**The Performance of Nobility in Early Modern European Literature** David M. Posner, 1999-11-04 This valuable study illuminates the idea of nobility as display as public performance in Renaissance and seventeenth century

literature and society Ranging widely from Castiglione and French courtesy manuals through Montaigne and Bacon to the literature of the Grand Si cle David Posner examines the structures of public identity in the period He focuses on the developing tensions between on the one hand literary or imaginative representations of nobility and on the other the increasingly problematic historical position of the nobility themselves These tensions produce a transformation in the notion of the noble self as a performance and eventually doom court society and its theatrical mode of self presentation Situated at the intersection of rhetorical and historical theories of interpretation this book contributes significantly to our understanding of the role of literature both in analysing and in shaping social identity War Literature And The Arts In Sixteenth-Century Europe Margaret Shewring,J R Mulryne,2016-07-05 Mélanges Gray, Floyd Raymond C. Schachter,2016-12-05 Focusing primarily on three early modern French authors this book explores the erotics and politics of voluntary servitude in classical antiquity and the early modern period These authors tienne de La Bo tie Michel de Montaigne and Marie de Gournay pursue related inquiries into voluntary servitude and self control in marriage friendship pederasty and politics Marc Schachter shows how Montaigne s intimate textual relationship with La Bo tie provides him the opportunity to honor his beloved friend while transforming many of his ideas Similarly Marie de Gournay s editorial voluntary servitude to Montaigne provides her the occasion to authorize her own practice as a woman author and to engage critically with Montaigne s ideas even as she celebrates her friendship with him Schachter s analyses are pursued particularly through the lens of Michel Foucault s concept of governmentality which like voluntary servitude operates on three interrelated scales self control control in interpersonal relationships and political control Schachter argues that thinking about the function of voluntary servitude through the lens of governmentality leads to a more nuanced understanding both of Foucault s late work and of the transformational possibilities offered by friendship and voluntary servitude in early modern France **Les spectateurs de la vie: généalogie du regard moraliste** Louis Van Deft,2014-05-01T00:00:00-04:00 Les XVIe XVIIe et XVIIIe si cles repr sentent l ge d or des philosophes de la vie C en est fini de toute coh sion pressent non sans angoisse John Donne De fait la cosmographie th ologique le th tre de l univers perdent de leur prestige devant le spectacle du monde et le petit monde de l homme toujours explor s plus avant gr ce aux progr s dans toutes les sciences de l astronomie l anatomie bien des gards des scrutateurs comme Montaigne Graci n La Fontaine et les esprits de cette famille jusqu Nietzsche au moins sont les pr curseurs des existentialistes les promoteurs du saisissant fragment litt raire si bien accord aux temps modernes Ceux que l usage d signe de moralistes et que Montaigne plus profond

**MLN.**, 1905 *Scepticism, Freedom and Autonomy* Marcelo de Araujo, 2012-10-24 How much does what we think depend on what we want? Descartes' much-discussed position has often been interpreted to mean that we hold an opinion as the result of a decision. In *Scepticism, Freedom and Autonomy*, Araujo argues against this interpretation, asserting that we retain control over our opinions only through selective attention. Even for this limited control, however, Cartesian Scepticism implies the possibility of self-delusion, symbolized in the writings of Descartes by the figure of the evil god. Hence the existence of an evil god would not only cast doubt on our claims to knowledge but also jeopardize our freedom. In this new interpretation, the Cartesian Scepticism which is usually ascribed only epistemic significance proves relevant for a fundamental moral question: that of human autonomy in general.

*Montaigne's Unruly Brood* Richard L. Regosin, 2023-04-28 Perhaps as old as writing itself, the metaphor of the book as child has depicted textuality as an only son conceived to represent its father uniformly and to assure the integrity of his name. Richard L. Regosin demonstrates how Montaigne's *Essais* both departs from and challenges this conventional figure of textuality. He argues that Montaigne's writing is best described as a corpus of siblings with multiple faces and competing voices: a hybrid textuality inclined both to truth and dissimulation, to faithfulness and betrayal, to form and deformation. And he analyzes how this unruly mixed brood also discloses a sexuality and gender dynamic in the *Essais* that is more conflicted than the traditional metaphor of literary paternity allows. Regosin challenges traditional critics by showing how the logic of a faithful filial text is disrupted and how the writing self displaces the author's desire for mastery and totalization. He approaches the *Essais* from diverse critical and theoretical perspectives that provide new ground for understanding both Montaigne's complex textuality and the obtrusive reading that it simultaneously invites and resists. His analysis is informed by poststructuralist criticism, by reception theory, and by gender and feminist studies; yet at the same time he treats the *Essais* as a child of sixteenth-century Humanism and late Renaissance France. Regosin also examines Montaigne's self-proclaimed taste for Ovid and the role played by the seminal texts of self-representation and aesthetic conception: Narcissus and Pygmalion and the myth of sexual metamorphosis.
