## **Recovery From Armed Conflict In Developing Countries:**

**Recovery from Armed Conflict in Developing Countries** Geoff Harris, 2002-02-07 This comprehensive work examines ways in which developing countries may achieve economic political and social reconstruction in the wake of armed conflict International researchers discuss such issues as women and children in the recovery process refugees and the role of aid the reintegration of ex combatants and community led recovery Case studies focus upon Afghanistan Angola Cambodia Mozambique South Africa and Sri Lanka

**Research Handbook on International Environmental Law** Fitzmaurice, Malgosia, Brus, Marcel, Merkouris, Panos, Rydberg, Agnes, 2021-11-12 This thoroughly updated and revised second edition of this foundational Handbook combines practical and theoretical analyses to cover a wide array of cutting edge issues in international environmental law IEL It provides a comprehensive view of the complexity of IEL both as a field in its own right and as part of the wider system of international law

**Digital Interactions in Developing Countries** Jeffrey James, 2013-01-04 Jeffrey James is one of the relatively few academics to have systematically taken on the topic of IT and development In this timely book he undertakes a methodological critique of prominent topics in the debate Challenging the existing literature by international and governmental institutions the book looks not only at the digital divide but also at issues such as digital preparedness leapfrogging and low cost computers James also raises important issues which have been largely neglected in the literature such as the implications for poverty in developing countries and the macroeconomics of mobile phones The book argues that benefits from IT are captured in a different form in developing as opposed to developed countries In the latter gains come from technology ownership and use whereas in the former benefits cannot be captured as much in this way because ownership is more limited Interestingly the author shows that developing countries have responded to this distinction with a series of local innovations which are often low cost and pro poor This finding contradicts the widely held view that poor countries are unable to generate major innovations within their own borders Accessible and clearly written this book will be of great interest to scholars of development economics and development studies and is relevant to both policy makers and academics

**Trade Policy, Growth and Poverty in Asian Developing Countries** Kishor Sharma, 2003-12-08 This new book provides a selection of writings that cover trade equity and development in Asia Clem Tisdell T N Srinivasan Gustav Ranis and others write on countries from Pakistan and India to Korea and Indonesia

**Public Finance and Economic Growth in Developing Countries** Stephen B. Peterson, 2015-04-24 Public finance is crucial to a country's economic growth yet successful reform of public finances has been rare Ethiopia is an example of a country that undertook comprehensive reform of its core financial systems independent of the IMF and the World Bank and successfully transformed itself into one of the fastest growing economies in Africa With Ethiopia's twelve year reform as its guiding case study this book presents new analytical frameworks to help governments develop better financial reforms It shows in detail how four core financial systems budgeting accounting planning and financial information systems can be

reformed One of the principal findings presented is that governments must establish basic public financial administration before moving to more sophisticated public financial management Other key findings include the identification of four strategies of reform recognize improve change and sustain the centrality of ongoing learning to the process of reform and the importance of government ownership of reform This book will be of interest to researchers and policymakers concerned with public finance developmental economics and African studies      Competitiveness Strategy in Developing Countries Ganeshan Wignaraja,2003-10-04 Globalization and structural adjustment offer many opportunities for export orientated industrialization in developing economies As a group competitiveness in the developing countries has improved but while East Asian economies have had rapid export growth and technological upgrades South Asian and African economies have lagged behind Old structures institutions behavioural patterns and public policies are ill adapted to deal with the challenges posed by technological change and economic liberalization Consequently there is an urgent need for change in government and private sector attitudes and strategies This volume seeks to generalise the lessons across developing country and enterprise cases and sheds light on which trade and industrial strategies and instruments work best and which do not work in relation to manufacturing competitiveness      **Finance And Competitiveness In Developing Countries** José María Fanelli,Rohinton Medhora,2007-09-17 This volume represents a uniquely thorough investigation of trade and financial policy as it impacts upon Third World development A broad range of international case studies including Indonesia Uruguay and Tunisia offer a wealth of empirical material and statistical information Thematic discussion chapters build on these case studies offering important analysis of topics such as trade specialization and industrial change      **International Social Work** David Cox,Manohar Pawar,2012-12-04 International Social Work Issues Strategies and Programs Second Edition draws together the practice wisdom emerging within the broad scope of international social work practice and its role in contributing to the international community s efforts in combating the major global social problems of poverty conflict and postconflict reconstruction the development of countries and disadvantaged populations migration and displacement and the needs of specific populations such as child soldiers and AIDS orphans Utilizing an integrated perspectives approach incorporating global human rights ecological and social development perspectives the International Social Work 2e is designed to prepare social workers human services professionals development practitioners who desire to play significant roles in responding to modern global challenges that are critical to the well being of people communities nations and ultimately of us all      **Building Businesses in Emerging and Developing Countries** Elie Virgile Chrysostome,Rick Molz,2014-04-16 This book focuses on the challenges and opportunities facing companies in emerging and developing countries China and India have become the primary business destination for many global companies that are looking for market opportunities and low costs of production whilst Morocco Dubai Brazil Malaysia and Russia are also being targeted This new edited volume helps develop a better understanding of the realities of doing business in emerging and developing

