Reviewing Delegation An Analysis Of The Congressional Reauthorization Process:

Reviewing Delegation James H. Cox, 2004-04-30 Members of Congress often delegate power to bureaucratic experts but they fear losing permanent control of the policy One way Congress has dealt with this problem is to require reauthorization of the program or policy Cox argues that Congress uses this power selectively and is more likely to require reauthorization when policy is complex or they do not trust the executive branch By contrast reauthorization is less likely to be required when there are large disagreements about policy within Congress In the process Cox shows that committees are important independent actors in the legislative process and that committees with homogenous policy preferences may have an advantage in getting their bills through Congress

The Parties Respond Mark D. Brewer, 2018-04-20 The industrial revolution was the single most important development in human history over the past three centuries and it continues to shape the contemporary world With new methods and organizations for producing goods industrialization altered where people live how they play and even how they define political issues By exploring the ways the industrial revolution reshaped world history this book offers a unique look into the international factors that started the industrial revolution and its global spread and impact

Congress and the Politics of Problem Solving E. Scott Adler, John D. Wilkerson, 2013-01-14 How do issues end up on the agenda Why do lawmakers routinely invest in program oversight and broad policy development What considerations drive legislative policy change For many Congress is an institution consumed by partisan bickering and gridlock Yet the institution's long history of addressing significant societal problems even in recent years seems to contradict this view Congress and the Politics of Problem Solving argues that the willingness of many voters to hold elected officials accountable for societal conditions is central to appreciating why Congress responds to problems despite the many reasons mustered for why it cannot The authors show that across decades of policy making problem solving motivations explain why bipartisanship is a common pattern of congressional behavior and offer the best explanation for legislative issue attention and policy change

Judging Statutes Robert A. Katzmann, 2014-08-14 Drawing upon his background in law government and political science U S Second Circuit Chief Judge Robert A Katzmann contends that Congress's work product including sources beyond the text must inform courts interpretation of statutes

Can America Govern Itself? Frances E. Lee, Nolan McCarty, 2019-06-20 Can America Govern Itself brings together a diverse group of distinguished scholars to analyze how rising party polarization and economic inequality have affected the performance of American governing institutions It is organized around two themes the changing nature of representation in the United States and how changes in the political environment have affected the internal processes of institutions overall government performance and policy outcomes The chapters in this volume analyze concerns about power influence and representation in American politics the quality of deliberation and political communications the management and implementation of public policy and the performance of an eighteenth century constitution in today's polarized political environment These renowned scholars

provide a deeper and more systematic grasp of what is new and what is perennial in challenges to democracy at a fraught moment
