The ballad minstrelsy of Scotland, romantic and historical, with notes and introduction Scotland,1872 *The Barnett formula* Great Britain: Parliament: House of Lords: Select Committee on the Barnett Formula,2009-07-17 The Barnett Formula is the mechanism used by the United Kingdom Government to allocate more than half of total public expenditure in Scotland Wales and Northern Ireland The Formula has been used for the last thirty years to determine the annual increase in allocation the increment Each year these increments are added on to the previous year s allocation the baseline to create what is now a significant block grant of funds The Formula accounted for almost 49 billion of public spending in 2007 08 Despite the political changes within the United Kingdom the Formula has continued to be used and has never been reviewed or revised The Formula was only intended to be a short term measure and should no longer be A UK Funding Commission should be established to assess relative need in the UK s regions and advise on a new method of distributing funding to reflect those needs The baseline has never been reviewed to take account of changing population patterns this means that the grant provides funds without reference to the needs of each of the countries and regions of the UK There should be a link between the grant of funds made to each of the administrations and their actual per capita funding needs The Committee s research suggests that England and Scotland have markedly lower

overall needs per head of population than Wales and Northern Ireland The Committee suggest that the UK Funding Commission undertake an assessment of relative need now and in the future and that they undertake periodic reviews as well as publish annual data about the allocation of funding between the devolved administrations

The Referendum on Separation for Scotland, Session 2012-13 Great Britain: Parliament: House of Commons: Scottish Affairs Committee, 2012-08-07 For related report see HCP 542 ISBN 9780215047519 [HC 504 - The Implications of Scottish Independence on Business; Higher Education and Research; and Postal Services](#) Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee, 2014-08-08 A Yes vote for independence will break up the UK single market and in the short term could leave Scottish businesses uncertain of their position in Europe says the Business Innovation and Skills Committee in this report A protracted Scottish negotiation over EU membership and the uncertain investment environment arising from a Yes vote will have a damaging impact on businesses in Scotland as well as other parts of the UK The Committee raises serious concerns that a Yes vote may also leave Scotland facing a currency limbo and in the short term unable to join a sterling currency union and without the prospect of

adopting the Euro Also the Scottish Government s stated intention to renationalise the Royal Mail upon achieving independence is an un costed aspiration bereft of any detail of how it is to be paid for or how it would be done The Committee also fears for the future of the Universal Postal Obligation in an independent Scotland with its continued survival likely to be secured only at significant additional cost On higher education the Committee explored the topics of student fees and UK research collaboration The central plank of the Scottish Government s HE policy to charge tuition fees to students from other parts of the UK was likely to be illegal under EU law The Committee also expressed concerns this policy would result in Scottish universities facing a financial shortfall given the significant income currently received for non domiciled UK students
