Nga Tai Matatu Tides Of Maori Endurance:

Beyond Biculturalism Dominic O'Sullivan, 2007 Beyond Biculturalism is a critical analysis of contemporary Maori public policy Bicultural political theory dominated Maori Crown relationships during the 1980s and 1990s and O Sullivan argues that biculturalism inevitably makes Maori the junior partner in a colonial relationship that obstructs Maori aspirations to self determination The politics of indigeneity and self determination are discussed as alternative political ideas for thinking about Maori relationships with the state Against this background and by drawing on Australian and Canadian comparisons the book examines contemporary Maori political issues such as the Foreshore and Seabed Act 2004 Maori parliamentary representation the one law for all ideology settlements of Maori grievances against the Crown and Maori economic development

Ngā Tai Matatū Mason Durie, 2005 Nga Tai Matatu Tides of Maori Endurance describes and analyses the position of the Maori people and Maori interests at the start of the third millennium It also recognises the journeys from the past and makes projections into the future The book builds on the highly successful Te Mana te Kawanatanga The Politics of Maori Self Determination but also introduces new issues and canvasses recent developments that have influenced Maori lives and Maori resources Development is an ongoing process that has distant beginnings and no real ending That sense of eternity is reflected in the Maori title like the changing nature of the tide Maori fortunes also change The book provides a comprehensive analysis of research relating specifically to Maori over many fields It presents a carefully structured and argued overview of the background history experience and aspirations of the indigenous people of New Zealand and develops a wide ranging framework within which Maori development can be considered The author draws on published evidence and uses analytical models that are consistent with Maori aspirations and priorities The book contributes towards better understanding of the Maori position and considers the challenges that lie ahead Subjects on which there is little information available elsewhere are discussed such as demographics genetic modification claims to Maori resources Maori political engagement

Colonization and Development in New Zealand between 1769 and 1900 Ian Pool, 2015-09-03 This book details the interactions between the Seeds of Rangiatea New Zealand s Maori people of Polynesian origin and Europe from 1769 to 1900 It provides a case study of the way Imperial era contact and colonization negatively affected naturally evolving demographic epidemiologic transitions and imposed economic conditions that thwarted development by precursor peoples wherever European expansion occurred In doing so it questions the applicability of conventional models for analyses of colonial histories of population health and of development The book focuses on and synthesizes the most critical parts of the story the health and population trends and the economic and social development of Maori It adopts demographic methodologies most typically used in developing countries which allow the mapping of broad changes in Maori society particularly their survival as a people The book raises general theoretical questions about how populations react to the introduction of diseases to which they have no natural immunity Another more general theoretical issue is what happens

when one society's development processes are superseded by those of some more powerful force whether an imperial power or a modern day agency which has ingrained ideas about objectives and strategies for development Finally it explores how health and development interact The Maori experience of contact and colonization lasting from 1769 to circa 1900 narrated here is an all too familiar story for many other territories and populations Natives and former colonists This book provides a case study with wider ramifications for theory in colonial history development studies demography anthropology and other fields

Recovering Our Ancestral Foodways Mariaelena Huambachano, 2024-08-06 Based on over ten years of fieldwork in Peru and Aotearoa New Zealand Recovering Our Ancestral Foodways explores how Quechua and M ori peoples describe define and enact well being through the lens of foodways By analyzing how these two Indigenous communities operationalize knowledge to promote sustainable food systems physical and spiritual well being and community health Mariaelena Huambachano puts forth a powerful philosophy of food sovereignty called the Chakana M hutonga She argues that this framework offers a foundation for understanding the practices and policies needed to transform the global food system to nourish the world and preserve the Earth One of the key features of this book is the development of the author's original research methodology the Khipu Model which will serve as a vital resource for future research on Indigenous ways of knowing

Radical Human Ecology Rose Roberts, 2016-04-08 Human ecology the study and practice of relationships between the natural and the social environment has gained prominence as scholars seek more effectively to engage with pressing global concerns In the past seventy years most human ecology has skirted the fringes of geography sociology and biology This volume pioneers radical new directions In particular it explores the power of indigenous and traditional peoples epistemologies both to critique and to complement insights from modernity and postmodernity Aimed at an international readership its contributors show that an inter cultural and transdisciplinary approach is required The demands of our era require a scholarship of ontological depth an approach that can not just debate issues but also address questions of practice and meaning Organized into three sections Head Heart and Hand this volume covers the following key research areas Theories of Human Ecology Indigenous and Wisdom Traditions Eco spiritual Epistemologies and Ontology Research practice in Human Ecology The researcher researched relationship Research priorities for a holistic world With the study of human ecology becoming increasingly imperative this comprehensive volume will be a valuable addition for classroom use

