Roth,Günter Merz,2013-06-29 The general interest and attention paid to the use of the renewable natural resources of the world have increased greatly during the last decades This is due to the environmental dilemma into which mankind has got itself by the total disregard of ecological facts and laws the underpricing of natural resources and the overemphasis on economic develop ment coupled with unimpeded rapid population growth and the preponderance of material istic consumption oriented attitudes The management and use of natural resources such as forests grasslands rivers and lakes were formerly considered purely in a financial context whereas latterly a consciousness of their social function and the indirect economic benefits which can be derived from them has developed

Thus as regards these traditional resources multi use concepts comprising eco nomically oriented utilisation as well as recreational educational and social use have be come widely accepted Conservation of natural resources for sustainable consumptive as well as non consumptive uses has been recognised as a key element for maintaining eco nomic development all over the world Fortunately the industrialised countries have started to apply this principle themselves and in their technical and financial aid to the developing Third World countries This is manifest from policy documents such as the World Bank Policy on Development of Wild Lands issued in 1987 A Ceylon Sportsman's Diary Harry Storey,1921 The Zoological Record ,1911 Indexes the world s zoological and animal science literature covering all research from biochemistry to veterinary medicine The database provides a collection of references from over 4 500 international serial publications plus books meetings reviews and other no serial literature from over 100 countries It is the oldest continuing database of animal biology indexing literature published from 1864 to the present Zoological Record has long been recognized as the unofficial register for taxonomy and systematics but other topics in animal biology are also covered *The Journal of the Bombay Natural History Society* Bombay Natural History Society,1923 **International Catalogue of Scientific Literature** ,1911 **Smithsonian Miscellaneous Collections** ,1914 **The White Rhinoceros** Edmund Heller,1914 *Parliamentary Papers* Great Britain.
