Natural environment white paper Great Britain: Parliament: House of Commons: Environment, Food and Rural Affairs
Committee, 2012-07-17 The Environment Food and Rural Affairs Committee express concern that more than one year on from
publication of the natural environment white paper The Natural Choice securing the value of nature Cm 8082 ISBN
9780101808224 Defra has failed to set out clear plans to ensure that government decision making fully values the services
nature provides All government policy should fully value natural capital Government Ministers must also publish an action
plan with a timetable to deliver each of the White Paper s 92 commitments give planners and developers guidance on how
the National Planning Policy Framework can be used to protect Nature Improvement Areas fully assess the benefits and costs
of environmental regulation to prevent a perception that environmental protection imposes a drag on the UK economy
publish the Government s response to advice from the Natural Capital Committee The report also concludes that biodiversity
offsetting can deliver positive impacts on the natural environment the target to end all peat use by 2030 shows a lamentable
lack of ambition and a review of progress must be brought forward to 2014 Defra must set a target to increase public
engagement with nature since local authorities NGOs and charities can only secure funding for environmental projects when
they can demonstrate measurable success the Department for Health and the Department for Education must define
measurements which demonstrate how greater public engagement with nature delivers gains in public health and
educational attainment the entire coastal path around England should be in place within 10 years **Interior,
