics in the modern era to the driving role of cotton in the industrialisation process Although the dynamics of textile manufacturing are closely linked to the transformations of fashion economic history has long neglected its role as a factor in economic change treating it primarily as a kind of exogenous catalyst This book makes a decisive contribution to the understanding of a fundamental transformation the consequences of which are projected into contemporary society but which matured in pre industrial times the advent of fashion **From Traditional Attire to Modern Dress** Constanța Vintilă-Ghițulescu, 2011-07-12 The essays in this volume discuss the visible elements such as clothing jewellery the opulence of the elite fashion and styles but they also inform the reader about the manner in which these were connected to political and social developments The articles in this volume highlight important themes regarding the history of textiles the shifting of trading and manufacturing centres the professionalization of the various fields in the history of fashion and the connection with the introduction and proliferation of steam powered machines and later of electrical equipment Clothes and garments are also part of the social and political transformations brought about by the multiple modernisations of the various Balkan societies Fabrics colours threads barrels and buttons lace and jewellery are marvellous documents that bring to life details of the remote worlds of our ancestors helping us understand the complex meanings of sartorial appearances The Balkans and the Orient are regions that offer promising avenues of multidisciplinary research concerning clothes and fashion as indicators of social status and political change *Performance, Fashion and the Modern Interior* Fiona Fisher, Trevor Keeble, Patricia Lara-Betancourt, 2011-11-22 An international assessment of how the last 150 years of interior design have been influenced by the clothes people wear and the desire to create drama and social rituals **Woman's Art Journal**, 1989 Textiles of the Wiener Werkstätte, 1910-1932 Angela Völker, 1994 The textile department of the Wiener Werkstätte was formally established c 1910 seven years after the inauguration of this many faceted association of artists and craftsmen The demand for mostly printed fabrics for use by the fashion department in interior decoration schemes for well to do clients and for sale to the public was met by original designs from around 100 artists including the association's co founder Josef Hoffmann and other leading figures such as Dagobert Peche Carl Otto Czeschka Maria Likarz and Max Snischek This proliferation of creativity gave rise to one of the most remarkable legacies of modern textile design Textiles of the Wiener Werkstätte 1910 1932 presents selections from the original gouache drawings pattern books and about 20 000 samples now in the collection of the Austrian Museum for Applied Arts Vienna a truly

remarkable archive of most of the over 1 800 recorded fabric designs These range from the early rounded naturalistic motifs of Art Nouveau to later angular geometric designs associated with Art Deco their history and development being fully documented in invaluable archival and documentary records A wealth of reproductions many in colour are supplemented by an exhaustive catalogue and a concordance of artists and pattern names as well as contemporary photographs of the uses of printed and woven textiles in fashion and interior decoration both private and public including exhibition pavilions and the Wiener Werkstatte s own showrooms The patterns and prints of the Wiener Werkstatte were among the most popular and successful textile designs of the early twentieth century reflecting both the tastes of Viennese society and general trends towards artistic abstractionism They are now presented in an unparalleled compilation drawing on the most comprehensive collection of Wiener Werkstatte designs in existence
