In this fascinating resource, market experts Shim and Siegel explain the world of investment and discuss everything from lead investors to the best investment news publications and sources, computer software and service providers. Not only do the authors tell the reader where to find relevant information but also they analyze, explain, illustrate and demonstrate how to apply major and minor concepts, terms, ratios and a host of other variables; their explanations are simple, clear and concise. Among the hundreds of topics covered are what moves the markets and why, benefits and costs of good investment information, market benchmarks and how they help investors succeed, on-line data services and what they can provide, investment software, finding and understanding company information, etc. *Mutual Funds on the Net* Paul B.
