Monde Naturel Et Le Mouvement De L'existence Humaine:

Vie et intentionnalité Renaud Barbaras, 2003 L'objet de ce livre est de montrer que l'intentionnalité conditionne l'apparition de l'étant ne peut être caractérisée de manière conforme à son essence que si elle est comprise comme vie. En effet, une philosophie rigoureuse de l'intentionnalité est soumise à une double contrainte. D'un côté, comme l'a souligné Merleau-Ponty, le sujet de la perception ne peut être défini comme une sphère d'être absolue surplombant le monde; il est du monde, et cette intramondanéité doit être comprise comme incarnation. Cependant, en mettant en avant un concept univoque de la chair par-delà la différence des étants du monde et du corps propre, Merleau-Ponty interdit d'accéder au sens d'être véritable de celui-ci. Or, comme l'a montré Heidegger, pour sa part, le monde ne saurait être éclairé dans sa constitution par un retour à un étant du même mode d'être. Le Dasein humain diffère de tous les autres étants en ce qu'il existe, et c'est donc bien au plan existentiel que l'intentionnalité doit être ressaisie. C'est à Patocka qu'il revient d'avoir su concilier la différence radicale du sujet intentionnel et son intramondanéité en proposant une caractérisation existentielle du corps comme mouvement vivant. Les études réunies ici visent toutes à explorer la voie ouverte par Patocka d'une phénoménologie de la vie.

Le monde naturel et le mouvement de l'existence humaine J. Patocka, 1988-05-31 Le monde naturel et le mouvement de l'existence humaine Jan Patocka, 2023-09-21 **Phenomenology and Intercultural Understanding** Kwok-Ying Lau, 2016-09-29 This book approaches the topic of intercultural understanding in philosophy from a phenomenological perspective. It provides a bridge between Western and Eastern philosophy through in-depth discussion of concepts and doctrines of phenomenology and ancient and contemporary Chinese philosophy. Phenomenological readings of Daoist and Buddhist philosophies are provided; the reader will find a study of theoretical and methodological issues and innovative readings of traditional Chinese and Indian philosophies from the phenomenological perspective. The author uses a descriptive rigor to avoid cultural prejudices and provides a non-Eurocentric conception and practice of philosophy. Through this East-West comparative study, a compelling criticism of a Eurocentric conception of philosophy emerges. New concepts and methods in intercultural philosophy are proposed through these chapters. Researchers, teachers, post-graduates and students of philosophy will all find this work intriguing, and those with an interest in non-Western philosophy or phenomenology will find it particularly engaging. *Le monde naturel et le mouvement de l'existence humaine* Jan Patočka, 1988

Self-Identity and Powerlessness Alice Koubová, 2013-05-30 In *Self-Identity and Powerlessness*, Alice Koubová proposes a conception of human existence that does not essentially depend on the definition of self-identity. The author shows that the philosophical stress on human identity fails to grasp essential aspects of human existence. By emphasizing the moments of Dasein's powerlessness in Heidegger's fundamental ontology, she develops in her analysis of various philosophers' literary examples and social psychology an original phenomenology of alternation of existence and affair. How necessary is identity for thinking? Are we capable of philosophical thought even when we have neither ourselves nor the world under our full

control Is it possible to relax become powerless and yet think precisely These questions are to be answered in this book

The Risk of Freedom Francesco Tava, 2015-12-11 The Risk of Freedom presents an in depth analysis of the philosophy of Jan Patočka one of the most influential Central European thinkers of the twentieth century examining both the phenomenological and ethical political aspects of his work In particular Francesco Tava takes an original approach to the problem of freedom which represents a recurring theme in Patočka s work both in his early and later writings Freedom is conceived of as a difficult and dangerous experience In his deep analysis of this particular problem Tava identifies the authentic ethical content of Patočka s work and clarifies its connections with phenomenology history of philosophy politics and dissidence The Risk of Freedom retraces Patočka s philosophical journey and elucidates its more problematic and less evident traits such as his original ethical conception his political ideals and his direct commitment as a dissident **Jan**

Patočka and the Heritage of Phenomenology Erika Abrams, Ivan Chvatík, 2010-09-29 Whereas for the wider public Jan Patočka is known mainly as a defender of human rights and one of the first spokespersons of Charter 77 who died in Prague several days after long interrogations by secret police of the Communist regime the international philosophical community sees in him an important and inspiring thinker who in an original way elaborated the great impulses of European thought mainly Husserl s phenomenology and Heidegger s philosophy of existence Patočka also reflected on history and the future of humanity in a globalized world and laid the foundations of an original philosophy of history His work is a subject of lively philosophical discussion especially in French and German speaking countries and recently also in Spanish speaking in U S A and in the Far East Scholars from around the world who are interested in the philosophy of Jan Patočka gathered in Prague to commemorate his centenary and the thirtieth anniversary of his death The conference explored the significance of his work and its continuing influence on contemporary philosophy The volume presents selected papers from the conference in English language The Foundations of Phenomenological Psychotherapy Giampiero Arciero, Guido Bondolfi, Viridiana

