The Spectacle of Japanese American Trauma Emily Roxworthy,2008-07-31 In The Spectacle of Japanese American Trauma Emily Roxworthy contests the notion that the U S government s internment policies during World War II had little impact on the postwar lives of most Japanese Americans After the curtain was lowered on the war following the bombings of Hiroshima and Nagasaki many Americans behaved as if the theatre of war had ended and life could return to normal Roxworthy demonstrates that this theatrical logic of segregating the real from the staged the authentic experience from the political display grew out of the manner in which internment was agitated for and instituted by the U S government and media During the war Japanese Americans struggled to define themselves within the web of this theatrical logic and they continue to reenact this trauma in public and private to this day The political spectacles staged by the FBI and the American mass media were heir to a theatricalizing discourse that can be traced back to Commodore Matthew Perry s opening of Japan in 1853 Westerners particularly Americans drew upon it to orientalize disempower demonize and conquer those of Japanese descent who were characterized as natural born actors who could not be trusted Roxworthy provides the first detailed reconstruction of the FBI s raids on Japanese American

communities which relied on this discourse to justify their highly choreographed searches seizures and arrests Her book also makes clear how wartime newspapers particularly those of the notoriously anti Asian Hearst Press melodramatically framed the evacuation and internment so as to discourage white Americans from sympathizing with their former neighbors of Japanese descent Roxworthy juxtaposes her analysis of these political spectacles with the first inclusive look at cultural performances staged by issei and nisei first and second generation Japanese Americans at two of the most prominent relocation centers California s Manzanar and Tule Lake The camp performances enlarge our understanding of the impulse to create art under oppressive conditions Taken together wartime political spectacles and the performative attempts at resistance by internees demonstrate the logic of racial performativity that underwrites American national identity The Spectacle of Japanese American Trauma details the complex formula by which racial performativity proved to be a force for both oppression and resistance during World War II Routledge Library Editions: Security and Society Various,2021-09-30 This 12 volume set contains titles originally published between 1934 and 1995 An eclectic mix of titles this collection draws from anthropology economics ethics politics psychology and sociology Exploring security in both war and peacetime it includes volumes looking at the causes of war and its effect on society as a whole the soldiers themselves and their place in society the portrayal of war in the press both in words and photographs and the politics behind them **Closing the Shop** Laurie Anne Freeman,2012-10-04 How is the relationship between the Japanese state and Japanese society mediated by the press Does the pervasive system of press clubs and the regulations underlying them alter or even censor the way news is reported in Japan Who benefits from the press club system And who loses Here Laurie Anne Freeman examines the subtle highly interconnected relationship between journalists and news sources in Japan Beginning with a historical overview of the relationship between the press politics and the public she describes how Japanese press clubs act as information cartels limiting competition among news organizations and rigidly structuring relations through strict rules and sanctions She also shows how the web of interrelations extends into and is reinforced by media industry associations and business groups keiretsu Political news and information are conveyed to the public in Japan but because of institutional constraints they are conveyed in a highly delimited fashion that narrows the range of societal inquiry into the political process Closing the Shop shows us how the press system in Japan serves as neither a watchdog nor a lapdog Nor does the state directly control the press in ways Westerners might think of as censorship The level of interconnectedness through both official and unofficial channels helps set the agenda and terms of political debate in Japan s mass media to an extent that is unimaginable to many in the United States and other advanced industrial democracies This fascinating look at Japan s information cartels provides a critical but often overlooked explanation for the overall power and autonomy enjoyed by the Japanese state The Blackwell Companion to the Sociology of Culture Mark D. News, Gender and Power Stuart Allan, Gill Branston, Cynthia Carter, 2002-01-31 How do gender relations affect the practice of journalism Despite the star status accorded to some women reporters and the dramatic increase in the number of women working in journalism why do men continue to occupy most senior management positions And why do female readers viewers and listeners remain as elusive as ever *News Gender and Power* addresses the pressing questions of how gender shapes the forms practice institutions and audiences of journalism The contributors who include John Hartley Pat Holland Jenny Kitzinger and Myra Macdonald draw on feminist theory and gender sensitive critiques to explore media issues such as ownership and control employment and occupation status the representation of women in the media the sexualization of news and audience research Within this framework the contributors explore media coverage of the trial of O J Simpson British beef and the BSE scandal the horrific crimes of Fred and Rosemary West child sexual abuse and false memory syndrome the portrayal of women in TV documentaries such as *Modern Times* and *Cutting Edge*

Tabloid Television John Langer, 2006-10-19 Fires floods accidents celebrity lifestyles heroic acts of humble people cute acts by family pets and the weather Television's non news about non events takes up an increasingly large part of contemporary broadcast journalism but is regularly dismissed by television pundits as having no place on our screens To its critics this other news distracts our attention with trivialities and entertainment values and undermines journalism's relationship with the workings of democracy Yet in spite of these protests this lite news remains as entrenched and as popular as ever

In **Tabloid Television** John Langer argues that television's other news must be recognised as equally important as hard news in the building of a genuinely comprehensive study of broadcast journalism Using narrative analysis theories of ideology concepts from genre studies and detailed textual readings other news is explored as a cultural discourse connected with story telling gossip social memory the horror film national identity and the cult of fame Langer's study also examines the political role played by an allegedly non political news and explores the links between this type of news and recent broadcasting trends towards reality television

Tabloid Television Popular Journalism and the Other News provides an eclectic and intriguing look at one of the most maligned areas of television news By offering an extended and thoroughly grounded analysis of actual news stories John Langer locates the question of representational power as one of the central concerns of the media studies agenda and offers some interesting speculation about where television news may be heading
