Revolt Against Modernity Leo Strauss Eric Voegelin And The Search For A Postliberal Order

Patrick Joyce

Revolt Against Modernity Leo Strauss Eric Voegelin And The Search For A Postliberal Order:

Revolt Against Modernity Ted V. McAllister, 1996-01-22 Eric Voegelin and Leo Strauss are two of the most provocative and durable political philosophers of this century Ted McAllister's superbly written study provides the first comprehensive comparison of their thought and its profound influence on contemporary American conservatism Since the appearance in the 1950s of Strauss's *Natural Right and History* and Voegelin's *Order and History* conservatives like Russell Kirk Irving Kristol and Allan Bloom have increasingly turned to these thinkers to support their attacks on liberalism and the modernist mindset Like so many conservatives Strauss and Voegelin rebelled against modernity amorality personified by Machiavelli Hobbes Rousseau Kant Hegel and Nietzsche and its promotion of individualism and materialism over communal and spiritual responsibility While both disdained the reductionist conservative label conservatives nevertheless appropriated their philosophy in part because it restored theology and classical tradition to the moral core of civil society For both men modernity's debilitating disorder revealed surprising and disturbing relations among liberal communist and Nazi ideologies In their eyes modernity's insidious virus so apparent in the Nazi and communist regimes lies incubating within liberal democracy itself McAllister's thorough reevaluation of Strauss and Voegelin expands our understanding of their thought and restores balance to a literature that has been dominated by political theorists and disciples of Strauss and Voegelin Neither reverential nor dismissive he reveals the social historical political and philosophical foundations of their work and effectively decodes their frequently opaque or esoteric thinking Well written and persuasively argued McAllister's study will appeal to anyone engaged in the volatile debates over liberalism's demise and conservatism's rise

Revolt Against Modernity Ted V. McAllister, 1997

Revolt Against Modernity Ted V. McAllister, 1996 Provides the first comparison of the thought of these two political philosophers and its influence on contemporary American conservatism

Disturbing Revelation: Leo Strauss, Eric Voegelin, and the Bible John J. Ranieri, 2008 Ranieri shows how Leo Strauss and Eric Voegelin drew on biblical texts in their philosophies to explore the relationship between religion politics and violence while maintaining a deep ambivalence about the Bible's vision of life and its influence on politics and finally compares their thought with that of René Girard Provided by publisher

The Politics of Truth and Other Untimely Essays Ellis Sandoz, 1999 This volume explores the historical and theoretical underpinnings of personal liberty and free government and provides an analysis of the crisis of civic consciousness endangering both

The Politics of the Soul Glenn Hughes, 1999 The Politics of the Soul Eric Voegelin on Religious Experience includes eight essays examining one of the most profound studies of religious experience to appear in the last century that of the political philosopher Eric Voegelin Voegelin is increasingly recognized as a political theorist of exceptional scope and erudition and the most important philosopher of his time since Toynbee and his treatment of religious experience is a crucial part of his overall analysis of existence and history This collection of essays by prominent Voegelin scholars is the first book to explore the relevance of that analysis to the contemporary understanding of political

theory theology history and philosophy of consciousness and as such it constitutes a significant contribution not only to Voegelin scholarship but to the current quest for theoretical foundations

Leo Strauss and the Conservative

Movement in America Paul E. Gottfried, 2011-12-29 This book offers an original interpretation of the achievement of Leo Strauss stressing how his ideas and followers reshaped the American conservative movement The conservative movement that reached out to Strauss and his legacy was extremely fluid and lacked a self confident leadership Conservative activists and journalists felt a desperate need for academic acceptability which they thought Strauss and his disciples would furnish They also became deeply concerned with the problem of value relativism which self described conservatives thought Strauss had effectively addressed But until recently neither Strauss nor his disciples have considered themselves to be conservatives Contrary to another misconception Straussians have never wished to convert Americans to ancient political ideals and practices except in a very selective rhetorical fashion Strauss and his disciples have been avid champions of American modernity and timeless values as interpreted by Strauss and his followers often look starkly contemporary

Leo Strauss and His Legacy John Albert Murley, 2005-01-01 With over 10 000 entries identifying work of hundreds of Strauss s students and their students students this bibliography is the most indeed the only comprehensive guide to published writing in the tradition of Leo Strauss Murley includes Strauss s own complete bibliography and that of one of his most revered students George Anastaplo

