and professionals in this topic It summarizes the current state of knowledge on homegarden systems with a view to using this knowledge as a basis for improving both homegardens and other similar multistrata agroforestry systems

The Rise and Fall of the Amazon Rubber Industry Stephen Nugent, 2017-12-05 In this engaging book Stephen Nugent offers an in depth historical anthropology of a widely recognised feature of the Amazon region examining the dramatic rise and fall of the rubber industry He considers rubber in the Amazon from the perspective of a long term extractive industry that linked remote forest tappers to technical innovations central to the industrial transformation of Europe and North America emphasizing the links between the social landscape of Amazonia and the global economy Through a critical examination focused on the rubber industry Nugent addresses myths that continue to influence perceptions of Amazonia The book challenges widely held assumptions about the hyper naturalism of the lost world of the Amazon where the challenge of the tropics is still to be faced and the frontiers of development are still to be settled It is relevant for students and scholars of anthropology Latin American studies history political ecology geography and development studies

State Theory and Andean Politics Christopher Krupa, David Nugent, 2015-03-09 In the last few decades Andean states have seen major restructuring of the organization leadership and reach of their governments With these political tremors come major aftershocks regarding both definitions and expectations What is a state Who or what

makes it up and where does it reside In what capacity can the state be expected to right wrongs raise people up protect them from harm maintain order or provide public services What are its powers and responsibilities State Theory and Andean Politics attempts to answer these questions and more through an examination of the ongoing process of state creation in Andean nations Focusing on the everyday extraofficial and frequently invisible or partially concealed permutations of rule in the lives of Andean people the essays explore the material and cultural processes by which states come to appear as real and tangible parts of everyday life In particular they focus on the critical role of emotion imagination and fantasy in generating belief in the state among the governed and the governing alike This approach pushes beyond the limits of the state as conventionally understood to consider how nonstate acts of governance intersect with official institutions of government while never being entirely determined by them or bound to their authorizing agendas State Theory and Andean Politics asserts that the state is not simply an institutional bureaucratic apparatus but one of many forces vying for a claim to legitimate political dominion Featuring an impressive array of Andeanist scholars as well as eminent state theorists Akhil Gupta and Gyanendra Pandey State Theory and Andean Politics makes a bold and novel claim about the nature of states and state making that deepens understanding not only of the Andes and the Global South but of the world at large Contributors Kim Clark Nicole Fabricant Lesley Gill Akhil Gupta Christopher Krupa David Nugent Gyanendra Pandey Mercedes Prieto Maria Clemencia Ram rez Irene Silverblatt Karen Spalding Winifred Tate

Scoping the Amazon Stephen Nugent, 2016-07-01 The Amazon Indian is an icon that straddles the world between the professional anthropologist and the popular media Presented alternately as the noble primitive the savior of the environment and as a savage dissolute cannibalistic half human it is an image well worth examining Stephen Nugent does just that critiquing the claims of authoritativeness inherent in visual images presented by anthropologists of Amazon life in the early 20th century and comparing them with the images found in popular books movies and posters The book depicts the field of anthropology as its own form of culture industry and contrasts it to other similar industries past and present For visual anthropologists ethnographers Amazon specialists and popular culture researchers Nugent's book will be enlightening entertaining reading

Ecology and Power in the Age of Empire Corey Ross, 2017 Ecology and Power in the Age of Empire provides the first wide ranging environmental history of the heyday of European imperialism from the late nineteenth century to the end of the colonial era It focuses on the ecological dimensions of the explosive growth of tropical commodity production global trade and modern resource management strategies that still visibly shape our world today and how they were related to broader social cultural and political developments in Europe's colonies Covering the overseas empires of all the major European powers Corey Ross argues that tropical environments were not merely a stage on which conquest and subjugation took place but were an essential part of the colonial project profoundly shaping the imperial enterprise even as they were shaped by it The story he tells is not only about the complexities of human experience but also

about people's relationship with the ecosystems in which they were themselves embedded the soil water plants and animals that were likewise a part of Europe's empire Although it shows that imperial conquest rarely represented the signal ecological trauma that some accounts suggest it nonetheless demonstrates that modern imperialism marked a decisive and largely negative milestone for the natural environment By relating the expansion of modern empire global trade and mass consumption to the momentous ecological shifts that they entailed this book provides a historical perspective on the vital nexus of social political and environmental issues that we face in the twenty first century world Modernism and Latin America Patricia Novillo-Corvalán, 2017-09-22 This book is the first in depth exploration of the relationship between Latin American and European modernisms during the long twentieth century Drawing on comparative historical and postcolonial reading strategies including archival research it seeks to reenergize the study of modernism by putting the spotlight on the cultural networks and aesthetic dialogues that developed between European and non European writers including Pablo Neruda James Joyce Leonard Woolf Virginia Woolf Jorge Luis Borges Victoria Ocampo Roberto Bolaño Julio Cortázar Samuel Beckett Octavio Paz Carlos Fuentes and Malcolm Lowry The book explores a wide range of texts that reflect these writers' complex concerns with questions of exile space empire colonization reception translation human subjectivity and modernist experimentation By rethinking modernism comparatively and by placing this intricate web of cultural interconnections within an expansive transnational and transcontinental framework this unique study opens up new perspectives that delineate the construction of a polycentric geography of modernism It will be of interest to those studying global modernisms as well as Latin American literature transatlantic studies comparative literature world literature translation studies and the global south **Consuls and the Institutions of Global Capitalism, 1783-1914** Ferry de Goey, 2015-10-06 The nineteenth century saw the expansion of Western influence across the globe A consular presence in a new territory had numerous advantages for business and trade Using specific case studies de Goey demonstrates the key role played by consuls in the rise of the global economy
