The Origins of Alliance Stephen M. Walt, 2013-08-09 How are alliances made In this book Stephen M Walt makes a significant contribution to this topic surveying theories of the origins of international alliances and identifying the most important causes of security cooperation between states In addition he proposes a fundamental change in the present conceptions of alliance systems Contrary to traditional balance of power theories Walt shows that states form alliances not simply to balance power but in order to balance threats Walt begins by outlining five general hypotheses about the causes of alliances Drawing upon diplomatic history and a detailed study of alliance formation in the Middle East between 1955 and 1979 he demonstrates that states are more likely to join together against threats than they are to ally themselves with threatening powers Walt also examines the impact of ideology on alliance preferences and the role of foreign aid and transnational penetration His analysis show however that these motives for alignment are relatively less important In his conclusion he examines the implications of balance of threat for U S foreign policy

The Third World in Soviet Military Thought Mark Katz, 2012-07-26 First published in 1982 this study traces the development of Soviet military thinking on the Third World and assesses its importance for the conduct of Soviet foreign policy Changes in Soviet military thought often reflect changes in Soviet attitudes towards and expectations from involvement in Third World conflicts This work from Dr Katz meditates upon the changing role of the USSR in post war Third World conflicts with particular emphasis upon the Brezhnev era and the way in which US setbacks in the Third World impacted upon Soviet foreign policy and changing attitudes to the Third World

Model Or Ally? Richard Löwenthal, 1977 An attempt to interpret Soviet and Chinese policy towards the developing countries from two angles the efforts to win imitation for their system as a model and the efforts to win support for their overall international policies from existing governments

Soviet Foreign Policy and Southeast Asia (Routledge Revivals) Leszek Buszynski, 2013-09-13 This book focuses on the activity of the Soviet Union in Southeast Asia and the effects of Soviet policy on the region from 1969 to the time of first publication in 1986 In particular Leszek Buszynski examines the rivalry between the Soviet Union and China Soviet presence in Vietnam and the responsive efforts of surrounding regions towards collective security U S policy in the region is a key consideration particularly in terms of American attempts to placate China and encourage Japan to assist in the defence of the region With a concluding assessment of regional trends and possible outcomes this is an important and valuable work for students and scholars with an interest in the history and politics of international diplomacy in Southeast Asia

Rethinking Theory and History in the Cold War Richard Saull, 2001 Rethinking Theory and History in the Cold War focuses on what we mean by politics and international relations and how such assumptions have come to determine our understanding of the Cold War Using an historical materialist method the author criticizes conventional conceptions of international politics that tend to focus on the agency of and relations among states and offers an alternative historical sociology of the Cold War through an analysis of the

relationship between formal political authority and socio economic production Seen from this perspective the state the modern conceptions of politics can be seen as products of a capitalist modernity in which politics is based on the separation of the spheres of politics in the state and economics in civil society BOOK JACKET **The USSR and Latin America**

Eusebio Mujal-León, 2022-12-28 The USSR and Latin America 1989 is an authoritative analysis of the Soviet Union's strategy and policy towards the region The contributors cover a variety of topics including Latin America's place in Soviet strategy for the developing world US perceptions of Soviet strategy in the region Soviet Cuban relations and relations between Latin American communist parties and the USSR *Problems of Communism* , 1979 **Stalin's Successors** Seweryn Bialer, 2001 This book provides a comprehensive overview of the ways in which the structure and process of Soviet politics have been transformed since Stalin's death and particularly during the years of the Brezhnev regime In explaining the Soviet Union's political stability the author analyzes the Soviet combination of harsh authoritarian rule with political flexibility in the treatment of its citizens and he describes the social processes that contribute to this stability He also analyzes the Soviet perception of the current international situation and discusses trends in Soviet foreign policy including the imbalance between military power on the one hand and political economic ideological and cultural resources on the other Professor Bialer explains the Soviet concept of détente and explores the difference between Soviet and American perceptions of this process A major part of the work is devoted to an examination of the imminent succession of the Soviet leadership The book gives a profile of the new generation of potential leaders and identifies the characteristics that make them different from those whom they will replace The Soviet leadership while embroiled in its succession struggle will have to make difficult decisions concerning the allocation of national resources and overall changes in management planning and incentives Professor Bialer concludes by analyzing the kinds of economic reform that could make the problems manageable and the conditions under which the new Soviet leadership will need to institute reforms *Ideas in Action* Stephen Eric Bronner, 2000-01-01 Imagine a world in which means and ends theory and practice ideals values and interests are torturously disassociated and yet manifestly linked That is the world of the 20th century as Stephen Eric Bronner vividly portrays it in his important new work Now imagine a world in which new traditions mix with the old creativity blends with commitment and values from the past combine with bold visions of the future Creating this new fusion says Professor Bronner is the challenge for the 21st century and it inspires *Ideas in Action* Contemporary political theory has become alienated from politics It often neither discusses concrete political events nor touches the world of political action That is an intellectual luxury the academy of the 21st century can ill afford and *Ideas in Action* offers an accessible way out of the box into which the canon of political theory and philosophy has been stuffed With elegance and power Bronner surveys 20th century political traditions In the process he places theories and thinkers in their social historical and political contexts His sweeping presentation is organized into four imaginatively articulated phases that signal the direction of political thinking in the twentieth century Offering

