Mysteries of the horizon, poems Lawrence Raab,1972 [Angel's Horizon's Inspirational Words from Heaven](#) Cheri Scheinin,2001 Cheryl Scheinin has been working on this book for over three years She has been writing with the angels to convey their thoughts and words in messages to touch your heart The angels want to touch your heart and want you to all learn that they are with you and want to talk with you Read the words of the angels in these wonderful touching messages of love Learn how to communicate with your own angels too This book will touch your heart and make you feel the presence of your own angels

The Bodymind Experience in Japanese Buddhism David Edward Shaner,1985-01-01 In a pioneering study David Shaner uses the resources of phenomenology to penetrate Buddhist philosophy in terms of K kai and D gen In addition to this original and rigorous methodology his work offers insights into some fundamental difficulties intrinsic to comparative studies The problem of the relation between body and mind is a prime example Shaner s observations shed a brilliant light on these traditional antinomies as they may be resolved or more accurately dissolved when seen in their appropriate contexts In addressing these issues the study also contributes to the understanding of common features that underlie the various doctrines of Japanese Buddhism This work will appeal to both East and West phenomenologists philosophers interested in the mind body problem scholars of comparative philosophy and students of Japanese philosophy and religion

Key Concepts in the Practice of Sufism Fethullah Gülen,2006 Concluding a textually long but spiritually endless journey toward insan al kamil the perfect human this fourth volume approaches Sufism through the middle way an approach that revives the legacy of the Prophet Muhammad With an awareness of the social realities of the 21st century concepts such as tranquility the truth of divinity life beyond the physical realm the preserved tablet the glorified attributes and the beautiful names are delicately explained

Journey to the Cosmic Mystery Pasquale

De Marco,2025-07-15 In the depths of the universe where the laws of physics warp and distort lies a celestial entity that has captured the imagination of scientists and stargazers for centuries the black hole These cosmic behemoths born from the cataclysmic collapse of massive stars possess a gravitational pull so immense that not even light can escape their clutches They are the ultimate expression of gravitational force marking the point of no return where time and space become distorted beyond recognition This captivating book takes you on an exhilarating journey to unravel the enigma of black holes With vivid prose and cutting edge research we delve into the mind boggling concepts of black hole physics exploring their formation properties and the profound impact they have on the fabric of spacetime As you embark on this cosmic odyssey you will discover the astonishing life cycle of stars and witness the cataclysmic events that give birth to black holes You will explore the mind bending concept of the event horizon the boundary beyond which nothing not even light can escape You will investigate the perplexing information paradox a conundrum that challenges our understanding of quantum mechanics and the nature of reality itself Through the lens of cutting edge research and captivating storytelling this book unravels the mysteries of black holes revealing their pivotal role in the evolution of galaxies and the broader cosmos Join us on this captivating journey as we push the boundaries of our knowledge and explore the deepest mysteries of the universe Prepare to be captivated by the allure of these celestial giants as we embark on a journey that will forever change your perspective on the cosmos Immerse yourself in the enigma of black holes and discover the wonders that lie beyond the veil of spacetime If you like this book write a review

Lucian Blaga: Selected Philosophical Extracts R. T Allen,Angela Botez,Henrieta Anișoara Șerban,2018-04-15 After the Editor s General Introduction the extracts include central elements of Blaga s metaphysics general epistemology philosophies of science history religion language and especially metaphor the experience of space and time art and finally culture which includes all of them especially the presence in all of style and distinctive ways of practising them All these extracts are linked by his general epistemology especially his distinction between two types of knowledge paradisiac or Type 1 which is that of everyday awareness and the current methods concepts and presuppositions of the sciences of nature and humanity plus mathematics and philosophy and accumulates in plus knowledge and resolves problems in standard ways and Luciferican or Type 2 which opens up the mysteries of new realms of reality which do not fit the current methods concepts and presuppositions and so results in minus knowledge the awareness that there are things which at the moment we cannot understand For these mysteries new methods concepts and presuppositions are required which abyssal categories can supply ones below those we normally employ and may be aware of It is part of man s role in the cosmos to reveal such mysteries They are also linked by Blaga s awareness of historical changes especially dogmatic aeons in which a prevailing framework of categories etc guides knowledge and research and ones in which Type 2 knowledge dominates and new frameworks are eventually created Each extract has its own Introduction which places it in the context of the rest of his interlinked philosophy They show how Blaga with both general themes and concepts and also with particular

examples combines much of the concerns and methods of Analytic and Continental philosophy and how his historical perspective applied especially to modern times long before anyone spoke of postmodernism and thus as in his lifetime
