distinctive motions which imitate the swaying and faltering of an inebriated individual in conjunction with dexterous and nimble strategies While the precise origins of Drunken Monkey Kung Fu are shrouded in mystery it is thought that Chu Mei Feng a Taoist priest was responsible for its development during the Qing Dynasty 1644 1912 According to legend Chu Mei Feng channeled his observations of an inebriated monkey s movements while out in the wild into his martial arts training Opinions are divided on the technique due to its fluid and unpredictable movements which hinder opponents ability to anticipate and respond Proficient individuals frequently utilize strategies including rolls falls twists and exaggerated hand gestures in order to perplex and deceive their adversaries Drunken Monkey Kung Fu is an effective martial art that when mastered emphasizes balance coordination and agility despite its apparently unconventional approach Furthermore apart from its pragmatic implementations in combat Drunken Monkey Kung Fu is regarded for its aesthetic and health promoting attributes Comparable to other traditional Chinese martial arts it incorporates philosophical principles and physical training with the intention of fostering the development of the mind body and spirit Drunken Monkey Kung Fu is still taught and practiced by martial artists worldwide at this time
