Monsieur Teste:

The Collected Works of Paul Valéry Paul Valéry, 1973 Mimesis and Theory René Girard, Robert Doran, 2008
Mimesis and Theory brings together twenty previously uncollected essays on literature and literary theory by one of the most important thinkers of the past thirty years Collected Works of Paul Valéry, Volume 6 Paul Valéry, 1989-07-21 Although not autobiographical in any usual sense Valéry's novel is profoundly personal Monsieur Teste reflects Valéry's preoccupation with the phenomenon of a mind detached from sensibility yet he is also an ordinary fictional character This volume includes Snapshots of Monsieur Teste excerpts from Valéry's Cahiers *Skepticism and Impersonality in Modern Poetry* V. Joshua Adams, 2025-06-12 Modern literature is often described in terms of its impersonality What is the significance of this fact In Skepticism and Impersonality V. Joshua Adams follows the history of impersonality in modern poetry from Mallarmé and Eliot through to the present engaging with work by major poets and critics but also contemporary philosophers Rather than seeing impersonality exclusively as a literary historical phenomenon Adams argues that we should understand it as an attempt to address skeptical problems arising from the limitations of first person experience Defending impersonality as a response to skeptical problems including doubts about the publicity of our experiences our knowledge of other minds the capacity of our language to describe the world the relationship between mind and body and the fictionality and continuity of our sense of self Adams analyzes what he calls experiments in impersonality as means of working through skeptical doubt The writers discussed transform this doubt into art whilst also ironizing it as corrosive and self-defeating Ultimately this leads Adams to reinterpret literary impersonality as a therapeutic philosophical project Skepticism and Impersonality promises a new theoretical justification for our practical interest in literary texts to renovate our conception of how those texts might do philosophical work and to expand our sense of what a philosophical poem can be *Unselfing* Michaela Hulstyn, 2022-08-31 Altered states of consciousness including experiences of deprivation pain hallucination fear desire alienation and spiritual transcendence can transform the ordinary experience of selfhood Unselfing explores the nature of disruptive self experiences and the different shapes they have taken in literary writing The book focuses on the tension between rival conceptions of unselfing as either a form of productive self transcendence or a form of alienating self loss Michaela Hulstyn explores the shapes and meanings of unselfing through the framework of the global French literary world encompassing texts by modernist figures in France and Belgium alongside writers from Algeria Rwanda and Morocco Together these diverse texts prompt a re-evaluation of the consequences of the loss or the transcendence of the self Through a series of close readings Hulstyn offers a new account of the ethical questions raised by altered states and shows how philosophies of empathy can be tested against and often challenged by literary works Drawing on cognitive science and phenomenology Unselfing provides a new methodology for approaching texts that give shape to the fringes of conscious experience Preface to Monsieur Teste by Paul Valéry Marianne Moore, 1985 Death in Quotation Marks Svetlana Boym, 1991 **Rootedness** Christy

Wampole, 2016-04-06 People have long imagined themselves as rooted creatures bound to the earth and nations from which they came In *Rootedness* Christy Wampole looks toward philosophy ecology literature history and politics to demonstrate how the metaphor of the root surfacing often in an unexpected variety of places from the family tree to folk etymology to the language of exile developed in twentieth century Europe Wampole examines both the philosophical implications of this metaphor and its political evolution From the root as home to the root as genealogical origin to the root as the past itself rootedness has survived in part through its ability to subsume other compelling metaphors such as the foundation the source and the seed With a focus on this concept s history in France and Germany Wampole traces its influence in diverse areas such as the search for the mystical origins of words land worship and nationalist rhetoric including the disturbing portrayal of the Jews as an unrooted and thus unrighteous people Exploring the works of Martin Heidegger Simone Weil Jean Paul Sartre Paul Celan and many more *Rootedness* is a groundbreaking study of a figure of speech that has had wide reaching and at times dire political and social consequences