countries in particular exploring the dynamics between corporations both indigenous and multinational and local pressures in developing transitional and emerging economies The book points out the benefits and pitfalls of doing business in emerging and developing countries as well as the adjustments that are necessary for success It also discusses entrepreneurship in emerging and developing countries exploring its new realities from women s entrepreneurship in Muslim countries to social entrepreneurship in developing countries The volume also points out the new challenges for SMEs of emerging and developing countries in a global competitive environment Finally it analyses corporate governance from a local partner perspective and an institutional perspective Building Businesses in Emerging and Developing Countries will be of interest to business managers students and researchers involved in international entrepreneurship and corporate governance

The Informal Economy in Developing Countries Jean-Pierre Cling,Stéphane Lagrée,Mireille Razafindrakoto,François Roubaud,2014-08-21 Informality is ubiquitous in most developing countries Understanding the informal economy is therefore of utmost importance from a political economic and social point of view Paradoxically despite its economic importance knowledge is extremely limited regarding the informal economy It remains largely unrecognized by researchers is neglected by politicians and is even negatively perceived as it is meant to disappear with development This book aims to amend this situation by presenting recent high level research which studies the informal sector and informal employment Fresh research into this subject is presented through empirical analysis which covers Asia Africa and Latin America Each chapter relies on data and a detailed knowledge of the context of the countries studied in order to question the dominant schools of thought on the origins and causes of informality The results provide interesting insights into the constraints faced by informal workers the dynamics of the informal economy and its link with poverty issues On the basis of the evidences provided by results adequate policies could be defined to address informality issues The principal characteristics of the informal sector testify to some profound similarities between developing countries low qualifications and the precariousness of jobs mediocre incomes and working conditions atomization of production units and lack of articulation with the formal economy etc This general statement does not contradict the observation that there is a high level of heterogeneity in the sector and in informal employment within each country confirmed by several chapters in this work In the absence of a sufficient number of job creations the informal sector essentially constitutes a refuge for workers seeking and is here to stay in the short and medium term even in emerging countries

*Valuing Disabled Children and Young People* Berni Kelly,Bronagh Byrne,2018-04-19 Focusing on contemporary childhood disability issues and relevant to the lived experiences of disabled children and young people and their families this book addresses themes such as transition identity education inclusion and service provision It also includes insightful contributions on participatory research and practice with disabled children and young people including an emphasis on capability voice and communicative spaces for those with life limiting and more severe levels of impairment The contributions to this book are grounded in a commitment to the rights of disabled children and young people

as explicitly recognised under the United Nations Conventions on the Rights of the Child 1989 and Rights of Persons with Disabilities 2006 However the authors also draw our attention to the detrimental impact of economic austerity and conflict on the extent to which these rights are being realised encouraging further consideration of issues relating to social justice inter dependence and participation Addressing the diversity of disabled children s lives across service domains and international contexts this book provides an evidence base to support the realisation of the rights of disabled children and young people This book was originally published as a special issue of Child Care in Practice *Jobs After War* Eugenia Date-Bah,2003 This publication examines the critical role of employment in post conflict reconstruction and considers effective practical approaches to help achieve sustainable peace building It contains papers and country case studies which provide a broad picture of the key issues involved including the nature of the labour market and other features of the post conflict situation the diversity of crisis affected groups and their specific concerns such as youth women refugees internally displaced people and ex combatants skills training local economic development micro finance labour intensive infrastructure rebuilding social protection the roles of the private sector co operatives workers and employers associations labour administration and international organisations

**Peace Operations and Restorative Justice** Peter Reddy,2016-05-13 With a bold vision and a distinctive message Reddy stipulates that international peacekeeping can be designed and implemented using the principles of restorative justice To prove this Reddy discusses the congruence of crime armed conflict and violent disorder critiquing restorative justice and its nuanced character as a suitable application to complex civil wars This book provides a comprehensive survey of peace operations and then focuses on the cases of Somalia and Bougainville The comparison between their societal contexts their conflicts peace operations and final outcomes are crucial to this argument Furthermore this shows how the constraining maximising and emergent values of restorative justice can be applied in a peacekeeping setting from the overall command level through to the behaviours of deployed peacekeepers with direct contemporary application This sharp study makes for evocative reading as it introduces the new concept of regeneration as key to any restoratively arranged peace operation Military police NGO and civilian peacekeeper practitioners as well as academic theorists can use this unique work to produce better and more lasting results for conflict ridden communities