Te Hāhi Mihinare | The Māori Anglican Church Hirini Kaa, 2020-09-12 The arrival of the Anglican Church with its claims to religious power was soon followed by British imperial claims to temporal power Political legal economic and social institutions were designed to be the bastions of control across the British Empire However they were also places of contestation and engagement at a local and national level and this was true of New Zealand M ori culture was constantly capable of adaptation in the face of changing contexts This ground breaking book explores the emergence of Te H hi Mihinare the M ori Anglican Church Anglicanism brought to New Zealand by English missionaries in 1814 was made widely

known by M ori evangelists as iwi adapted the religion to make it their own The ways in which Mihinare M ori Anglicans engaged with the settler Anglican Church in New Zealand and created their own unique Church casts light on the broader question of how M ori interacted with and transformed European culture and institutions Hirini Kaa vividly describes the quest for a M ori Anglican bishop the translation into te reo of the prayer book and the development of a distinctive M ori Anglican ministry for today s world Te H hi Mihinare uncovers a rich history that enhances our understanding of New Zealand s past

Indigenous Peoples and Demography Per Axelsson, Peter Sköld, 2011-08-01 When researchers want to study indigenous populations they are dependent upon the highly variable way in which states or territories enumerate categorise and differentiate indigenous people In this volume anthropologists historians demographers and sociologists have come together for the first time to examine the historical and contemporary construct of indigenous people in a number of fascinating geographical contexts around the world including Canada the United States Colombia Russia Scandinavia the Balkans and Australia Using historical and demographical evidence the contributors explore the creation and validity of categories for enumerating indigenous populations the use and misuse of ethnic markers micro demographic investigations and demographic databases and thereby show how the situation varies substantially between countries

Indigenous Politics Mikkel Berg-Nordlie, Jo Saglie, Ann Sullivan, 2016-08-19 Over the last fifty years indigenous politics has become an increasingly important field of study Recognition of self determination rights are being demanded by indigenous peoples around the world Indigenous struggles for political representation are shaped by historical and social circumstances particular to their nations but there are nevertheless many shared experiences What are some of the commonalities similarities and differences to indigenous representation participation and mobilisation This anthology offers a comparative perspective on institutional arrangements that provide for varying degrees of indigenous representation including forms of self organisation as well as government created representation structures A range of comparative and country specific studies provides a wealth of information on institutional arrangements and processes that mobilise indigenous peoples and the ways in which they negotiate alliances and handle conflict

Indigeneity: A Politics of Potential O'Sullivan, Dominic, 2017-06-07 This original book is the first comprehensive integration of political theory to explain indigenous politics It assesses the ways in which indigenous and liberal political theories interact to consider the practical policy implications of the indigenous right to self determination Providing opportunities for indigenous peoples to pursue culturally framed understandings of liberal democratic citizenship the author reveals indigeneity s concern for political relationships agendas and ideas beyond the ethnic minority claim to liberal recognition The implications for national reconciliation liberal democracy citizenship and historical constraints on political authority are explored He also shows that indigeneity s local geo political focus underpinned by global theoretical developments in law and politics makes indigeneity a movement of forward looking transformational politics This innovative theoretically sophisticated and vibrant work will influence policy and

scholarly debates on the politics of indigeneity and indigenous rights and will be of broad international interest to a transcultural transnational and global phenomenon *The Fabric of Welfare* Margaret Tennant, 2007 Throughout history the welfare of the people has been a contested area Is it the responsibility of the state The churches The extended family Organised charities or informal community groups The Fabric of Welfare is about the many points of contact between voluntary welfare and government social services and the complex pattern woven by these different threads The country's welfare history is shaped by its colonial past with the predominantly British influences transmitted by an immigrant society in the nineteenth century by its Maori population with a strong communal ethos by the shaping forces of the welfare state by two world wars and economic depression and by both free market policies and rapid social change in recent years In tracing the interdependence of state and voluntary provision of welfare from 1840 to 2005 Margaret Tennant offers new perspectives on New Zealand social history This is a rigorous analysis but it is also a history illuminated by people The text is illustrated with stories about the people who were moved to save to reform to care to support and the people who needed that essential sustenance From the nun who sees a distraught woman about to throw her child into the sea and sets out to care for foundlings to city missionaries community minded public servants businessmen philanthropists and the entrepreneurial organisers of floral fetes and telethons these accounts tell us much about the history of welfare in all its interconnections