distinctive interpretations and criticisms presenting a new internationalist perspective Bronner imbues the text with original voices and primary sources from the very canon he is reconfiguring Careful notes of citation and explanation provide a pedagogical subtext that serves as a running bibliographic essay All this and more makes the perfect core or supplemental text for courses not only in political science but philosophy sociology history and cultural studies as well Ideas in Action is a book for thinking people seeking to understand the past and shape the next millennium in terms of a new planetary outlook and a cosmopolitan sensibility Students will enjoy reading the text flock to the primary sources and engage The Sino-American Alliance John W. Garver, 2015-06-03 This study provides an analysis of the role the United States alliance with Nationalist China played in US strategy to contain first the Sino Soviet alliance and then China during the 1950s and 1960s

Japan and the Sino-Soviet Alliance, 1950-1964 C. Braddick, 2003-12-09 Japan and the Sino Soviet Alliance 1950 1964 reveals the divisive impact of the Sino Soviet Alliance on Japanese domestic politics and foreign relations during the turbulent years between 1950 and 1964 Drawing on extensive Japanese sources and unprecedented access to previously classified government documents C W Braddick exposes the myths shrouding this formative era in Japan's postwar development Hearings United States. Congress. House. Committee on Foreign Affairs, 1972 **Alliance in Anxiety** Go Tsuyoshi Ito, 2013-08-21 This book analyzes the structural dynamics of the Sino American Japanese triangular relationship by exploring how the 1971 Nixon Kissinger announcement to pursue reapprochement with the People's Republic of China PRC in the context of the overall detente strategy fundamentally altered the U S Japanese relationship It argues that the systematic structure of international relations in East Asia during the detente period was similar in significant ways to today's post Cold War period Highlighting the importance of China to U S policy options towards East Asia enables us to provide a more informed perspective on future directions of the Sino U S Japanese triangular relationship in the twenty first century

Moments of Decision Stephen Eric Bronner, 1992 Moments of Decision takes a fascinating look at the course of radicalism in our time It orients progressives with respect to their traditions shows the relevance of the past to the present and provides a new political interpretation of the struggle for democracy and economic justice **Dissent**, 1978 **The Department of State Bulletin**, 1988 The official monthly record of United States foreign policy **East Asia's Other Miracle** Alex J. Bellamy, 2017-09-29 East Asia until recently the scene of widespread blood letting has achieved relative peace A region that at the height of the Cold War had accounted for around eighty percent of the world's mass atrocities has experienced such a decline in violence that by 2015 it accounted for less than five percent This book explains East Asia's other miracle and asks whether it is merely a temporary blip in the historical cycle or the dawning of a new and more peaceful era for the region It argues that the decline of mass atrocities in East Asia resulted from four interconnected factors the consolidation of states and emergence of responsible sovereigns the prioritization of economic development through trade the development of norms and habits of multilateralism and transformations in the practice of power politics Particular attention is paid to North

Korea and Myanmar countries whose experience has bucked regional trends largely because these states have not succeeded in consolidating themselves to the point where they no longer depend on violence to survive Although the region faces several significant future challenges this book argues that the much reduced incidence of mass atrocities in East Asia is likely to be sustained into the foreseeable future *Newsletter* ,1976 Newsletter United States. Fighting with Allies R. Renwick,1996-09-13 It was Winston Churchill who in his speech at Fulton Missouri advocated a special relationship between the British Commonwealth and the United States the continuance of intimate relationships between our military advisers leading to the common study of potential dangers Through the eyes of Churchill Roosevelt and their successors Sir Robin Renwick traces the development of the Anglo American relationship since the desperate summer of 1940 and the part it played in the shaping of the post war world Detecting once again a whiff of the 1930s in the air Sir Robin concludes that as one of the ties that bind Europe and North America the relationship remains an important one and not only to Britain and the United States There are many on both sides of the Atlantic who will think that the world would have been poorer without it Nor has the world yet assumed so secure and predictable a form as to render it redundant
