Money Laundering A New International Law Enforcement Model:

Money Laundering Guy Stessens, 2000-08-31 This book gives a broad analysis of the legal issues raised by the international fight against money laundering. It offers an extensive comparative research of the criminal and preventive law aspects from an international perspective. Stessens portrays money laundering as a new criminal trend threatening both national and international societies which must be addressed multilaterally through banking practice, international conventions and human rights. Most of this volume is devoted to specific legal problems that spring from the international nature of the money laundering phenomenon. It contains a most detailed overview on the rules and practices of international co-operation in the fight against money laundering. The publication gives a thorough examination of the exchange of information, lifting banking secrecy and seizing and confiscating assets as well as the jurisdictional questions that inevitably arise in this context. The result is a rich and detailed study of international and comparative law. **Rethinking Money**

Laundering & Financing of Terrorism in International Law Roberto Durrieu, 2013-05-16 In *Rethinking Money Laundering Financing of Terrorism in International Law Towards a New Global Legal Order* Roberto Durrieu provides a broad and original analysis of the phenomenon of money laundering through a thorough examination of the financing of terrorism. The necessity of excluding the financing of terrorism from the legal definition of money laundering is clearly illustrated through extensive original and comparative research. In addition, the book advocates the recognition of money laundering as an international crime *strictu sensu* that can be tried by a special international tribunal. The hidden, mutable, complex and global nature of the crime must be addressed multilaterally through a new integrated and more effective global legal order which is consistent and compatible with civil guarantees and human rights principles. Part I studies the main extra-legal and legal aspects of money laundering by analyzing the meaning, causes and effects of this phenomenon and their link with the financing of terrorism, with special attention to the interconnection between the so-called preventive regulatory AML/CFT system and the punitive approach. Part II provides a global comparative analysis to determine whether or not the adoption of money laundering offences is consistent with sound principles of criminal law and criminal procedure. Finally, Part III examines the jurisdictional problems with respect to extra-territorial and large-scale money laundering cases. The book offers nuanced and thought-provoking answers to questions regarding the prohibition of money laundering, the financing of terrorism and the relationship between them, the current state of associated International Law, the need for future action and the human rights consequences of these crimes. *Ownership of Proceeds of Corruption in International Law* Kolawole Olaniyan, 2023-11-06 Recovery of proceeds deriving from corruption is now increasingly recognized as a principle of contemporary international law. However, people's sovereign and ownership rights over their wealth and natural resources have remained more theoretical than real, especially in the global fight against corruption. As a result, the populations of victim states often cannot hold their governments accountable for misusing proceeds of corruption and do not benefit from

the recovery repatriation management and use of returned proceeds In the first comprehensive study on the issue Kolawole Olaniyan challenges the conventional notion that sovereign and ownership rights over wealth and natural resources and by extension the proceeds of corruption should be exclusively exercised by states Olaniyan's *Ownership of Proceeds of Corruption in International Law* examines the relationship between the right to wealth and natural resources proceeds of corruption and economic activities Focusing on victims of corruption the book argues that victim states populations ought to be empowered to pursue grand corruption and asset recovery actions against their governments It proposes theoretical and legal remedies for recovering proceeds of corruption encouraging the development of domestic laws

Suppressing Terrorist Financing and Money Laundering Jae-myong Koh, 2006-07-25 When watching the collapse of the Twin Towers on CNN 11 September 2001 the international community was awakened to the urgent needs of open discussion to identify the emerging threat and the way to cope with it Given the unprecedented heinous nature of the incident the moves that the international community made were quick and included countermeasures in various dimensions One of the major countermeasures highlighted as a result was to target the financial infrastructure of terrorist organisations In this campaign diverse organisations have participated including the Security Council Financial Action Task Force FATF IMF World Bank etc At the same time various methodologies have also been introduced at both the international and national level Such a consensus and mobilisation of sources to one end in the international community may be considered phenomenal in the history of public international law and without doubt merits an in depth analysis for both academic and practical purposes In this context this book examines the evolution and implementation of international standards on countering the financing of terrorism There are two dimensions to be taken into account to understand the structure of this book The first is concerned with a sequential perspective Given that 9 11 has provided a critical momentum in this area chapter 2 deals with the international position prior to 9 11 whereas chapters 3 4 and 5 analyse development following 9 11 The second is related to a hard law and soft law perspective