Mazzola, 2018-05-30 This book addresses selected central questions in phenomenological psychology a discipline that investigates the experience of self that emerges over the course of an individual s life while also outlining a new method the formal indication as a means of accessing personal experience while remaining faithful to its uniqueness In phenomenological psychology the psyche no longer refers to an isolated self that remains unchanged by life s changing situations but is rather a phenomenon ipseity which manifests itself and constantly takes form over the course of a person s unique existence Thus the formal indication allows us to study the way in which ipseity relates to the world in different situations in a way that holds different meanings for different people Based on this new approach phenomenological psychotherapy marks a transition from a mode of grasping the truth about oneself through reflection to a mode of accessing the disclosure of self through a work of self transformation the care of self that requires the person to actually change her position on herself By putting forward this method the authors shed new light on the dynamic interplay between a person s

historicity and uniqueness on the one hand and the related physiopathological mechanisms on the other providing evidence from the fields of genetics cardiology the neurosciences and psychiatry The book will appeal to a broad readership from psychiatrists psychologist and psychotherapists to researchers in these fields **On Time, Being, and Hunger**

Juan-Manuel Garrido,2012 Situating itself within the context of current debates in continental philosophy and through a series of readings of Aristotle Nietzsche Heidegger and Derrida to recent developments in life sciences this book offers a critical enquiry concerning the traditional way of understanding life in the history of metaphysics Geschichte des Husserl-Archivs History of the Husserl-Archives Husserl-Archiv Leuven,2007-05-03 This book offers a fascinating view on the foundation and development of this important research institute and of the Husserliana edition Father Van Breda s personal annotations which are made public for the first time in English here paint a captivating picture of the rescue of Husserl s manuscripts and the foundation of the Archives shortly before the second world war **The Government of Life** Vanessa Lemm,Miguel Vatter,2014-04-05 Foucault s late work on biopolitics and governmentality has established him as the fundamental thinker of contemporary continental political thought and as a privileged source for our current understanding of neoliberalism and its technologies of power In this volume an international and interdisciplinary group of Foucault scholars examines his ideas of biopower and biopolitics and their relation to his project of a history of governmentality and to a theory of the subject found in his last courses at the College de France Many of the chapters engage critically with the Italian theoretical reception of Foucault At the same time the originality of this collection consists in the variety of perspectives and traditions of reception brought to bear upon the problematic connections between biopolitics and governmentality established by Foucault s last works **Phenomenological Interpretations of Ancient Philosophy**

Kristian Larsen,Pål Rykkja Gilbert,2021-05-03 Ancient philosophy has from the outset inspired phenomenological philosophers in a special way Phenomenological Interpretations of Ancient Philosophy offers fresh perspectives on the manner in which ancient Greek thought has influenced phenomenology and traces the history of this reception Unlike various related treatments the present volume offers a broad account of this topic that includes chapters on Edmund Husserl Martin Heidegger Hans Georg Gadamer Jacob Klein Hannah Arendt Eugen Fink Jan Pato ka Emmanuel Levinas and Jacques Derrida This collection of essays edited by Kristian Larsen and P l Rykkja Gilbert is addressed to students of ancient philosophy and the phenomenological tradition as well as to readers who have a general interest in the fascinating yet complex connection between ancient Greek thought and phenomenological philosophy Contributions by Jussi Backman P l Rykkja Gilbert Burt Hopkins Filip Karf k Alexander Kozin Kristian Larsen Arnaud Mac Claudio Majolino Hans Ruin Thomas Schwarz Wentzer Vigdis Songe M ller Tanja Staehler Morten S Thaning and Charlotta Weigelt **Intentionalitätstheorie beim frühen Brentano** A. Chrudzimski,2013-06-29 The book is an analytic exposition of Brentano s early theory of intentionality In spite of the immense influence of this theory it is the first separate monograph on this topic The book is based in great part on the

