Reconcilable Sacrifices:

Reconciled to Reconcile Komi Ahiatroga Hiagbe, 2008 In the words of John Paul II A faith which does not become culture is a faith that has not been received not thoroughly thought through nor fully lived out It is for this reason that inculturation hermeneutics has become a useful reflective tool for many African students of Theology In this work the author argues that the concept of salvation in evangelical Christian thought as postulated in the works of the French Reformer John Calvin and that of African Traditional Religions do not connote the same idea nor lead to the same goals In spite of the basic differences he states that symbols metaphors and some practices from the traditional religions of Africa can be employed as hermeneutical tools for the explanation of concepts of the Christian faith The author therefore concludes that the Anlo Ewe traditional religious practice of nugbidodo ritual reconciliation best explains Christian salvation as man's reconciliation with God and constitutes a basis for the healing deliverance and a socio economic advancement of the individual and the entire community

Rethinking the Atonement David M. Moffitt, 2022-11-15 Traditional views of the atonement tend to be reductive focusing solely on Jesus's death on the cross In his 2011 groundbreaking book *Atonement and the Logic of Resurrection in the Epistle to the Hebrews* David Moffitt challenged that paradigm showing how the atonement is a fuller process It involves not only Jesus's death but also his resurrection ascension offering and exaltation In the succeeding years Moffitt has continued to expand and clarify his thinking on this issue This book offers a more fulsome articulation of his work on the atonement that reflects his recent thinking on the topic Moffitt continues to challenge reductive views of the atonement primarily from the book of Hebrews but he engages other New Testament passages as well He offers fresh insights on sacrifice and atonement the importance of resurrection and ascension Jesus's role as priest and a new perspective on Hebrews This important book brings Moffitt's award winning and influential scholarship to a broader audience The book includes a foreword by N T Wright

The Spirituality of the Igbo People of Nigeria as an Example of Religious Modernization in a Global World Henry CHUKWUDI OKEKE, 2020-02-18 If there is no religion in the world the world would more or less become a jungle The world will be inhuman Religion touches all aspects of human life Identifying God's will in our world today has become a major problem for many religions of the world In the past in Igbo Traditional Religion human sacrifice as well as the killing of twins were practised For the Igbo traditionalists then that was the will of the deities and equally not against God's will But following the encounter of Igbo Traditional Religion with Christianity these are no longer practised Misinterpretation of God's will by some religions of the world has given rise to religious violence religious extremism fanaticism and terrorism we are experiencing today in the world For these problems to be resolved it is pertinent that the study of various religions be taken seriously This study should be aiming at better understanding co existence respect for one another and frequent inter religious dialogues among the various religions of the world When this is achieved the believers of various religions would realize that many are worshipping one God and their desire is to communicate with

Him although they may approach Him differently

Royal Priesthood in the English Reformation Malcolm B. Yarnell III, 2013-12-12 Royal Priesthood in the English Reformation assesses the understandings of the Christian doctrine of royal priesthood long considered one of the three major Reformation teachings as held by an array of royal clerical and popular theologians during the English Reformation Historians and theologians often present the doctrine according to more recent debates rather than the contextual understandings manifested by the historical figures under consideration Beginning with a radical reevaluation of John Wyclif and an incisive survey of late medieval accounts the book challenges the predominant presentation of the doctrine of royal priesthood as primarily individualistic and anticlerical in the process clarifying these other concepts It also demonstrates that the late medieval period located more religious authority within the monarchy than is typically appreciated After the revolutionary use of the doctrine by Martin Luther in early modern Germany it was wielded variously between and within diverse English royal clerical and lay factions under Henry VIII and Edward VI yet the Old and New Testament passages behind the doctrine were definitely construed in a monarchical direction With Thomas Cranmer the English evangelical presentation of the universal priesthood largely received its enduring official shape but challenges came from within the English magisterium as well as from both radical and conservative religious thinkers Under the sacred Tudor queens who subtly and successfully maintained their own sacred authority the various doctrinal positions hardened into a range of early modern forms with surprising permutations

people against abuses of power by the state but also against abuses of power by private legal subjects Drawing upon the work of contemporary thinkers such as Martin Heidegger Hannah Arendt George Bataille Jacques Derrida Emmanuel Levinas and Jean Luc Nancy the author elicits the radical democratic potential of this horizontal notion of rights Johan van der Walt argues that apartheid must be understood as more than a racist abuse of power and here he articulates its sacrificial logic It is in going beyond this logic he maintains that the truly democratic potential of the South African Constitution can be understood in a radical formal and substantive equality that offers the legal basis for rethinking a post apartheid future Combining a rigorous theoretical understanding with a subtle political engagement *Law and Sacrifice* is a dazzling interrogation of the limits and possibilities of democratic pluralism It will be of interest to political and legal theorists as well as to those who are concerned with South African law and politics