Ebikake,2023-11-16 Adopting a mixed methods approach this book assesses the role of soft law as a technique to repress and prevent money laundering The consequence of the combination of a non traditional subject matter with the limitations of traditional international law instruments has meant that lawmakers seeking international solutions to the problems of money laundering have had to innovate This book addresses two fundamental issues in the context of existing international and domestic responses to the problem of money laundering that have hitherto been neglected These include the nature of the treaty obligations to criminalise money laundering and the role of soft law as a technique to regulate it globally The book concludes that international legal harmonisation and approximation of domestic anti money laundering law through soft law remains helpful in addressing this pressing problem The book will be of interest to academics researchers and policy makers working in the areas of Financial Crime Anti Money Laundering Law Regulation International Soft Law and Comparative Law

State Responsibility for Breaches of Investment Contracts Jean Ho,2018-10-25 There is a wealth of material that shapes the law of State responsibility for breaches of investment contracts First impressions of an unsettled or uncertain law have thus far gone unchallenged But unchallenged first impressions point to the need for a detailed study that investigates and analyses the sources the content the characteristics and the evolution of this law The argument at the heart of this monograph is that the law of state responsibility for breaches of investment contracts has carved a unique and distinct trajectory from the traditional route for

Mitchell, 2008-12-11

Principles play a crucial role in any dispute settlement system and the World Trade Organization WTO is no exception However WTO Panels and the Appellate Body have been too timid in using principles sometimes avoiding their use when appropriate and at other times using them without fully acknowledging that they are doing so Perhaps more worryingly these bodies often fail to delve deeply enough into principles They tend to overlook key questions such as the legal basis for using a given principle whether the principle is being used in an interpretative manner or as applicable law and the meaning of the principle in public international law This book establishes a framework for addressing these questions The use of such a framework should allay fears and misconceptions about the use of principles and ensure that they are used in a justifiable manner improving the quality of dispute settlement

in the WTO **Substantive Protection under Investment Treaties** Jonathan Bonnitcha, 2014-08-14 Substantive Protection under Investment Treaties provides the first systematic analysis of the consequences of the substantive protections that investment treaties provide to foreign investors It proposes a new framework for identifying and evaluating the costs and benefits of differing levels of investment treaty protection and uses this framework to evaluate the levels of protection for foreign investors implied by different interpretations of the fair and equitable treatment and indirect expropriation provisions of investment treaties The author examines the arguments and assumptions of both supporters and critics of investment treaties seeks to test whether they are coherent and borne out by evidence and concludes that the economic justifications for investment treaty protections are much weaker than is generally assumed As such the economic objectives of investment treaties are not necessarily in tension with other non economic objectives These findings have important implications for the drafting and interpretation of investment treaties Proportionality and Deference in Investor-State Arbitration Caroline Henckels, 2015-10-15 Caroline Henckels examines how investment tribunals should balance competing state and investor interests in determining state liability in regulatory disputes **An Introduction to Transnational Criminal Law** Neil Boister, 2018 National borders do little to prevent trafficking in illegal goods but often hamper the efforts of the authorities in pursuit In this new edition Boister examines whether too much focus on suppressing criminality and not enough on protecting human rights and the rule of law has prevented efforts to create an effective transnational legal space **Reparations and Victim Support in the International Criminal Court** Conor McCarthy, 2012-04-12 Explores the ICC s regime of victim redress including both its reparations regime and the work of the ICC Trust Fund