The Beast and the Sovereign, Volume I Jacques Derrida, 2010-12-15 When he died in 2004 Jacques Derrida left behind a vast legacy of unpublished material much of it in the form of written lectures With *The Beast and the Sovereign Volume 1* the University of Chicago Press inaugurates an ambitious series edited by Geoffrey Bennington and Peggy Kamuf translating these important works into English *The Beast and the Sovereign Volume 1* launches the series with Derrida s exploration of the persistent association of bestiality or animality with sovereignty In this seminar from 2001 2002 Derrida continues his deconstruction of the traditional determinations of the human The beast and the sovereign are connected he contends because neither animals nor kings are subject to the law the sovereign stands above it while the beast falls outside the law from below He then traces this association through an astonishing array of texts including La Fontaine s fable *The Wolf and the Lamb* Hobbes s biblical sea monster in *Leviathan* D H Lawrence s poem *Snake* Machiavelli s *Prince* with its elaborate comparison of princes and foxes a historical account of Louis XIV attending an elephant autopsy and Rousseau s evocation of werewolves in *The Social Contract* Deleuze Lacan and Agamben also come into critical play as Derrida focuses in on questions of force right justice and philosophical interpretations of the limits between man and animal

Disarming Intelligence Zakir Paul, 2024-08-13 A critical account of the idea of intelligence in modern French literature and thought In the late nineteenth century psychologists and philosophers became intensely interested in the possibility of quantifying measuring and evaluating intelligence and using it to separate and compare individuals *Disarming Intelligence* analyzes how this polyvalent term was consolidated and contested in competing discourses from fin de siècle psychology and philosophy to literature criticism and cultural polemics around the First World War Zakir Paul examines how Marcel Proust Henri Bergson Paul Valéry and the critics of the influential *Nouvelle revue française* registered negotiated and subtly countered the ways intelligence was invoked across the political and aesthetic spectrum For these writers intelligence fluctuates between an individual sovereign faculty for

analyzing the world and something collective accidental and contingent Disarming Intelligence shows how literary and critical styles questioned suspended and reimagined what intelligence could be by bringing elements of uncertainty and potentiality into its horizon The book also explores interwar political tensions from the extreme right to Walter Benjamin's engaged essays on contemporary French writers Finally a brief coda recasts current debates about artificial intelligence by comparing them to these earlier crises of intelligence By drawing together and untangling competing conceptions of intelligence Disarming Intelligence exposes its mercurial but influential and urgent role in literary and cultural politics

Literary History, Modernism, and Postmodernism Douwe Wessel Fokkema, 1984-01-01 In these lectures delivered at Harvard University in March 1983 the differences between Modernism and Postmodernism are discussed in semiotic terms based on a contrastive analysis of semantic and syntactical compositional features They present the major results of research into the literary conventions of Modernism Gide Larbaud V Woolf du Perron Th Mann and the innovations of Postmodernism Borges Fuentes Barthelme Calvino Hermans The investigation of innovation in literary history is based on a concept of literary evolution launched by the Russian Formalists and elaborated by reception theory and semioticians such as Lotman and Eco The author argues for further corroboration by means of empirical textual as well as psychological research

Merleau-Ponty's Poetic of the World Galen A. Johnson, Mauro Carbone, Emmanuel de Saint Aubert, 2020-08-04 Merleau Ponty has long been known as one of the most important philosophers of aesthetics yet most discussions of his aesthetics focus on visual art This book corrects that balance by turning to Merleau Ponty's extensive engagement with literature From Proust Merleau Ponty developed his conception of sensible ideas from Claudel his conjoining of birth and knowledge as co naissance from Valéry came implex or the animal of words and the chiasma of two destinies Literature also provokes the questions of expression metaphor and truth and the meaning of a Merleau Pontian poetics The poetic of Merleau Ponty is the book argues a poetic of the flesh a poetic of mystery and a poetic of the visible in its relation to the invisible Ultimately theoretical figures or figuratives that appear at the threshold between philosophy and literature enable the possibility of a new ontology What is at stake is the very meaning of philosophy itself and its mode of expression **Selected Writings:**

1927-1934 Walter Benjamin, Howard Eiland, Gary Smith, 1996 Comprising more than 65 pieces journal articles reviews extended essays sketches aphorisms and fragments this volume shows the range of Walter Benjamin's writing His topics here include poetry fiction drama history religion love violence morality and mythology *The Neutral* Roland Barthes, 2005

