A Look at the Environment Margaret Sanford Pursell, 1976 Text and photographs explain the importance of a balanced environment the disturbance to nature caused by cities and steps we can take to improve our surroundings **Looking at the Environment** David T. Suzuki, Barbara Hehner, 1989 *Teaching Climate Change and Sustainability in the Primary Curriculum* Karin Doull, Susan Ogier, 2023-11-18 The first aim of the DfE's 2022 Strategy for Sustainability and Climate Change is to prepare all young people for a world impacted by climate change through learning and practical experience This practical text for new teachers empowers them to develop their knowledge and understanding of climate change and sustainability It supports them to develop confidence in discussing difficult themes and to create safe learning spaces that allow children to articulate concerns The book provides a structure for learning and teaching about climate change and sustainability across the primary curriculum All chapters are linked to relevant and authentic research and include suggestions for practical activities **Natural environment white paper** Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs Committee, 2012-07-17 The Environment Food and Rural Affairs Committee express concern that more than one year on from publication of the natural environment white paper *The Natural Choice* securing the value of nature Cm 8082 ISBN 9780101808224 Defra has failed to set out clear plans to ensure that government decision making fully values the services nature provides All government policy should fully value natural capital Government Ministers must also publish an action plan with a timetable to deliver each of the White Paper's 92 commitments give planners and developers guidance on how the National Planning Policy Framework can be used to protect Nature Improvement Areas fully assess the benefits and costs of environmental regulation to prevent a perception that environmental protection imposes a drag on the UK economy publish the Government's response to advice from the Natural Capital Committee The report also concludes that biodiversity offsetting can deliver positive impacts on the natural environment the target to end all peat use by 2030 shows a lamentable lack of ambition and a review of progress must be brought forward to 2014 Defra must set a target to increase public engagement with nature since local authorities NGOs and charities can only secure funding for environmental projects when they can demonstrate measurable success the Department for Health and the Department for Education must define measurements which demonstrate how greater public engagement with nature delivers gains in public health and educational attainment the entire coastal path around England should be in place within 10 years *Fiscal Year 1993 Department of Energy Authorization (environment, Safety, and Health Programs)* United States.