Right Face Niels Bjerre-Poulsen, 2002 Right Face tells the compelling story of how the American conservative movement in the two decades following World War II managed to move from obscurity to the center stage of national politics When Dwight D Eisenhower in 1952 defeated the conservative champion Robert Taft and won the Republican presidential nomination many on the American right felt that they had become homeless within the established party system The brand of liberalism which permeated the nation s intellectual life had also become bipartisan political doctrine The feeling of cultural and political ostracism triggered a quest for an independent conservative network of organizations with the hope of either taking back the Republican Party or creating a viable alternative The first part of Right Face recounts the often bitter struggle to define the meaning of conservatism in modern America Part two concerns the search for influential national outlets for conservative opinion whereas part three focuses on the movement s actual plunge into electoral politics not least on its well planned takeover of the Republican Party machinery in 1964 and the resulting presidential nomination of Senator Barry Goldwater An epilogue attempts to trace main currents in the evolution of American conservatism since the 1960s as well as to assess the extent to which American conservatives have managed to create the Counter Establishment they set out to create more than half a century ago In a sense the conservatives actually set out on two different quests One was for intellectual respectability The other was for political power As this study reveals the two goals were not always compatible Based on extensive archival sources Right Face provides an incisive analysis of the conservative movement and the forces that shaped it With its blending of intellectual and organizational developments it

adds an important chapter to the history of American political culture in the 20th century

The Emergence of Post-modernity at the Intersection of Liberalism, Capitalism, and Secularism Matthew McManus, 2022-09-07 This book is a systematic and thorough analysis of what post modernity is and how it emerged It distinguishes between those who regard post modernity as a theoretical approach and those who regard it as a culture and argues that interpreting post modernity as a culture is more fruitful It discusses the three factors which led to its emergence namely liberalism capitalism and secularism highlighting their respective influence in generating the culture of post modernity within neoliberal societies The volume provides a lengthy analysis of neoliberal post modernity in practice arguing that post modernism is the cultural condition of neoliberal societies in the late 20th and early 21st centuries Until recently it seemed that neoliberal post modernity was here to stay framed by relationship to freedom and time which stressed individual agency but precluded the possibility of historical change at the political level However the Great Recession of 2008 opened new spaces for agitation and transformation which has resulted in the discordant politics of the last decade This book will be of interest to scholars working in a number of fields including economic policy cultural analysis political theory and social critique

Liberalism Versus Conservatism François B. Gérard, 2000 Everyone eschews labels yet we all seem to possess them in the minds of legions of politicians marketers and even the ever peering government We are being targeted daily by flaming liberals left wing liberals right wing conservatives compassionate conservatives religious conservatives and liberals pinko liberals middle of the road liberals conservatives and liberals pinko liberals middle of the road liberals and conservatives and of course by neoconservatives and neoliberals The search is on for kindred souls the types who will open their wallets to support whatever it is the hucksters are peddling But what do these concepts mean and do their torchbearers grasp the underlying philosophies or do they care This bibliography lists over hundreds of entries under each category which are then indexed by title and author

The Postmodern Imagination of Russell Kirk Gerald J. Russello, 2007 Russello examines Russell Kirk's development of the imagination as a tool of conservative discourse offering an alternative genealogy for conservative thought that melds its antimodernism with postmodern themes Provided by publisher

[Darker Legacies of Law in Europe](#) Christian Joerges, Navraj Singh Ghaleigh, 2003-05-22 The legal scholarship of the National Socialist and Fascist period of the 20th century and its subsequent reverberation throughout European law and legal tradition has recently become the focus of intense scholarly discussion This volume presents theoretical historical and legal inquiries into the legacy of National Socialism and Fascism written by a group of the leading scholars in this field Their essays are wide ranging covering the reception of National Socialist and Fascist ideologies into legal scholarship contemporary perceptions of Nazi Law in the Anglo American world parallels and differences among authoritarian regimes in the Third Reich Austria Italy Spain and Vichy France how formerly authoritarian countries have dealt with their legal antecedents continuities and discontinuities in legal thought in private law public law labour law international and European law and the legal profession's endogenous

obedience and the pains of Vergangenheitsbewältigung The majority of the contributions were first presented at a conference at the EUI in the autumn of 2000 the others in subsequent series of seminars

Neoconservative Politics and the Supreme Court Stephen M. Feldman, 2012-12-03 In this concise timely book constitutional law expert Stephen M Feldman draws on neoconservative writings to explore the rise of the neocons and their influence on the Supreme Court Neocons burst onto the political scene in the early 1980s via their assault on pluralist democracy's ethical relativism where no pre-existing or higher principles limit the agendas of interest groups Instead they advocated for a resurrection of republican democracy which declares that virtuous citizens and officials pursue the common good Yet despite their original goals neocons quickly became an interest group themselves competing successfully within the pluralist democratic arena When the political winds shifted in 2008 however neocons found themselves shorn of power in Congress and the executive branch But portentously they still controlled the Supreme Court *Neoconservative Politics and the Supreme Court* explains how and why the neoconservatives criticized but operated within pluralist democracy and most important what the entrenchment of neocons on the Supreme Court means for present and future politics and law

