McCraw, 1986-10-15 There is properly no history only biography Emerson remarked and in this ingenious book Thomas McGraw unfolds the history of four powerful men Charles Francis Adams Louis D Brandeis James M Landis and Alfred E Kahn The absorbing stories he tells make this a book that will appeal across a wide spectrum of academic disciplines and to all readers interested in history biography and Americana      *Cost, Uncertainty and Welfare* Stephan John

Nash,2018-12-17 First published in 1998 This work contributes to the discussion of Knight by showing that uncertainty broadens the conception of economic welfare and that a new cost analysis holds the key to unlocking the Knightian corpus It develops Knight s suggestion that uncertainty control costs can be reduced arguing that the large firm enjoys economic rent from utilizing its dominant vantage point in the market The author demonstrates that while Knight provides the intellectual stimulus which propelled Chamberlin s thesis of monopolistic competition Chamberlin uses a very abstract form of uncertainty in his analysis

**User-Innovation** Viktor Braun,Cornelius Herstatt,2009-06-06 Economic growth is highly dependent on technological progress and innovation yet the sources from which these innovations originate are still largely misunderstood and untapped Recent research has demonstrated that users rather than manufacturers are often a critical source of innovation in numerous fields from extreme sports to medical devices to software This book systematically identifies the most important barriers to user innovation and critically evaluates the democratization of innovation argument by critically assessing the main legal economic technological and societal barriers to user innovation for the first time and proposing alternative possibilities Through original research the author reveals the dynamics of user innovation and offers strategies for minimizing those factors that inhibit and stifle the spread of this phenomenon From this analysis it becomes clear that user innovation has become more difficult over time and that the problem is now of how manufacturers can enable users to overcome the discussed barriers and simultaneously benefit from such consumer driven activities Arguing that licenses are not just an important technology commercialization instrument but are tools critical to generating innovations the author explains how licenses can in certain situations be employed to help users overcome some of the barriers to user innovation User Innovation Barriers to Democratization and IP Licensing is a practical guidebook as well as a startlingly original work of scholarship that will be essential reading for years to come

*Perspectives in Industrial Organization* B. Dankbaar,John Groenewegen,H. Schenk,2012-12-06 This book contains the key note lectures and a selection of papers that were presented at the 15th Conference of the European Association for Research in Industrial Econo mics EARIE held under the auspices of GRASP at Erasmus University Rotterdam in 1988 plus an introductory chapter by the Editors Upon suggestions by the Editors all papers have been revised for this book some more extensively than others Robin Marris has added to his lecture a synopsis of the contributions to the Round Table on the Micro Macro Interface which he chaired during the Conference The papers cover issues that seem to be both interesting and

relevant for the 1990s While some of the papers are cast in a rather established research frame enabling the use of regular academic routines others are first attempts at delineating the contours of areas that are peripheral to what is often considered as the core of Industrial Organization In their introductory chapter the Editors set forth that a neglect of those areas may well relegate Industrial Organization to social irrelevancy Therefore it is hoped that the book will also contribute to a reflection on the main lines of Industrial Organization research for the 1990s thus helping to create a healthy perspective for this part of economics at a time when macroeconomics is undergoing a severe crisis