Lecture course at the College de France 1977 1978 **An Evening with Monsieur Teste** Paul Valéry, 1936 The Art of Philosophy Peter Sloterdijk, 2012 In his best selling book You Must Change Your Life Peter Sloterdijk argued exercise and practice were crucial to the human condition In The Art of Philosophy he extends this critique to academic science and scholarship casting the training processes of academic study as key to the production of sophisticated thought Infused with humor and provocative insight The Art of Philosophy further integrates philosophy and human existence richly detailing the

foundations of this relationship and its transformative role in making the postmodern self Sloterdijk begins with Plato's description of Socrates whose internal monologues were so absorbing they often rooted the philosopher in place. The original academy Sloterdijk argues taught scholars to lose themselves in thought and today's universities continue this tradition by offering scope for Plato's accommodations for absences. By training scholars to practice thinking as an occupation transcending daily time and space universities create the environment in which thought makes wisdom possible. Traversing the history of asceticism, the concept of suspended animation and the theory of the neutral observer Sloterdijk traces the evolution of philosophical practice from ancient times to today showing how scholars can remain true to the tradition of the examined life even when the temporal dimension no longer corresponds to the eternal. Building on the work of Husserl, Heidegger, Nietzsche, Arendt and other practitioners of the life of theory Sloterdijk launches a posthumanist defense of philosophical inquiry and its everyday therapeutic value.

Thomas Bernhard Gitta Honegger, 2001-01-01 Thomas Bernhard 1931-1989 a literary figure of international acclaim and arguably Austria's greatest post-World War II writer became the first of his generation to expose unrelentingly his country's pathological denial of complicity in the Holocaust. Bernhard's writings and indeed his own biography reflect Austria's fraught efforts to define itself as a nation following the collapse of the Habsburg monarchy and the trauma of World War II. Repeatedly he scandalized the nation with novels, plays and public statements that exposed the convoluted ways Austrians were attempting to come to terms with their Nazi past or defiantly avoiding doing so. This book, the first comprehensive biography of Thomas Bernhard in English, examines his life and work and their intricate relationship to Austria's geographical, political and cultural transformations in the twentieth century. While Bernhard was the scourge of his native culture, Honegger explains, he was also a product of that same culture. Appreciation of his controversial impact on his society is possible only through an understanding of the contradictions, the shame and the achievements that mark Austrians' self-perception in the postwar years. Honegger shows that for Bernhard the theater was not only a profession but also a paradigm for his life and that performance was the primary force animating his writing and self-construction. Even after his death, Bernhard's carefully constructed biography continues to fascinate, shock and expose the Austrian culture at large.

Selected Writings: 1938-1940 Walter Benjamin, 1996 Comprising more than 65 pieces, journal articles, reviews, extended essays, sketches, aphorisms and fragments, this volume shows the range of Walter Benjamin's writing. His topics here include poetry, fiction, drama, history, religion, love, violence, morality and mythology.

Monsieur Teste in America & Other Instances of Realism Andrei Codrescu, 1987 **Dissonance (if you are interested)** Rosmarie Waldrop, 2005-08-21 Incisive essays on modern poetry and translation by a noted poet, translator and critic. As an immigrant to the United States from Germany, Rosmarie Waldrop has wrestled with the problems of language posed by the discrepancies between her native and adopted tongues and the problems of translating from one to the other. Those discrepancies and disjunctions, instead of posing problems to be overcome, have become for Waldrop a generative force.

and the very foundation of her interests as a critic and poet In this comprehensive collection of her essays Waldrop addresses considerations central to her life s work typical genres and ways of countering the conventions of genre how concrete poets have made syntax spatial rather than grammatical and the move away from metaphor in poetry toward contiguity and metonymy Three essays on translation struggle with the sources and targets of translation of the degree of strangeness or foreignness a translator should allow into any English translation Finally other essays examine the two way traffic between reading and writing and Waldrop s notion of reading as experience
