Monsoon Seas:

The Closing of the Frontier John G. Butcher, 2022-07-18 This book is the first on the history of the marine fisheries of Southeast Asia. It takes as its central theme the movement of fisheries into new fishing grounds, particularly the diverse ecosystems that make up the seas of Southeast Asia. This process accelerated between the 1950s and 1970s in what the author calls the great fish race. Catches soared as the population of the region grew, demand from Japan and North America for shrimps and tuna increased, and fishers adopted more efficient ways of locating, catching, and preserving fish. But the great fish race soon brought about the severe depletion of one fish population after another, while pollution and the destruction of mangroves and coral reefs degraded fish habitats. Today the relentless movement into new fishing grounds has come to an end for there are no new fishing grounds to exploit. The frontier of fisheries has closed. The challenge now is to exploit the seas in ways that preserve the diversity of marine life while providing the people of the region with a source of food long into the future.

Sailing Directions (planning Guide) for Southeast Asia, 1991 **Sailing Directions for the West Coast of India** United States. Defense Mapping Agency. Hydrographic Center, 1976 **Sailing Directions (planning Guide) for the North Pacific Ocean**, 1989 **The Sea and Civilization** Lincoln Paine, 2015-10-27 A monumental retelling of world history through the lens of the sea, revealing in breathtaking depth how people first came into contact with one another by ocean and river, lake and stream, and how goods, languages, religions, and entire cultures spread across and along the world's waterways, bringing together civilizations and defining what makes us most human. *The Sea and Civilization* is a mesmerizing, rhapsodic narrative of maritime enterprise from the origins of long-distance migration to the great seafaring cultures of antiquity, from Song Dynasty human-powered paddle boats to aircraft carriers and container ships. Lincoln Paine takes the reader on an intellectual adventure, casting the world in a new light in which the sea reigns supreme. Above all, Paine makes clear how the rise and fall of civilizations can be linked to the sea. An accomplishment of both great sweep and illuminating detail, *The Sea and Civilization* is a stunning work of history.
