Reconstructing The Republic

Sandra M. Gustafson, Robert Levine

Reconstructing The Republic:

Reconstructing the Roman Republic Karl-J. Hölkeskamp, 2010-03-22 In recent decades scholars have argued that the Roman Republic's political culture was essentially democratic in nature stressing the central role of the sovereign people and their assemblies Karl J H lkeskamp challenges this view in *Reconstructing the Roman Republic* warning that this scholarly trend threatens to become the new orthodoxy and defending the position that the republic was in fact a uniquely Roman dominantly oligarchic and aristocratic political form H lkeskamp offers a comprehensive in depth survey of the modern debate surrounding the Roman Republic He looks at the ongoing controversy first triggered in the 1980s when the oligarchic orthodoxy was called into question by the idea that the republic's political culture was a form of Greek style democracy and he considers the important theoretical and methodological advances of the 1960s and 1970s that prepared the ground for this debate H lkeskamp renews and refines the elitist view showing how the republic was a unique kind of premodern city state political culture shaped by a specific variant of a political class He covers a host of fascinating topics including the Roman value system the senatorial aristocracy competition in war and politics within this aristocracy and the symbolic language of public rituals and ceremonies monuments architecture and urban topography Certain to inspire continued debate *Reconstructing the Roman Republic* offers fresh approaches to the study of the republic while attesting to the field's enduring vitality Some images inside the book are unavailable due to digital copyright restrictions

Reconstructing the Republic Indian Association of Social Science Institutions, 1999 Contributed articles on federal system directions of change equal citizenship and regional identity in present day India

Reconstructing the Roman Republic Karl-J. Reconstructing the

Commercial Republic Stephen L. Elkin, 2015-01-16 James Madison is the thinker most responsible for laying the groundwork of the American commercial republic But he did not anticipate that the propertied class on which he relied would become extraordinarily politically powerful at the same time as its interests narrowed This and other flaws argues Stephen L Elkin have undermined the delicately balanced system he constructed In *Reconstructing the Commercial Republic* Elkin critiques the Madisonian system revealing which of its aspects have withstood the test of time and which have not The deficiencies Elkin points out provide the starting point for his own constitutional theory of the republic a theory that unlike Madison's lays out a substantive conception of the public interest that emphasizes the power of institutions to shape our political economic and civic lives Elkin argues that his theory should guide us toward building a commercial republic that is rooted in a politics of the public interest and the self interest of the middle class He then recommends specific reforms to create this kind of republic asserting that Americans today can still have the lives a commercial republic is intended to promote lives with real opportunities for economic prosperity republican political self government and individual liberty

The New Republic Herbert David Croly, 1925

Building the American Republic Harry L. Watson, 2018 Tells the story of United States beginning with the earliest Americans and the arrival of strangers on the eastern shore then moving through colonial society to the fight for independence and the construction of a federal republic From there it explains the renegotiations and refinements that took place as a new nation found its footing and it traces the actions that eventually rippled into the Civil War This volume goes beyond famous names and battles to incorporate politics economics science arts and culture And it shows that issues that resonate today immigration race labor gender roles and the power of technology have been part of the American fabric since the very beginning Adapted from publisher description

The Republic, 1874

The reconstructed 1972 input-output tables for eight Soviet republics James W. Gillula, 1983

The Rise and Fall of the Second American Republic Manisha Sinha, 2024-03-26 Sinha not only has taken on this vast subject but has greatly expanded its definition both temporally and spatially She covers these difficult issues with remarkable skill and clarity S C Gwynne New York Times Book Review We are told that the present moment bears a strong resemblance to Reconstruction the era after the Civil War when the victorious North attempted to create an interracial democracy in the unrepentant South That effort failed and that failure serves as a warning today about violent backlash to the mere idea of black equality In *The Rise and Fall of the Second American Republic* acclaimed historian Manisha Sinha expands our view beyond the accepted temporal and spatial bounds of Reconstruction which is customarily said to have begun in 1865 with the end of the war and to have come to a close when the corrupt bargain of 1877 put Rutherford B Hayes in the White House in exchange for the fall of the last southern Reconstruction state governments Sinha's startlingly original account opens in 1860 with the election of Abraham Lincoln that triggered the secession of the Deep South states and take us all the way to 1920 and the ratification of the Nineteenth Amendment which granted women the right to vote and which Sinha calls the last Reconstruction amendment

