of the South Seas Leigh Hadley Irvine, 1901 **A Commentary on Euripides' Iphigenia in Tauris** Poulheria Kyriakou, 2012-02-14 This work is the first major commentary on Euripides Iphigenia in Tauris to appear in English in more than 65 years It offers detailed analysis of a fascinating play that scholars so far had considered mainly as a source of

information about Athenian cult and viewed as a romantic adventure story with happy end Apart from including sober assessments of textual linguistic and metrical problems the commentary sheds new light on the play s treatment of myth its intricate structure presentation of character and place in Euripides work In particular it offers fresh insights into the play s relationship to the literary tradition especially its treatment of the crimes of the Pelopids and its presentation of the complex ambiguous relationship of humans and gods as well as that of Greeks and barbarians Unlike most other tragedies Iphigenia in Tauris does not feature any villain and avoids concentrating on past crimes and their corrosive influence on the characters present The Taurians are not portrayed simply as savage and slow barbarians and Iphigenia the most intelligent character fails to transcend her limitations Religion and cult in both myth and contemporary Athens are a mixture of traditional and invented elements and the play as a whole turns out to be an intriguing and unique experiment in Euripides career

Asian American Fiction After 1965 Christopher T. Fan,2024-04-23 After the 1965 Immigration and Nationality Act loosened discriminatory restrictions people from Northeast Asian countries such as South Korea Taiwan Japan and eventually China immigrated to the United States in large numbers Highly skilled Asian immigrants flocked to professional managerial occupations especially in science technology engineering and math Asian American literature is now overwhelmingly defined by this generation s children who often struggled with parental and social expectations that they would pursue lucrative careers on their way to becoming writers Christopher T Fan offers a new way to understand Asian American fiction through the lens of the class and race formations that shaped its authors both in the United States and in Northeast Asia In readings of writers including Ted Chiang Chang rae Lee Ken Liu Ling Ma Ruth Ozeki Kathy Wang and Charles Yu he examines how Asian American fiction maps the immigrant narrative of intergenerational conflict onto the two cultures conflict between the arts and sciences Fan argues that the self consciousness found in these writers works is a legacy of Japanese and American modernization projects that emphasized technical and

scientific skills in service of rapid industrialization He considers Asian American writers attraction to science fiction the figure of the engineer and notions of the postracial modernization theory and time travel and what happens when the dream of a stable professional identity encounters the realities of deprofessionalization and proletarianization Through a transnational and historical materialist approach this groundbreaking book illuminates what makes texts and authors Asian American

At the Margins of Orthodoxy Paul W. Werth, 2018-05-31 In a period of dramatic social change when Orthodoxy and nationalism were the twin pillars of the Russian state how did the tsarist bureaucracy govern an expansive realm inhabited by the peoples of many nations and ethnicities professing various faiths Did the nature of tsarist rule change over time and did it vary from region to region Paul W Werth considers these large questions in his survey of imperial Russian rule in the vast Volga Kama region First conquered in the sixteenth century the Volga Kama lands were by the nineteenth century both part of the Russian heartland and resolutely other the home of a mix of Slavic Finnic and Turkic peoples where the urge to assimilate was always counterbalanced by determined efforts to preserve cultural and religious differences The Volga Kama thus poses the dilemmas of empire in especially complex and telling ways Drawing on a wide range of printed and archival sources Werth untangles and reconstructs this complicated history focusing on the ways in which the tsarist state and Orthodox missions used conversion in their ongoing and regularly frustrated efforts to transform the region's Muslim and animist populations into imperial Orthodox citizens He shows that the regime became less concerned with religion and more concerned with secular attributes as the marker of cultural differences an emphasis that would change dramatically in the early years of Soviet rule
