Red Silk:

Red Silk Robert Cliver, 2021-02-01 Red Silk is a history of China's Yangzi Delta silk industry during the wars, crises and revolutions of the mid twentieth century. Based on extensive research in Chinese archives and focused on the 1950s, the book compares two very different groups of silk workers and their experiences in the revolution. Male silk weavers in Shanghai factories enjoyed close ties to the Communist party state and benefited greatly from socialist policies after 1949. In contrast, workers in silk thread mills or filatures were mostly young women who lacked powerful organizations or ties to the revolutionary regime. For many filature workers, working conditions changed little after 1949 and politicized production campaigns added a new burden within the brutal and oppressive factory regime in place since the nineteenth century. Both groups of workers and their employers had to adapt to rapidly changing circumstances. Their actions, protests, petitions, bribery, tax evasion, compelled the party state to adjust its policies, producing new challenges. The results, though initially positive for many, were ultimately disastrous. By the end of the 1950s, there was widespread conflict and deprivation among silk workers, and despite its impressive recovery under Communist rule, the industry faced a crisis worse than war and revolution.

The Red Silk Cord Liz Berger, 2021-03-12 The Red Silk Cord resulted from my trip to Florence in 2007 where I visited the Hospital of the Innocents and saw the trinkets left behind by loving mothers and fathers who had to leave their babies with the nuns because they could no longer care for them. I built the story around this idea and included the 15th Century historic truths of the time and the Medici family. The story tells the resilience of a young woman, her survival after being raped, giving birth, and being persecuted by the baby's father's family. She is helped by a silk merchant, and together they go on a journey along the maritime and land silk route to Xian, China. They play a part in the discovery of the new and fastest route to China. The emotional and sexual growth of Margherita is explored via a variety of relationships until she eventually discovers what love is. This book is the first in a group of three books named *The Red Silk Cord*, *The Return of the Red Silk Cord*, and *The Revenge of The Red Silk Cord*. It includes the Medici family's plan to have their fourth son become Pope Leo XI. I sincerely enjoyed writing this book and hope you find it as enjoyable to read as it was for me to write it. Regards, Liz Berger, M.A. Soc. Sc.