unpublished manuscripts where one can find substantially better articulated formulations than those expressed in the already published standard works. Our analysis concentrates mainly on the ontological and epistemological problems of Brentano's immanent object. We highlight an interesting ambiguity of this concept and try to outline the inner logic of its evolution. It turns out that Brentano's early philosophy of intentionality should be conceived not as a single well-defined theory but rather as a bundle of kindred but not always fully consistent and sometimes even competing ideas. Primary audience for the work are philosophers interested in Brentano's philosophy, theory of intentionality and its epistemology and ontology, phenomenologists and cognitive scientists. Das Buch bietet eine analytische Darstellung von Brentanos früherer Theorie der Intentionalität. Trotz der großen historischen Bedeutung dieser Theorie bildet es die erste Monographie zu diesem Thema. Das Buch basiert zum größten Teil auf den unveröffentlichten Manuskripten, in denen man die Formulierungen findet, die viel besser artikuliert sind als jene, die in den publizierten Standardwerken Brentanos zu finden sind. Unsere Analyse konzentriert sich in erster Linie auf die ontologischen und epistemischen Probleme des Brentanoschen immanenten Objekts. Wir besprechen eine interessante Mehrdeutigkeit dieses Begriffs und skizzieren die innere Logik seiner Entwicklung. Es stellt sich heraus, dass die frühere Philosophie der Intentionalität Brentanos nicht als eine einheitliche, eindeutig bestimmte Theorie, sondern eher als ein Bündel von verwandten, jedoch nicht immer völlig kohärenten und manchmal sogar konkurrierenden Ideen interpretiert werden soll. Das Buch wendet sich in erster Linie an die Philosophen, die sich für die Philosophie Brentanos, für die österreichische Philosophie, für die Theorie der Intentionalität und ihre Epistemologie und Ontologie interessieren. Es wird ferner auch für die Phänomenologen und die Forscher im Bereich der cognitive science interessant sein.

Judging

Appearances E.E. Kleist, 2012-12-06 Kant's Critique of Judgment accounts for the sharing of a common world experienced affectively by a diverse human plurality. In order to appreciate Kant's project, Judging Appearances retrieves the connection between appearance and judgment in the Critique of Judgment. Kleist emphasizes the important but neglected idea of a *sensus communis*, which provides the indeterminate criterion for judgments regarding appearance. Judging Appearances examines the themes of appearance and judgment against the background of Kant's debt to Leibniz and Shaftesbury. Drawing upon treatments by Husserl, Sartre, Ricoeur, and Arendt, Kleist delineates the proto-phenomenological method through which Kant uncovers the idea of a *sensus communis*. Kleist shows that taste is a discipline of opening oneself to appearance, requiring a subject who dwells in a common world of appearances among a diverse human plurality. This volume will prove valuable for anyone interested in a fresh approach to themes at the heart of Kant's aesthetics.

Introduction to a

Phenomenology of Life Renaud Barbaras, 2022-01-04 In Introduction to a Phenomenology of Life, renowned French philosopher Renaud Barbaras aims to construct the basis for a phenomenology of life. Called an introduction because it has to deal with philosophical limits and presuppositions, it is much more as Barbaras investigates life in its phenomenological senses approached through the duality of its intransitive and transitive senses. Originally published in French, Introduction

une phénoménologie de la vie Introduction to a Phenomenology of Life first defines the problem of life phenomenologically then studies the failures of the phenomenological movement to adequately think about life and finally elaborates a new original and productive approach to the problem Combining original interpretations and expert readings of philosophers such as Heidegger Henry Bergson and Merleau Ponty Barbaras offers a powerful and important contribution to phenomenology and continental thought

Quiet Powers of the Possible Tarek R. Dika, W. Chris Hackett, 2016-02-26 Quiet Powers of the Possible offers an excellent introduction to contemporary French phenomenology through a series of interviews with its most prominent figures Guided by rigorous questions that push into the most important aspects of the latest phenomenological research the book gives readers a comprehensive sense of each thinker's intellectual history motivations and philosophical commitments The book introduces readers to debates that have not previously been accessible to the English speaking world such as the growing interest in the phenomenological concept of life in its affective and even vital dimensions the emerging dialogue with the analytic philosophy of mind and language and reassessments of the so called theological turn The diversity of approaches collected here has its origin in a deeper debate about the conceptual and historical foundations of phenomenology itself In this way the book offers the most accessible and wide ranging introduction to French phenomenology to have appeared in the English speaking world to date

Desire and Distance Renaud Barbaras, 2006 Desire and Distance constitutes an important new departure in contemporary phenomenological thought a rethinking and critique of basic philosophical positions concerning the concept of perception presented by Husserl and Merleau Ponty though it departs in significant and original ways from their work Barbaras's overall goal is to develop a philosophy of what life is one that would do justice to the question of embodiment and its role in perception and the formation of the human subject Barbaras posits that desire and distance inform the concept of life Levinas identified a similar structure in Descartes's notion of the infinite For Barbaras desire and distance are anchored not in meaning but in a rethinking of the philosophy of biology and in consequence cosmology Barbaras elaborates and extends the formal structure of desire and distance by drawing on motifs as yet unexplored in the French phenomenological tradition especially the notions of life and the life world which are prominent in the later Husserl but also appear in non phenomenological thinkers such as Bergson Barbaras then filters these notions especially life through Merleau Ponty
