El jardín japonés como construcción cultural del paisaje natural no es un fenómeno aislado pese a tratarse de un hecho de cultura que ha conservado su individualidad en el transcurso de los siglos desde su implantación en Japón procedente de China Más bien al contrario la necesidad de comprenderlo comparativamente desde diferentes perspectivas y culturas parece haberse intensificado con el giro geográfico experimentado en las ciencias sociales durante las dos últimas décadas El jardín japonés se entiende popularmente como una obra de arte cuya representatividad contribuye a la construcción de una identidad cultural propia por medio de la cual se escenifica una proyección social del sujeto o individuo perteneciente a la cultura que lo ha creado La resonancia polimica que sugiere su nombre lo convierte en una especie de arquetipo local y universal que no puede abordarse separadamente sin tener en cuenta sus antecedentes y su finalidad por ser la expresión de un enjambre de manifestaciones que define o identifica la

complejidad de una cultura como la nipona El arte de los jardines es indisociable de la idea de representación tanto por el valor simbólico de sus elementos compositivos como por el carácter parlante que por lo general se les atribuye sea cual sea la esencia de su decir y lo que estos pueden llegar a comunicar Por un lado es una construcción espacial y geográfica que responde a una manera de entender el mundo o cosmología y por otro la representación abreviada de un cosmos que es la expresión de una sociedad humana que construye una imagen de sí misma en un mundo de identidades movedizas y migrantes reivindicando lo que está más allá de su carácter efímero para trascender su impermanencia Deconstruction in Architecture A. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him.
