Transitions Daniel M. Kliman,2015 As China emerges as a global force in the twenty first century questions of how existing great powers will navigate the geopolitical transition loom large In Fateful Transitions Daniel M Kliman revisits historic power shifts to shed light on enduring patterns in international relations demonstrating that the regime type of ascendant powers greatly influences global interactions Since the late nineteenth century the world's major democracies have tended to accommodate or conciliate ascendant democratic states Certain attributes of democracy such as a free press and domestic checks and balances encourage trust during power shifts whereas closed and autocratic regimes on the ascent tend to produce a cycle of suspicion competition and confrontation Drawing on democratic peace theory and power transition theory Kliman compares Great Britain s embrace of U S ascendancy in the early twentieth century to its confrontational stance toward autocratic Germany and later U S mistrust of the Soviet Union Within this geopolitical context he evaluates the interactions between China and current great powers the United States and Japan Building on this analysis Kliman offers new insights into the dynamics of power shifts and explores their implications for how today s established and emerging powers can successfully navigate fateful transitions

MiG-17 and MiG-19 Units of the Vietnam War István

Toperczer,2012-11-20 A detailed history of the MiG 17 and MiG 19 units of the Vietnamese People s Air Force packed with

first hand accounts and colour profiles The erstwhile enemy of the USAF and US Navy during the nine years of American involvement in the Vietnam War the Vietnamese Peoples Air Force VPAF quickly grew from an ill organised rabble of poorly trained pilots flying antiquated communist aircraft into a highly effective fighting force that more than held its own over the skies of North Vietnam As this book explores flying Soviet fighters like the MiG 17 and 19 the VPAF produced over a dozen aces whilst the Americans managed just two pilots and three navigators in the same period **Introduction, Pius VII** Decisions and Orders of the National Labor Relations Board United States. National Labor Fredrik Kristian Nielsen, 1906 Relations Board, 2012 **Annual Report** Harbour Commissioners of Montreal, 1927 **Lydian Painted Pottery Abroad** R. Gül Gürtekin-Demir, 2021-10-15 This book is the first major study of Lydian material culture at Gordion and also the first published monograph on Lydian painted pottery from any site excavation Richly illustrated it provides a comprehensive definition and analysis of Lydian ceramics based on stylistic archaeological and textual evidence while thoroughly documenting the material s stratigraphic contexts The book situates the ceramic corpus within its broader Anatolian cultural context and offers insights into the impact of Lydian cultural interfaces at Gordion The Lydian pottery found at Gordion was largely produced at centers other than Sardis the Lydian royal capital although Sardian imports are also well attested and began to influence Gordion's material culture as early as the 7th century BCE if not before Following the demise of the Lydian kingdom a more limited repertoire of Lydian ceramics demonstrably continued in use at Gordion into the Achaemenid Persian period in the late 6th and 5th centuries BCE The material was excavated by Professor Rodney Young s team between 1950 and 1973 and is fully presented here for the first time Ongoing research in the decades following Young s excavations has led to a more refined understanding of Gordion's archaeological contexts and chronology and consequently we are now able to view the Lydian ceramic corpus within a more secure stratigraphic framework than would have been the case if the material had been published shortly after the excavations **Interpreting Devotion** Karen Pechilis, 2013-03-22 Devotion is a category of expression in many of the world's religious traditions. This book looks at issues involved in academically interpreting religious devotion as well as exploring the interpretations of religious devotion made by a sixth century poet a twelfth century biographer and present day festival publics The book focuses on the female poet saint K raikk l Ammaiy r whose poetry is devotional in nature It discusses the biography written on the poet six centuries after her lifetime and suggests ways of interpreting K raikk l Ammaiy r s poetry without using the categories and events promoted by her biographer in order to engage her own thoughts as they are communicated through the poetry attributed to her In the same way that the biographer made the poet speak to his present day the book looks at how festivals held today make both the poetry and the biography relevant to the present day By discussing how poetry story and festival provide distinctive yet overlapping interpretations of the saint this book reveals the selections and priorities of interpreters in the making of a living tradition It is an accessible contribution to students and scholars of religion Indian history and women s studies