Within this grand frame Sinha narrates the rise and fall of what she calls the Second American Republic The Reconstruction of the South a process driven by the alliance between the formerly enslaved at the grassroots and Radical Republicans in Congress is central to her story but only part of it As she demonstrates the US Army s conquest of Indigenous nations in the West labor conflict in the North Chinese exclusion women s suffrage and the establishment of an overseas American empire were all part of the same struggle between the forces of democracy and those of reaction The main concern of Reconstruction was the plight of the formerly enslaved but its fall affected other groups as well women workers immigrants and Native Americans From the election of black legislators across the South in the late 1860s to the Great Railroad Strike of 1877 to the colonial war in the Philippines in the 1890s Sinha narrates the major episodes of the era and introduces us to key individuals famous and otherwise who helped remake American democracy or whose actions spelled its doom A sweeping narrative that remakes our understanding of perhaps the most consequential period in American history The Rise and Fall of the Second American Republic shows how the great contest of that age is also the great contest of our age and serves as a necessary reminder of how young and fragile our democracy truly is **Reimagining the Republic** Sandra M.

Gustafson,Robert Levine,2022-12-20 Albion W Tourg e 1838 1905 was a major force for social legal and literary transformation in the second half of the nineteenth century Best known for his Reconstruction novels A Fool s Errand 1879 and Bricks without Straw 1880 and for his key role in the civil rights case Plessy v Ferguson 1896 challenging Louisiana s law segregating railroad cars Tourg e published more than a dozen novels and a volume of short stories as well as nonfiction works of history law and politics This volume is the first collection focused on Tourg e s literary work and intends to establish his reputation as one of the great writers of fiction about the Reconstruction era arguably the greatest for the wide historical and geographical sweep of his novels and his ability to work with multiple points of view As a white novelist interested in the rights of African Americans Tourg e was committed to developing not a single Black perspective but multiple Black perspectives sometimes even in conflict The challenge was to do justice to those perspectives in the larger context of the story he wanted to tell about a multiracial America The seventeen essays in this volume are grouped around three large topics race citizenship and nation The volume also includes a Preface Introduction Afterword Bibliography and Chronology providing an overview of his career This collection changes the way that we view Tourg e by highlighting his contributions as a writer and editor and as a supporter of African American writers Exploring the full spectrum of his literary works and cultural engagements Reimagining the Republic Race Citizenship and Nation in the Literary Work of Albion Tourg e reveals a new Tourg e for our moment of renewed interest in the literature and politics of Reconstruction *Reconstructing America* Edwin Wildman,1919 *Constructing and Reconstructing History in Twentieth-Century German Architecture* Alexander Luckmann,Volker M. Welter,2025-02-11 The battle in architecture between the internationalist voices of modernism and the localized resistance which favored traditional technologies and regional precedents reflected in microcosm the violent and

complex histories of twentieth century Germany The chapters in this book span the years from 1902 to 1991 and interrogate the ways in which architecture constructed and reconstructed these histories with a primary focus on those voices that were opposed to the dogmas of modernism All translated into English for the first time the chapters reflect the changing eras and contours of the German nation They were written in the German Empire 1871 1918 the Weimar Republic 1918 1933 the Third Reich 1933 1945 the Federal Republic of Germany and the German Democratic Republic GDR which both existed from 1949 to 1990 and finally the reunified Germany that came into being in 1990 when the former GDR and the reunified Berlin joined the Federal Republic of Germany The chapters in this book were originally published as a special issue of *Art in Translation*

The Republic for Which It Stands Richard White, 2017-08-04 The Oxford History of the United States is the most respected multivolume history of the American nation In the newest volume in the series *The Republic for Which It Stands* acclaimed historian Richard White offers a fresh and integrated interpretation of Reconstruction and the Gilded Age as the seedbed of modern America At the end of the Civil War the leaders and citizens of the victorious North envisioned the country's future as a free labor republic with a homogenous citizenry both black and white The South and West were to be reconstructed in the image of the North Thirty years later Americans occupied an unimagined world The unity that the Civil War supposedly secured had proved ephemeral The country was larger richer and more extensive but also more diverse Life spans were shorter and physical well being had diminished due to disease and hazardous working conditions Independent producers had become wage earners The country was Catholic and Jewish as well as Protestant and increasingly urban and industrial The dangerous classes of the very rich and poor expanded and deep differences ethnic racial religious economic and political divided society The corruption that gave the Gilded Age its name was pervasive These challenges also brought vigorous efforts to secure economic moral and cultural reforms Real change technological cultural and political proliferated from below more than emerging from political leadership Americans mining their own traditions and borrowing ideas produced creative possibilities for overcoming the crises that threatened their country In a work as dramatic and colorful as the era it covers White narrates the conflicts and paradoxes of these decades of disorienting change and mounting unrest out of which emerged a modern nation whose characteristics resonate with the present day