**Uniting Africa** David J. Francis,2017-05-15 Plagued by bloody wars and armed conflicts political instability communal violence and displaced persons and at the mercy of natural catastrophes such as drought and famine it is not surprising that the Western press has long dismissed Africa as the hopeless continent In the face of these challenges Africa today is faced with a stark choice either unite or perish The debate on why and how the continent should unite in terms of co operative peace security and development is more urgent than at any other time in Africa s post colonial history Moving forward from the failure of the earlier typically idealistic Africa unity project David Francis demonstrates how peace and security challenges have created the imperative for change He argues that a series of regional peace and security systems are

emerging and that states that have participated in practical experiments in regional peacekeeping peace support operations conflict stabilization management and preventive diplomacy are building de facto systems of peace and security that could be institutionalized and extended

Population, Economic Growth and Agriculture in Less Developed Countries Nadia Cuffaro,2003-08-29 In 1950 the world population was 2.5 billion fifty years later there are over 6 billion people The demographic of this explosion has essentially occurred in the developing areas of the world The key to understanding many contemporary development problems that have arisen from this rapid growth is in understanding the relationships between population and the economy This book offers an analysis of such relationships encompassing a review of the major positions in the academic debate Population Economic Growth and Agriculture in Less Developed Countries will serve as a useful introduction and reference tool for students academics and all with an interest in the population debate and economics

Sports, Peacebuilding and Ethics Linda M. Johnston,2017-07-05 As this latest volume in the Peace the role of a coach in creating a culture of peace and how this culture can fit into a peacebuilding process Contributors also examine the role of sports in trauma relief programs in Rwanda the role of universities in sports and the role of sports in the demilitarization of child soldiers The last three contributors tackle some of the legitimate concerns raised about using sports for peacebuilding such as sports being competitive violent and focused on winning Contributors look carefully at these and other issues that have arisen in sports as a tool of conflict resolution discuss why they have become concerns and consider some possible ways to deal with these concerns in the future

**Advancing Human Development** Frances Stewart,Gustav Ranis,Emma Samman,2018-02-17 Human Development has been advocated as the prime development goal since 1990 when the publication of the first UNDP Human Development Report proposed that development should improve the lives people lead in multiple dimensions instead of primarily pursuing economic growth This approach forms the foundation of Advancing Human Development Theory and Practice It traces the evolution of approaches to development showing how the Human Development approach emerged as a consequence of defects in earlier strategies Advancing Human Development argues that Human Development is superior to measures of societal happiness It investigates the determinants of success and failure in Human Development across countries over the past forty years taking a multidimensional approach to point to the importance of social institutions and social capabilities as essential aspects of change It analyses political conditions underlying the performance of Human Development and surveys global progress in multiple dimensions such as life expectancy infant mortality and education and outcomes whilst reflecting on dimensions which have worsened over time such as rising inequality and declining environmental conditions These deteriorating conditions inform Advancing Human Development's account of the challenges to the Human Development approach covering the insufficient attention paid to macroeconomic conditions and the economic structure needed for sustained success

**Combatants to Civilians** D.B. Subedi,2018-05-07 Much has been written about reintegration of ex combatants in a traditional or conventional disarmament

demobilisation and reintegration DDR programme This volume examines reintegration of ex combatants in a un conventional DDR in which a cash based scheme replaced a reintegration programme It uncovers the dilemmas surrounding the un conventional DDR programme in Nepal situating the phenomena in the divisive politics of war to peace transition Drawing on the narratives and perceptions of ex combatants and their families the volume provides a compelling analysis of why some ex combatants reintegrate socially and economically better than others at the end of a war Analysing the consequences and effects of reintegration of Maoist ex combatants in the post conflict peace and security the volume argues that cash based schemed in DDR programme can pacify ex combatants and de politicise a DDR programme but cash alone can not reintegrate ex combatants      *Youth in Conflict and Peacebuilding* A. Özerdem,S. Podder,2015-04-15 This study investigates the role of youth in peacebuilding and addresses the failure of states and existing research to recognise youths as political actors which can result in their contribution to peacebuilding being ignored      *Social Development and Social Work* Alice Butterfield,Tasse Abye,2013-11-26 Africa has a long experience with reducing poverty and vulnerability In the contemporary period social development and social work are at the forefront of dealing with abject poverty and some of the world s most difficult problems This book highlights the contemporary African experience in addressing poverty and meeting the needs of vulnerable groups Two decades ago James Midgley challenged social workers and others involved in international work to learn from their colleagues in developing countries This challenge has brought scholars from the North South together through collaborative research program development and technical assistance and training Social Development and Social Work highlights development oriented work in Africa in areas such as juvenile offender programs asset based community development women and HIV AIDS trafficked women and children affected by war It includes models of indigenous welfare and integrated development through collaborative and interdisciplinary efforts by universities government and non governmental organizations This book brings African scholarship in social development and social work to the attention of academics students and practitioners worldwide so they too can learn from it It was originally published as a special issue of the Journal of Community Practice
