Abstract

In an essay entitled 'Criticism and Interiority', Georges Poulet presents his phenomenological view of a book's effect with a scene of reading as an empty room holds a book within a book. This literary criticism presented by Poulet is not too close nor too distant from its object. Another question is raised in that essay regarding how the book, as an object, is transformed into an equivalent subjectivity or into what he referred to as 'interiority'. The book's openness is what encourages others to think about whether it exists outside itself, or if one would exist in it. This chapter highlights what is meant by the 'scene of reading' — a scene where in imagining an open book in an empty room allows several equivalences like 'inside me' or 'inside the book'.

Series: Clarendon Lectures in English

GEORGES Poulet, in an essay called 'Criticism and Interiority' (1970), opens his phenomenological account of the effect books have on us with a scene of reading—a book within a book, in an empty room: At the beginning of Mallarmé's unfinished story *l'igitur* there is the description of an empty room, in the middle of which, on a table, there is an open book.¹ Poulet's essay explores the idea of a literary criticism that is neither too close nor too distant from its object—neither absorbed completely into the text, to possess and inhabit it entirely; nor, alternatively, abstracting from it, to think its thoughts at a distance that precludes real engagement. But Poulet also poses another question. If a book is an object, how is it transformed into an equivalent subjectivity—into a place-holder for what he calls 'interiority'? Poulet's book awaits deliverance by human intervention, like a caged animal being mistreated as a mere object. The book's openness ('on a table, there is an open book') is what moves us and constitutes its invitation: 'It asks nothing better than to exist outside itself, or to let you exist in it. In short, the extraordinary fact in the case of a book is the falling away of the barriers between you and it. You are inside it, it is inside you; there is no longer ~, either outside or inside.'² Let me be, the book seems to say, and you too can be (in) me. For Poulet, then, the book exists, not on paper, not in its materiality nor in any physically locatable space (on a table, for instance), but in what he calls 'my innermost self. When the barriers come down, books are us. Which isn't to say that we are books, although we may sometimes think so.

I begin with Poulet because he eloquently evokes the recurrent figure that I'm going to refer to as 'the scene of reading'—a scene in which imagining an open book in an empty room gives rise to a series of equivalences, such as 'inside the book' and 'inside me'. Needless to say, we come to this imaginary scene of reading with an open book in front of us, the book that contains Poulet's essay; some other reader has always been there beforehand—Poulet, Mallarmé, the midnight reader in Mallarmé's *l'igitur*.³ But it's not

Psychoanalysis And The Scene Of Reading:

Psychoanalysis and the Scene of Reading Mary Jacobus, 1999 Psychoanalysis and the Scene of Reading explores some of the ways in which we think about reading and the effects reading has on us Whether considered as a process a representation or a cultural activity reading involves the idea about inner and outer absence and boundaries and the transmission of thoughts and feelings between one person or historical period and another These ideas provide the basis for much of our thinking about subjectivity and receive their fullest elaboration in the twentieth century discourse of psychoanalysis Drawing on the rich tradition of British object relations Psychoanalysis and the Scene of Reading is a literary critics approach to the scene of reading understood from a psychoanalytic perspective Linked essays on books and interiority memory and landscape trauma and literary transmission provide a subtle account of writing by Woolf Austen Rousseau and Romantic women as well as fictional accounts of slavery and colonialism and Holocaust memoirs Psychoanalysis and the Scene of Reading Mary Jacobus, 1999 Psychoanalysis and the Scene of Reading is a literary critic s approach to the range of meanings and activities involved in reading understood from a psychoanalytic perspective **From Illiteracy to Literature** Anne-Marie Picard, 2016-08-05 From Illiteracy to Literature presents innovative material based on research with non reading children and re examines the complex relationship between psychoanalysis and literature through the lens of the psychical significance of reading the forgotten adventure of our coming to reading Anne Marie Picard draws on two specific fields of interest firstly the wish to understand the nature of literariness or the literary effect i e the pleasures and frustrations we derive from reading secondly research on reading pathologies carried out at St Anne s Hospital Paris The author uses clinical observations of non reading children to answer literary questions about the reading experience using psychoanalytic theory as a conceptual framework The notion that reading difficulties or phobias should be seen as a symptom in the psychoanalytic sense allows Picard to shed light on both clinical vignettes taken from children s case histories and reading scenes from literary texts Children experiencing difficulties in learning to read highlight the imaginary stakes of the confrontation with the arbitrary nature of the letter and the price to pay for one s entrance into the Symbolic Picard applies the lesson taught by these children to a series of key literary texts featuring at their very core this confrontation with the signifier with the written code itself This book argues that there is something in literature that drives us back again and again to the loss we have suffered as human beings to what we had to undergo to become human our subjection to the common place of language Picard shows complex Lacanian concepts at work in the field of reading pathologies emphasizing close reading and a clinical attention to the letter of the texts far from the psychobiographical attempts at psychologizing literary authors From Illiteracy to Literature presents a novel psychodynamic approach that will be of great interest to psychotherapists and language pathologists appealing to literary scholars and those interested in the process of reading and literariness **Literature and Psychoanalysis** Shoshana Felman, 1977 **The Freudian Reading** Lis Moller, Lis Møller, 2016-11-11 Selected by Choice

magazine as an Outstanding Academic Title In *The Freudian Reading* Lis M ller examines the premises procedures and objectives of psychoanalytic reading in order to question the kind of knowledge such readings produce But above all she questions the role of Freud as master explicator Although Freud has been seen as a great synthesizer M ller contends that his significance as a reader lies elsewhere For M ller this significance lies in the way Freud presses his inquiry to the point where he encounters something he cannot explain or that he can only explain at the risk of overthrowing previous conclusions Such moments of crisis occur repeatedly in Freud s work causing him to swerve from his original train of thought or even to call into question the theoretical foundation of his interpretation The dominant line of argument therefore is frequently punctuated with problems and questions If we concentrate on these M ller argues we are forced to reconsider the traditional conception of a Freudian reading and to reassess our perceived notions of just what kind of reader Freud was While *The Freudian Reading* is based on a wide range of Freud s writings it concentrates on four central texts *Delusions and Dreams in Jensen s Gradiva* *From the History of an Infantile Neurosis* *The Uncanny* and *Constructions in Analysis* The discussion does not progress chronologically Rather it explores the ways in which these texts interact how they reflect comment on and contradict one another *The Freudian Reading* is a concentrated subtle analysis of Freud s interpretive practice with special reference to his interpretations of literary texts It will be of interest to scholars and students of literary theory and criticism as well as to readers in the field of psychoanalysis