Creating Conservatism Michael J. Lee, 2014-08-01 *Creating Conservatism* charts the vital role of canonical post World War II 1945-1964 books in generating guiding and sustaining conservatism as a political force in the United States Dedicated conservatives have argued for decades that the conservative movement was a product of print rather than a march a protest or a pivotal moment of persecution The Road to Serfdom Ideas Have Consequences Witness The Conservative Mind God and Man at Yale The Conscience of a Conservative and other mid-century texts became influential not only among conservative office holders office seekers and well-heeled donors but also at dinner tables school board meetings and neighborhood reading groups These books are remarkable both because they enumerated conservative political positions and because their memorable language demonstrated how to take those positions functioning in essence as debate handbooks Taking an expansive approach the author documents the wide influence of the conservative canon on traditionalist and libertarian conservatives By exploring the varied uses to which each founding text has been put from the Cold War to the culture wars *Creating Conservatism* generates original insights about the struggle over what it means to think and speak conservatively in America

Tracing Nicholas of Cusa's Early Development Jovino de Guzman Miroy, 2009

Divine Democracy Miguel E. Vatter, 2021 Liberal democracies assume neutrality toward the religious beliefs of its citizens the legal system is supposed to determine guilt or innocence without religious prejudice First coined by Carl Schmitt political theology questions these widely held assumptions It describes how political and legal concepts were derived from theological ones dissolving the connection between the public sphere and secularism In this intellectual history Miguel Vatter reconstructs how and why the discourse of political theology was adopted and repurposed by anti-Schmittian thinkers to bolster the legitimacy of liberal democratic government Ultimately he shows to what extent contemporary democracy rests on theological assumptions Book jacket

The Social in Question Patrick Joyce, 2012-12-06

With postmodernism has come the questioning of the very idea of the social Thinkers form across the social sciences and humanities now agree that this one foundational concept can no longer be taken for granted as an objective or real characteristic of the world However their uncertainty has taken on many guises and the social in Question represents an attempt to pull these diverse forms of questioning together Drawn from sociology cultural studies history and theology an international and eminent cast of contributors look at how the idea of the social developed from its mediaeval foundations to its consolidation in the early twentieth century The book then charts how the concept has been brought into the question by critiques from science studies cultural studies and postcolonial studies before going on to look at how new framework are being proposed for the exploration of issues formerly seen as the social This book makes a fascinating contribution to the rethinking of contemporary academic activity

Social Catholicism for the Twenty-First Century?--Volume 1 William F. Murphy, 2024-09-12 This first of two volumes introduces the tradition of social Catholicism not only in its earlier realizations but regarding how a contemporary renewal might address the crisis in which constitutional democracies and the postwar liberal order are under assault by populist and even neo fascist movements that could soon usher in a frighteningly dark future unless a broad movement in defense of constitutional democracy quickly arises In this context some of the most influential voices among American Catholics are focused on criticizing liberal democracy on advocating a postliberal order and the establishment of a Catholic integralist state or on insisting that abortion should be the primary sociopolitical concern for Catholics treating these threats to democracy as largely irrelevant This volume shows the rich tradition of social Catholicism and how the Social Doctrine of the Church came to appreciate the key tenets of constitutional democracy As Pope Benedict XVI wrote this social doctrine leads us to take a stand for the common good to take the institutional or political path of charity to be solicitous for the institutions that give structure to the life of society juridically civilly politically and culturally It engages some of the most influential contemporary Catholic thinkers and argues that they too should recognize the grave threats facing the human family and join in working to defend and renew our constitutional democracy

The European Renaissance in American Life Paul F. Grendler, 2006-03-30 An informative but light hearted look at the popularity of the Renaissance today this book was written by a Renaissance scholar intrigued with the way his subject continues to resonate outside the scholarly community His purpose is to uncover and describe the many manifestations of America s love of the Renaissance Why do millions don costumes to attend Renaissance Faires Why do novels and films about the period enjoy continued popularity as do Renaissance icons such as Elizabeth I Michelangelo Shakespeare and the Mona Lisa How is it that American politicians and business leaders still look to Machiavelli as a symbol of wisdom or of evil Grendler posits that Americans embrace the Renaissance as a model of culture and sophistication seeing it as confirmation that the individual can achieve greatness against long odds a belief at the core of our own society After an examination of The Real Renaissance 1400 1620 the book looks at ways in which Americans relive the experience including Faires and

Living Last Suppers ways in which we re create the Renaissance in our own world and finally ways in which the Renaissance is portrayed for better or worse in fiction and film

Thank you very much for downloading **Revolt Against Modernity Leo Strauss Eric Voegelin And The Search For A Postliberal Order**. Most likely you have knowledge that, people have look numerous period for their favorite books later than this Revolt Against Modernity Leo Strauss Eric Voegelin And The Search For A Postliberal Order, but stop going on in harmful downloads.
