Gough, 2008-10 After the Civil War Congress required ten former Confederate states to rewrite their constitutions before they could be readmitted to the Union An electorate composed of newly enfranchised former slaves native southern whites minus significant numbers of disenfranchised former Confederate officials and a small contingent of carpetbaggers or outside whites sent delegates to ten constitutional conventions Derogatorily labeled black and tan by their detractors these assemblies wrote constitutions and submitted them to Congress and to the voters in their respective states for approval Blacks Carpetbaggers and Scalawags offers a quantitative study of these decisive but little understood assemblies the first elected bodies in the United States to include a significant number of blacks Richard L Hume and Jerry B Gough scoured manuscript census returns to determine the age occupation property holdings literacy and slaveholdings of 839 of the conventions 1 018 delegates Carefully analyzing convention voting records on certain issues including race suffrage and government structure they correlate delegates voting patterns with their racial and socioeconomic status The authors then assign a Republican support score to each delegate who voted often enough to count establishing the degree to which each delegate adhered to the Republican leaders program at his convention Using these scores they divide the delegates into three groups radicals swing voters and conservatives and incorporate their quantitative findings into the narrative histories of each convention providing for the first time a detailed analysis of these long overlooked assemblies Hume and Gough s comprehensive study offers an objective look at the accomplishments and shortcomings of the conventions and humanizes the delegates who have until now been understood

Lincoln and the Politics of Christian Love Grant N. Havers, 2009-11-13 America has seen faith based initiatives and the audacity of hope in twenty first century politics but few participants in our political scene have invoked the other Christian virtue of charity as a guiding principle Abraham Lincoln extolled the merit of loving thy neighbor as thyself especially as a critique of the hypocrisy of slavery but a discussion of Christian love is noticeably absent from today's debates about religion and democracy In this provocative book Grant Havers argues that charity is a central tenet of what Lincoln once called America's political religion He explores the implications of making Christian love the highest moral standard for

American democracy showing how Lincoln's legacy demands that a true democracy be charitable toward all and that only a people who lived according to such ideals could succeed in building democracy as Lincoln understood it. Havers argues that it is simplistic to conflate Lincoln's invocation of charity for all with his abiding support for the ideal of human equality. The ethic of charity in his view also brought a uniquely Christian realism to the universalism of democracy. He also describes how since World War I intellectuals and political leaders have denied that there exists a necessary relation between democracy and Christian love, proposing that democracy is sufficiently ethical without reliance on a specific religious tradition. Today's neoconservatives and liberals instead posit a universal yearning for democracy that requires no foundation in the ethic of charity. Havers shows that this democratic universalism espoused by those who believe a chosen people should uphold the natural rights of humanity is alien to the sober thought of both the founders and Lincoln. This carefully argued work defends Lincoln's understanding of charity as essential to democracy while emphasizing the difficulty of fusing this ethic with the desire to spread democracy to people who do not share America's Christian heritage. In considering the prospect of America's leaders rediscovering a moral foreign policy based on charity rather than the costly idolization of democracy, Lincoln and the Politics of Christian Love makes a timely contribution to the wider debate over both the meaning of religion in American politics and the mission of America in the world and opens a new window on Lincoln's lasting legacy.

The American Civil Rights Movement 1865-1950 Russell Brooker, 2016-12-07 The American Civil Rights Movement 1865-1950 is a history of the African American struggle for freedom and equality from the end of the Civil War to the beginning of the Civil Rights Movement in the 1950s and 1960s. It synthesizes the disparate black movements, explaining consistent themes and controversies during those years. The main focus is on the black activists who led the movement and the white people who supported them. The principal theme is that African American agency propelled the progress and that whites often helped. Even whites who were not sympathetic to black demands were useful, often because it was to their advantage to act as black allies. Even white opponents could be coerced into cooperation or at least non-opposition. White people of good will with shallow understanding were frustrating but they were sometimes useful. Even if they did not work for black rights, they did not work against them and sometimes helped because they had no better options. Until now, the history of the African American movement from 1865 to 1950 has not been covered as one coherent story. There have been many histories of African Americans that have treated the subject in one chapter or part of a chapter, and several excellent books have concentrated on a specific time period such as Reconstruction or World War II. Other books have focused on one aspect of the time such as lynching or the nature of Jim Crow. This is the first book to synthesize the history of the movement in a coherent whole.

Political Status of the Negro in the Age of FDR Ralph J. Bunche, 2024-09-11 A Nobel Peace Prize winner's groundbreaking work of social science that offered one of the earliest portraits of Black life in twentieth-century America. This volume presents the essence of a massive report prepared in 1940 by a team headed by political scientist and civil rights

leader Ralph J Bunche for the Carnegie Corporation's Survey of the Negro in America. The report was used by Swedish social economist Gunnar Myrdal in writing his monumental *An American Dilemma* and it shaped Myrdal's treatment of the Black political experience. As a valuable historical document, it provides a backdrop against which we can measure change in the Black American's political status and interpret the origins and consequences of the second Reconstruction. *The Political Status of the Negro* introduces essential information about political practices in the Southern states. It offers insight into the historical economic, sociological, and psychological factors that accounted for these practices, as well as some understanding of the myths, stereotypes, and symbols that contemporaries often used to explain and justify them. The study's most enduring value lies in its wealth of personal interviews which were conducted in the South in the late 1930s and in its first-hand impressions of the African Americans and Southern politics. The book is divided into two parts. The first contains Bunche's explanations, comments, and analytical writings on the subject; the second includes almost all of the interviews and field reports. To this text, historian Dewey W. Grantham added a comprehensive introduction that discusses Bunche and his work.

Swing Along Marva Carter, 2008-09-11. Renowned today as a prominent African American in Music Theater and the Arts community, composer, conductor, and violinist Will Marion Cook was a key figure in the development of American music from the 1890s to the 1920s. In this insightful biography, Marva Griffin Carter offers the first definitive look at this pivotal life's story, drawing on both Cook's unfinished autobiography and his wife Abbie's memoir. A violin virtuoso, Cook studied at Oberlin College, his parents' alma mater, Berlin's Hochschule für Musik with Joseph Joachim, and New York's national Conservatory of Music with Antonin Dvorak. Cook wrote music for a now-lost production of *Uncle Tom's Cabin* for the Chicago World's Fair of 1893 and then devoted the majority of his career to black musical comedies due to limited opportunities available to him as a black composer. He was instrumental in showcasing his Southern Syncopated Orchestra in the prominent concert halls of the United States and Europe, even featuring New Orleans clarinetist Sidney Bechet, who later introduced European audiences to authentic blues. Once mentored by Frederick Douglass, Will Marion Cook went on to mentor Duke Ellington, paving the path for orchestral concert jazz. Through interpretive and musical analyses, Carter traces Cook's successful evolution from minstrelsy to musical theater. Written with his collaborator, the distinguished poet Paul Lawrence Dunbar, Cook's musicals infused American Musical Theater with African American music, consequently altering the direction of American popular music. Cook's *In Dahomey*, hailed by Gerald Bordman as one of the most important events in American Musical Theater history, was the first full-length Broadway musical to be written and performed by blacks. Alongside his accomplishments, Carter reveals Cook's contentious side: a man known for his aggressiveness, pride, and constant quarrels, who became his own worst enemy in regards to his career. Carter further sets Cook's life against the backdrop of the changing cultural and social milieu, the black theatrical tradition, white audiences' reaction to black performers, and the growing consciousness and sophistication of blacks.
