*Topical Discussion of American History* William C. Doub, 2016-08-13. Excerpt from *Topical Discussion of American History*. Constituting a Teachers Manual and Course of Study in History and Civics for Use in the Elementary Schools. This little volume is a working manual for the teacher and constitutes a course in history and civics for the elementary schools. Many able educators have been consulted in the preparation of this course and it is believed to be so complete in every detail that boards of education can adopt it as the course in history and civics without further reference to these subjects in the school manual or regular course of study. This course has been prepared with especial reference to the regular text books. Teachers and pupils frequently complain that the regular or official text on history is too difficult and it is hoped that this course will be of great assistance to them in the use of this text. The discussions, references and questions in this volume are intended for the direct help and assistance of the teacher, the object being to reduce the teacher's work to a minimum and to provide at the same time a broad and progressive course in history and civics. In order to further teacher and pupil's outline for use in connection with this course of study has been prepared and is bound under a separate cover. Special attention is directed to Questions for Class Recitations and Questions for Compositions and Examinations which follow each general topic. 10 chapters in the work for the seventh and eighth grades.