Handbook of Motivation and Cognition Across Cultures Richard Sorrentino, Susumu Yamaguchi, 2011-04-28 In recent years there has been a wealth of new research in cognition particularly in relation to supporting theoretical constructs about how cognitions are formed processed reinforced and how they then affect behavior Many of these theories have arisen and been tested in geographic isolation It remains to be seen whether theories that purport to describe cognition in one culture will equally prove true in other cultures The Handbook of Motivation and Cognition Across Cultures is the first book to look at these theories specifically with culture in mind The book investigates universal truths about motivation and cognition across culture relative to theories and findings indicating cultural differences Coverage includes the most widely cited researchers in cognition and their theories as seen through the looking glass of culture The chapters include self regulation by Tory Higgins unconscious thought by John Bargh attribution theory by Bernie Weiner and self verification by Bill Swann among others The book additionally includes some of the best new researchers in cross cultural psychology with contributors from Germany New Zealand Japan Hong Kong and Australia In the future culture may be the litmus test of a theory before it is accepted and this book brings this question to the forefront of cognition research Includes contributions from researchers from Germany New Zealand Japan Hong Kong and Australia for a cross cultural panel Provides a unique perspective on the effect of culture on scientific theories and data *The Oxford Handbook of Indigenous Sociology* Maggie Walter, Tahu Kukutai, Angela Gonzales, Robert Henry, 2023 The Oxford Handbook of Indigenous Sociology challenges the traditional way that Indigenous Peoples and Societies are understood within the discipline It does so by bringing together 40

leading and emerging Indigenous scholars from across the CANZUS Countries to provide for the first time an authoritative state of the art survey of Indigenous sociological thinking These authors demonstrate that the Indigenous sociological voice is a new sociological paradigm and demonstrates a distinctively Indigenous methodological approach *The Thin Brown Line* Tahu Hera Kukutai, 2010 This study critically examines inequality within New Zealand's indigenous M ori population Specifically it asks whether strong ties to M ori identity incur higher socio economic costs Historical expository analysis is undertaken in concert with statistical analyses of data from the New Zealand Census of Population and Dwellings 1996 2001 2006 and a longitudinal study of M ori households I find strong evidence of ethnic and socio economic segmentation within the M ori population In each census individuals identified exclusively as M ori by ethnicity are the most disadvantaged across a wide range of socio economic indicators Those identified as M ori solely by ancestry are the least disadvantaged Pronounced differences in M ori language ability and intra M ori partnering are also evident indicating that the association between M ori identification and disadvantage may be partially explained by ties to M ori identity Regression analyses of multi wave survey data reveal a complex set of relationships Changing patterns of identification suggest self designation as a M ori is best conceived as a fluid contingent process rather than a stable individual trait M ori identification is generally a less salient predictor of disadvantage than specific ties to M ori identity expressed through network ties language and practices However while some ties to M ori identity appear to incur high socio economic costs other ties are inconsequential or advantageous Taken together the analyses contribute new insights into patterns of inequality between M ori and highlight the need for more careful theorizing and interpretation of ethnicity variables in empirical analysis Indigenous in the City Evelyn Peters, Chris Andersen, 2013-04-15 Research on Indigenous issues rarely focuses on life in major metropolitan centres Instead there is a tendency to frame rural locations as emblematic of authentic or real Indigeneity While such a perspective may support Indigenous struggles for territory and recognition it fails to account for large swaths of contemporary Indigenous realities including the increased presence of Indigenous people in cities The contributors to this volume explore the implications of urbanization on the production of distinctive Indigenous identities in Canada the US New Zealand and Australia In doing so they demonstrate the resilience creativity and complexity of the urban Indigenous presence both in Canada and internationally The SAGE Handbook of Qualitative Research Design Uwe Flick, 2022-03-17 Qualitative research design is continually evolving It is not only more established in disciplines beyond the traditional social sciences in which it is a standard choice but also just as impacted by the changes in what data technologies and approaches researchers are using This Handbook takes readers through the foundational theories functions strategies and approaches to qualitative research design before showcasing how it negotiates different data and research environments and produces credible actionable impact beyond the study Containing contributions from over 90 top scholars from a range of social science disciplines this Handbook is not just an anthology of different qualitative research designs and how when to use them it is a

complete exploration of how and why these designs are shaped and how why and into what they are evolving This is a valuable resource for Master s and PhD level students faculty members and researchers across a wide range of disciplines such as health nursing psychology social work sociology and education Volume One Part I Concepts of Designing Designs in Qualitative Research Part 2 Theories and Epistemological Contexts of Designing Qualitative Research Part 3 Elements of Designing Qualitative Research Part 4 Basic Designs and Research Strategies in Qualitative Research Part 5 Mixing Methods in Designing Qualitative Research Volume Two Part 6 Designing Qualitative Research for Specific Kinds of Data Part 7 Designing Qualitative Online and Multimodal Research Part 8 Designing Qualitative Research for Specific Groups and Areas Part 9 Designing Qualitative Research in Disciplinary Fields Part 10 Designing Qualitative Research for Impact
