Red Dwarf VIII Doug Naylor, 1999 Red Dwarf celebrated its 10th anniversary in February 1999 with the transmission of Series VIII This official companion book contains photographs storyboards and sketches plus all eight scripts including scenes cut from final transmission to give fans an insight into the making of the show **Red Dwarf** Chris Howarth, Steve Lyons, 1997 Red Dwarf is the biggest cult of recent years Since 1988 there have been seven series of mind boggling comedy adventures as Lister Rimmer Cat and Kryen attempt to make their way back to Earth after a five million year interstellar sleep *Red Dwarf: Discovering the TV Series* Tom Salinsky, 2024-11-30 Explores the unique journey of the long running British sitcom detailing its creation cast changes and enduring legacy through critical analysis and behind the scenes insights Red Dwarf is virtually unique among British sitcoms It began in 1988 and was still releasing new episodes in 2020 making it one of the longest running sitcoms of all time but the core cast has remained largely unchanged And its science fiction flavor contrasts strongly with the drawing rooms and sofas which were the norm when it launched and the fast cut mockumentary style which is popular today And yet this is a show which nobody wanted to make and which only barely made it to our screens at all In this work Tom Salinsky will look at exactly how it came to be who was considered for the cast but didn't make it how it was radically reinvented for the third sixth seventh ninth and tenth seasons how it survived the breakup of its key creative partnership the loss of the original spaceship models BBC strikes the departure of a major cast member and the seemingly self defeating rules which the writers imposed on themselves But this isn't just a behind the scenes account It's also a detailed critical analysis examining why the best episodes succeed and why the less impressive episodes struggle while also finding time to ask just how a hologram made of light can smell burning camphor wood why a creature evolved from a cat is familiar with Wilma Flintstone or just how long Lister and Kochanski were dating for How can all this possibly be contained in one book It can't Volume I will cover the first six series and Volume II will conclude the story of Red Dwarf on television as well as looking at the novels comic strips computer games and more Gender and the Quest in British Science Fiction Television Tom Powers, 2016-11-01 The subjects of this book constitute a significant cross section of BBC science fiction television With such characters as the Doctor an enigmatic time traveling alien Kerr Avon a problematic rebel leader Dave Lister a slovenly last surviving human and Captain Jack Harkness a complex omnisexual immortal these shows have both challenged and reinforced viewer expectations about the small screen masculine hero This book explores the construction of gendered heroic identity in the series from both production and fan perspectives The paradoxical relationships between the producers writers and fans of the four series are discussed Fan fiction criticism and videos are examined that both celebrate and criticize BBC science fiction heroes and villains Best of the Britcoms Garry Berman, 2011 This book covers the most noteworthy situation comedies ever to cross the pond Each entry has a show summary and descriptions of standout episodes and behind the scenes details This revised edition contains 7 new chapters

had its immediate origins in a small gathering of people interested in the optical and UV study of flare stars which took place during the 1979 Montreal General Assembly We recognized that a fundamental change was taking place in the study of these objects Space borne instruments especially IUE and Einstein and a new generation of ground based equipment were having a profound effect on the range of investigations it was possible to make To extract maximum benefit from these new possibilities it would be necessary as never before to have good communication with colleagues in other disciplines for instance with atomic and solar physicists Similarly studies of phenomena associated with the outer atmospheres of the late type stars could now hope to give significant insights into certain aspects of solar activity So in view of the wide range of backgrounds of those participating the meeting had an unusually high proportion of invited reviews while most of the contributed papers were presented as posters It is gratifying that in the short time since the meeting a good deal of correspondence has been received from participants remarking on the success of this format Once the decision had been taken in principle to hold the meeting a very considerable amount of work fell on the two organizing committees viz the Scientific and Local Organizing Committees The Scientific Organizing Committee was chaired by D J Mullan and consisted of A D Books In Print 2004-2005 Ed Bowker Staff,Staff Bowker, Ed,2004 **Nuclear Science Abstracts** ,1973-10 **The Evolution of Galactic X-Ray Binaries** J. Truemper,W.H.G. Lewin,W. Brinkmann,2012-12-06 The idea to hold a conference on the Evolution of Close Binary X ray sources grew in the summer of 1984 At that time we were hoping that some new results would be harvested in the months to come which would stimulate further work We were particularly looking towards the Euro pean X ray Observatory EXOSAT for new contributions How lucky we were quite unexpected developments took place Just prior to the conference quasi periodic oscillations now known as QPO were discovered in three bright low mass X ray binaries GX 5 1 Sco X 1 and Cyg X 2 They played an important role at the meeting The possibility that QPOs imply a neutron star magnetic dipole field and a neutron star rotation period in the millisecond range received a lot of attention This is not surprising as it lends support to the idea suggested earlier that the 6 msec binary radio pulsar PSR 1953 29 evolved from a stage in which it was a bright low mass X ray binary There was special interest in the possibility of white dwarf collapse into a neutron star This is a particularly attractive way to form the bright low mass X ray binaries often referred to

as galactic bulge sources It would allow for the possibility of a very young neutron star in a very old binary system The relatively high magnetic fields that one could infer from QPO could then be explained
