The Alcoholism and Addiction Cure Chris Prentiss,Pax Prentiss,2010-04-20 The Alcoholism and Addiction Cure contains the powerful three step program to total recovery that is the basis of the miraculous success of the Passages Addiction Cure Center in Malibu California You ll learn the three steps to permanent sobriety the four causes of dependency how your thoughts emotions and beliefs are key factors in your recovery and how to create your own personalized treatment

program with the help of health professionals where you live one that gets to the real underlying causes of dependency. Freedom from dependency starts with understanding that alcohol, drugs, and addictive behaviors are not the real problems. Say Pax and Chris Prentiss, cofounders of Passages Alcohol Street Drugs, Nicotine Prescription Medications, Food Bingeing, Gambling, and the like, are merely the substances or behaviors you or your loved ones are using to cope with the real problems: anything from deep emotional pain, ill health, or depression to hypoglycemia, a sluggish thyroid, or brain wave pattern imbalances. Once the underlying problems are discovered and cured, the need for drugs, alcohol, or addictive behavior will disappear along with the craving. Chris Prentiss should know: His son Pax was addicted to heroin, cocaine, and alcohol for ten years. They sought help everywhere, but Pax relapsed again and again. In desperation, they finally created their own holistic, hand-tailored program that was a complete break from all other programs and that combined several effective therapies. It saved Pax's life. Together, father and son founded Passages to help others find their own freedom. For decades, we've been hearing that alcoholism and addiction are incurable diseases, but *The Alcoholism and Addiction Cure* proves that this is a dangerous myth and that the label of alcoholic or addict destroys the promise of full recovery. Visionaries and innovators Pax and Chris Prentiss bring new hope to people everywhere who are dependent on drugs, alcohol, or addictive behaviors. This groundbreaking approach will show you how to end relapse, end addictive behavior, and end your suffering. **Enough Already!** Bob Tyler, 2005. *Enough Already* is an easy read that educates alcoholics and addicts on precisely what to do to get and stay sober. After learning about the disease of alcoholism, addiction, and time-tested tools of recovery, the reader is introduced to relapse prevention strategies, the 12 Steps of Alcoholics Anonymous, and other 12 Step programs and coping skills to deal with uncomfortable emotions that often lead to drug and alcohol use. This is followed by specific instructions on how to get started in recovery and a final inspiring chapter entitled *The Miracle*. Having years of sobriety and experience in the field of chemical dependency, Bob presents the information in this book drawing from personal and professional perspectives. Therefore, the reader learns the principles of sobriety and how to apply them in daily living through Bob's candid self-disclosure, a unique quality of this book. *Voices of Recovery from the Campus* Lisa Laitman, 2015-07-03. What is it like for people in their early teens and twenties to try to achieve sobriety? What are the life situations that they face that are different than if they began their journeys to sobriety later in life? And what happens as their lives unfold over the years? To answer these and other questions, the editors of *Voices of Recovery from the Campus* put together a collection of 12 stories written by college students and alumni of Rutgers University who began their recovery in college. Like all recovery stories, they are the personal journeys of very different people who struggle with the same issue: how to live life without drinking. What makes them unique is that their drinking often began long before they were legally able to drink, and so did their sobriety. Each story is different from the others in the details of the person's life and circumstances, yet what they have in common is that each story captures what it was like to struggle with alcoholism, what happened to motivate the person to

stop drinking and what it is like now as a sober person The editors think of the book as the Little Book a contemporary set of stories about young people getting sober what it took and the joyous lives they have now that they are free of alcoholism It is a book of stories told in the words of each person who lived the experience A book that shows the pain embarrassment suffering and the struggles and victories with sobriety and the honesty and humor with which these recovering alcoholics look back on themselves their experiences and their great good fortune in getting sober and staying sober Voices of Recovery from the Campus shows that alcoholism affects people as early in life as their teen years and that there is always hope It shows how college students who wanted to get sober and stay sober actually did to replace drinking with a life free from alcohol For example readers get to see what it was like for a woman who came from a large family and started drinking with friends in her early teens For her college was a time of good grades and lots of drinking until she found AA and what she calls a new happiness and new freedom They meet the man who was outgoing and active and who fellow students and professors loved On the outside he looked like what every college student should be While on the inside he struggled with his drinking and how it made him feel about himself Readers meet the woman who grew up knowing about AA since her mother was sober in AA but discovered her own need for alcohol anyway They learn that she had to find her own way to face her own alcoholism when she got to college They get to read what it was like for the man who admits he was lonely and drank to feel better I wasn't the coolest guy when I drank he recounts and tells what happens when at 19 he decided to stop and found recovery And they read of the woman who admitted that her ritual was to drink pass out wake up and drink who learn that for her school was a blur that I just got through These are the recovering alcoholics stories and they should be told not because they are particularly dramatic but because they are stories of ordinary people who did extraordinary things as they fought their addiction and found their recovery from a disease that takes more lives than it spares