, 1982

A Companion to the Political Culture of the Roman Republic Valentina Arena, Jonathan R. W. Prag, Andrew Stiles, 2022-01-25 An insightful and original exploration of Roman Republic politics In *A Companion to the Political Culture of the Roman Republic* editors Valentina Arena and Jonathan Prag deliver an incisive and original collection of forty contributions from leading academics representing various intellectual and academic traditions The collected works represent some of the best scholarship in recent decades and adopt a variety of approaches each of which confronts major problems in the field and contributes to ongoing research The book represents a new updated and comprehensive view of the political world of Republican Rome and some of the included essays are available in English for the first time Divided into six

parts the discussions consider the institutionalized loci political actors and values rituals and discourse that characterized Republican Rome The Companion also offers several case studies and sections on the history of the interpretation of political life in the Roman Republic Key features include A thorough introduction to the Roman political world as seen through the wider lenses of Roman political culture Comprehensive explorations of the fundamental components of Roman political culture including ideas and values civic and religious rituals myths and communicative strategies Practical discussions of Roman Republic institutions both with reference to their formal rules and prescriptions and as patterns of social organization In depth examinations of the afterlife of the Roman Republic both in ancient authors and in early modern and modern times Perfect for students of all levels of the ancient world A Companion to the Political Culture of the Roman Republic will also earn a place in the libraries of scholars and students of politics political history and the history of ideas

The Reconstruction of Post-War Labour Markets in The Southern African Development Community Saint José Inaka, Christopher Changwe Nshimbi, Leon Mwamba Tshipaka, 2023-08-12 This book provides a comprehensive overview of post war labour market reconstructions in the context of a regional bloc whose member states have experienced conflict Focusing on the Southern African Development Community SADC region the book explores how major conflicts often expose shortcomings in affected countries particularly on their post war labour market reconstruction processes The authors discuss how countries in the SADC region in particular are equipped to navigate such processes This key question drives the overview of relationships between labour market issues and wars of liberation from colonial rule and apartheid rights to self determination and racial inequality and the need to succinctly explain how labour market issues shaped civil wars in some post independent SADC member states The book examines the role of the state in reconstruction processes of post war labour markets and the contribution of labour market institutions to these reconstructions It further analyses private sector participation in remaking labour markets and workers experiences in finding employment in labour markets under reconstruction The book provides specific insights from experiences in the Democratic Republic of the Congo DRC

The American Republic: Its Constitution, Tendencies, and Destiny Orestes Augustus Brownson, 2023-08-22 In his seminal work *The American Republic Its Constitution Tendencies and Destiny* Orestes Augustus Brownson delves into the intricacies of the American political system and its evolution over time Written in a highly analytical and thought provoking manner Brownson discusses the impact of the Constitution on the development of the Republic shedding light on its strengths weaknesses and future prospects Drawing from history philosophy and political theory the book offers a comprehensive overview of the American political landscape Brownson's incisive style and deep understanding of political philosophy make this book a must read for anyone interested in American politics and governance Orestes Augustus Brownson a prominent 19th century intellectual was a staunch advocate for American nationalism and constitutionalism His diverse background in theology philosophy and political theory provided him with a unique perspective on the American political system which is

reflected in his writing Brownson's passion for exploring the foundations of the American Republic shines through in this influential work establishing him as a leading authority on American political thought The American Republic is essential reading for students of political science history and American studies It offers valuable insights into the core principles of American democracy and the challenges it faces Brownson's meticulous analysis and compelling arguments make this book a timeless contribution to the study of American politics

The Loyal Republic Erik Mathisen, 2018-03-13 This is the story of how Americans attempted to define what it meant to be a citizen of the United States at a moment of fracture in the republic's history As Erik Mathisen demonstrates prior to the Civil War American national citizenship amounted to little more than a vague bundle of rights But during the conflict citizenship was transformed Ideas about loyalty emerged as a key to citizenship and this change presented opportunities and profound challenges aplenty Confederate citizens would be forced to explain away their act of treason while African Americans would use their wartime loyalty to the Union as leverage to secure the status of citizens during Reconstruction In The Loyal Republic Mathisen sheds new light on the Civil War American emancipation and a process in which Americans came to a new relationship with the modern state Using the Mississippi Valley as his primary focus and charting a history that traverses both sides of the battlefield Mathisen offers a striking new history of the Civil War and its aftermath one that ushered in nothing less than a revolution in the meaning of citizenship in the United States

Decades of Reconstruction Ute Planert, James Retallack, 2017-06-13 International scholars review decades of postwar reconstruction in international comparison from the eighteenth to the twentieth century demonstrating how foreign domestic policy cannot be separated

Youth and Post-conflict Reconstruction Stephanie Schwartz, 2010 In Youth and Post Conflict Reconstruction Agents of Change Stephanie Schwartz goes beyond these highly publicized cases and examines the roles of the broader youth population in post conflict scenarios taking on the complex task of distinguishing between the legal and societal labels of child youth and adult
